

TOWN OF CLIFTON PARK TOWN BOARD MEETING

January 3, 2023

The Town Board meeting can be viewed live by visiting www.cliftonpark.org Scroll down to click

- I. Call to Order/7:07 P. M. – Wood Room, Town Hall following Organizational Meeting**
- II. Roll Call**
- III. Approval of Town Board Minutes**
- IV. Communications/Announcements –**
- V. Business**
 - **Resolutions for Consideration**
 - **Other Business**
- VI. Open Public Privilege**

NOTE:

Please check www.cliftonpark.org for final agenda and updates. Each speaker shall state name and address prior to addressing the Board and shall be granted the floor for a single time frame of up to five minutes. The Board asks that members of the public respect the opportunity of the speaker at the podium to be heard, and asks that the public refrain from conducting side meetings within the meeting room. In an effort to ensure that the widest number of community viewpoints are heard, the Board asks members of groups or the public to withhold comment, if their viewpoints have already been presented. The Board thanks everyone in attendance for their understanding and also for their desire to actively participate in the Town decision making process.

- VII. Adjournment**

Resolutions for Consideration
Clifton Park Town Board Meeting
January 3, 2023

Accessories

E-Z Vac™ DFS Collection System

Quiet and powerful, the Toro E-Z Vac™ collection system is spindle-driven and offers quick conversion between bagging and side discharge without tools. The horizontal blower impeller is positioned parallel to, and above the mower deck creating continuous airflow from deck to collection system. The Dump-From-the-Seat (DFS) features allows you to dump debris in only seconds - without ever having to leave your seat!

Deck-mounted, spindle-driven fan; Dump-From-the-Seat, commercial-grade steel and polyethylene hopper; 8.3 cu. ft. capacity (6.7 bushels).
L 48" deck - 103.2" (262.0 cm)
W 48" deck - 63.9" (162.3 cm)
L 52" deck - 103.2" (262.0 cm)
W 52" deck - 67.8" (172.1 cm)

Deck-mounted, spindle-driven fan; Dump-From-the-Seat, commercial-grade steel and polyethylene hopper; 13.7 cu. ft. capacity (11 bushels).
L 60" deck - 107.1" (271.9 cm)
W 60" deck - 75.2" (191.1 cm)
L 72" deck - 110.2" (281.3 cm)
W 72" deck - 87.2" (221.1 cm)
NOTE: Length & width measurements are as installed.

E-Z Vac Twin & Triple Bagger Systems

These baggers deliver the convenience and versatility essential to landscape professionals' productivity. The no-tools, quick-release design allows you to remove the collection system with ease, making it a snap to alternate between bagging and side-discharge.

E-Z VAC TWIN BAGGER

Deck-mounted, spindle-driven fan; 2 commercial-grade mesh bags with reinforced front and bottom; 10 cu. ft. capacity (8 bushels).
L 48" deck - 102.3" (259.8 cm)
W 48" deck - 63.8" (162.1 cm)
L 52" deck - 102.3" (259.8 cm)
W 52" deck - 67.7" (172.0 cm)

E-Z VAC TRIPLE BAGGER

Deck-mounted, spindle-driven fan; 3 commercial-grade mesh bags with reinforced front and bottom; 16.7 cu. ft. capacity (13.4 bushels).

Light Kit

 Ask ToroBot

The lights easily mount to the mower frame and wiring quickly connects to the existing accessory circuit.

Part # 107-9880 - 7000 Series and Z100-Z500

Part # 116-1154 - G3 and 3000/5000/6000 Series

Part # 130-8469 - 8000 Series Direct Collect Z

Part # 114-3505 - All Grandstands (2015 models and prior)

Part # 133-1437 - All Grandstands (2016 models)

Part # 133-1495 - All Grandstands (2016 models)

Operator-Controlled Discharge Chute

Landscape friendly rubber discharge chute provides complete control of clippings. with three discharge settings, from wide open to blocked, the OCDC will put the clippings where you want them and not in beds, streets, etc. The integral design allows the discharge chute to remain in place and on the machine, reducing the risk of personal injury and property damage.

Optional Blades

In addition to the high sail blade, which comes standard on Z Master® Z590 Series mowers, additional 1/4" (6 mm) blades are available to match regional and seasonal mowing conditions. Options include Recycler® and Atomic® mulching blades, medium sail Bahai blades, and low sail sand blades.

Recycler® Mulching Kits

Recycler mulching kits deliver the industry's finest mulching performance and reduce mowing time up to 38% vs. bagging*.

*Respondents in a Texas A&M University study cut their lawns 38% faster when they didn't bag.

Toro Z Stand™

Exclusive Toro Z Stand provides an on-board tool to simply elevate the front end of the machine and provide access to the underside of the deck.

Part # 105-1622 Z Stand Kit - Z200, Z500, 7000 Series

Part # 117-0354 Z Stand Kit - 72" 5000/6000 Series (Excludes Rear Discharge 74944)

Part # 121-4811 Z Stand Kit - 48"-60" 2000/3000/5000/6000 Series

- [Q](#)

The new Turbo Turf HM-500-T is an ideal hydroseeder for those who need to spray difficult materials and heavy slurries. The HM-500-T will play with even the most difficult materials and make the hardest job a snap. The aggressive paddle agitation allows you to load full bales without the need to break them up. The positive displacement Bowtie gear pump allows you to spray thick slurries of any hydro seeding or erosion control mulch through up to 500 feet of hose.

Never worry about rust again. Turbo Turf's poly tank can never rust and comes with a 20 year pro rated warranty. While others scrape, sand and recoat their metal tank units you can be doing more productive things. The HM-500-T hydroseeder is designed so that the rugged poly tank serves only as a carrier for the slurry. All moving parts are supported by heavy structural steel which has no contact with the fluids. Turbo Turf's mixing system is made to last and to have the lowest maintenance requirements of any unit on the market.

The Turbo Turf HM-500-T hydroseeder is the best value in the industry with standard features like the front loading and spraying platform, the ability to draw water from a pond or stream (suction hose not included). These standard features add thousands of dollars to competitive units. The Turbo Turf HM-500-T features the best performance and best value in the industry.

Many in the industry saw the concept of a paddle (mechanically agitated) hydroseeder using a "PLASTIC" tank as having great potential. Early attempts by others involved hanging a bearing on the plastic tank and this approach did not work well. Turbo Turf took a whole new approach. The bearings and agitator shaft are supported completely by heavy structural steel supports and the tank is used for nothing but holding the material. There is no stress whatsoever on the tank and the entire mixing system would run without the tank even being present. This system has now been on the market for several years without a single failure. The system is so reliable that Turbo Turf has introduced a 20 year pro rated tank warranty on mechanical units such as the HM-500-T

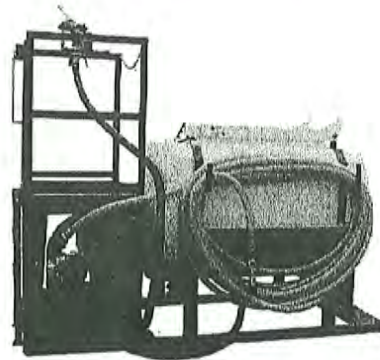

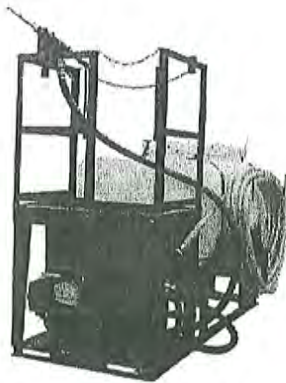

Specifications

Tank Capacity	500 Gallons
Engine HM-500-TR	13 H.P. Honda with recoil start
Engine HM-500-T	13 H.P. Honda with electric start
Pump	2300 series Bowtie positive displacement gear pump

Tank Capacity	500 Gallons
Skid Size	45" x 115"
Overall size	68" x 114" x 90"
Coverage (sq. ft)	6,600 sq. ft.
Empty Weight	1510 pounds
Loaded Weight	5100 pounds
Standard Hose	100 feet of 1 1/2" hose

RESOLUTION NO. 5

Resolution No. _____ of 2023, a resolution authorizing the retention of MJ Engineering and Land Surveying for consulting services associated with a project to upgrade playground equipment in the Country Knolls Park within the Long kill 1 Park District.

Introduced by _____, who moved its adoption, seconded by _____.

WHEREAS, The Park District Committee for the Country Knolls Park District has asked the Parks, Buildings and Grounds Director to initiate action to upgrade playground equipment at the Country Knolls Park, and

WHEREAS, MJ Engineering has submitted a quote in the amount of \$8400.00 for the engineering work associated with producing plans and specifications, preparation of bid documents and bid phase services, along with the conduct of meetings with residents and stakeholders and site visits necessary for the planning, and execution of bid documents and bid phase services necessary to advance the project, and

WHEREAS, Mr. Clements advises that MJ Engineering has completed similar playground equipment upgrade projects for the Town, and has successfully planned, specified, and prepared bid documents of a similar nature in each case, and advises that the quoted fee is consistent with the work required for the project, and

WHEREAS, the supervisor is authorized to procure the services of professional engineering and consulting firms by the town's procurement policy and by Resolution 1 of 2023; now, therefore, be it

RESOLVED, that Mr. Clemens is authorized to notify MJ Engineering to proceed on the project as quoted in their December 20, 2022 correspondence, attached, and be it further

RESOLVED, that the supervisor is authorized to sign a contract with MJ Engineering and Land Surveying P.C. consistent with their quote as attached to be paid with a transfer of \$8,400.00 from SP5-915 (Longkill I – Assigned Fund Balance) to SP5-7123-135 (Longkill I – Longkill I – Engineering)

December 20, 2022

Mr. Daniel Clemens
Buildings and Grounds Supervisor
Town of Clifton Park
One Town Hall Plaza
Clifton Park, NY 12065

RE: Country Knolls Park
Town of Clifton Park
MJ Proposal No. 2022652 for Engineering Services

Dear Mr. Clemens:

M. J. Engineering and Land Surveying, P.C. (MJ) is pleased to provide the Town of Clifton Park (Town) this proposal for professional services for improvements to Country Knolls Park located in the Longkill 1 Park District. MJ's project understanding and associated Scope of Services are included below.

PROJECT UNDERSTANDING

The Country Knolls Park, located within the Longkill 1 Park District, includes several large play features and wood mulch bedding that are aging and in need of replacement. Based upon the email received on December 8, 2022, MJ understands that the Town is seeking professional services to complete contract documents for bidding, including plans and specifications for playground equipment at Country Knolls Park. MJ offers the following Scope of Services:

SCOPE OF SERVICES

- **Task 1 – Kickoff Meeting and Condition Assessment:** MJ will coordinate a kickoff meeting with the Town and stakeholders and conduct a site visit to review existing conditions, take measurements, and draft a scope of work for proposed improvements. MJ will distribute a brief meeting summary clearly indicating the understandings reached at the meeting.
- **Task 2 Project Documents:** MJ will prepare plans, specifications and bid documents, certified by a licensed engineer ready for public bidding. MJ will also provide a budget estimate based upon the proposed improvements. We assume up to two progress meetings will be required to review the scope of work and address any questions or comments from the Town.
- **Task 3 Bid Phase Services:** MJ will provide bid phase services to include answering questions from potential bidders, issuing any required addenda, attend the bid opening, review the low bidder's qualifications, recommend award to Town Board, and coordinate the execution of contract documents.

- **Task 4 Construction Phase Services:** MJ will provide construction phase services including the coordination of and attendance at the pre-construction/coordination meeting with the low bidder and Town, review of material submittals, review of payment requests, and coordinate closeout paperwork.

FEE

MJ will complete the above scope of services for the following Lump Sum Fee:

Task 1 – Kickoff Meeting and Condition Assessment	\$900
Task 2 – Project Documents.....	\$4,500
Task 3 – Bid Phase Services.....	\$1,000
Task 4 – Construction Phase Services	\$2,000
	Total Fee \$8,400

The estimated fee assumes there are no significant changes resulting from decisions, conditions and/or events beyond MJ's control.

ASSUMPTIONS AND TASKS NOT INCLUDED IN THIS PROPOSAL

This proposal has been prepared assuming the following:

1. Base mapping for the project will be developed from aerial imagery and available NYS data sets. Topographic and boundary survey is not included.
2. Construction inspection services are excluded from this scope of work.

SUMMARY

Thank you for the invitation to submit this proposal. Receipt of the Town's formal written authorization to proceed will permit us to commence the work outlined above. We look forward to the opportunity to work with the Town on this project. Should you have any questions or concerns, please do not hesitate to contact Jenny Lippmann at (518) 371-0799x462 or at jlippmann@mjels.com.

Sincerely,

Michael D. Panichelli, P.E.
President

AUTHORIZATION TO PROCEED

I hereby authorize M.J. Engineering and Land Surveying, P.C. to proceed with the scope of services as described above, and in accordance with the Consultant Agreement between MJ and the Town of Clifton Park.

Subject: Playground Equipment Replacement - Country Knolls Park

Hello Dan,

As we discussed when we met at the Country Knolls Park playground, I would like to proceed with the MJ Engineering proposal for replacement of most of the existing playground equipment. If you could please initiate the action required to retain their services with regard to this project, I would be most appreciative,

Thank you for your assistance. Please advise if you require anything further from me.

Warmest wishes for the Christmas Season.

Glenn Valle
Longkill 1 Park District Administrator
