NOTE:

Please check www.cliftonparkny.gov for final agenda and updates. Each speaker shall state name and address prior to addressing the Board and shall be granted the floor for a single time frame of up to three minutes. The Board asks that members of the public respect the opportunity of the speaker at the podium to be heard, and asks that the public refrain from conducting side meetings within the meeting room. In an effort to ensure that the widest number of community viewpoints are heard, the Board asks members of groups or the public to withhold comment, if their viewpoints have already been presented. The Board

thanks everyone in attendance for their understanding and also for their desire to actively participate in the Town decision making process.

IX. Adjournment

TOWN OF CLIFTON PARK
COUNTY OF SARATOGA
STATE OF NEW YORK

NOTICE OF PUBLIC HEARING TO CONSIDER PROHIBITING THE SALE,
DISTRIBUTION, POSSESSION FOR SALE AND PUBLIC DISPLAY OF KRATOM AND
KRATOM-DERIVED PRODUCTS WITHIN THE TOWN OF CLIFTON PARK.

Please take notice that the Town Board of the Town of Clifton Park will conduct a public hearing on Tuesday, October 6, 2026, at 7:02 PM in the Wood Memorial Meeting Room in the Town Office Building, located at One Town Hall Plaza, Town of Clifton Park, County of Saratoga, State of New York, whereas, the Town Board wishes to consider prohibiting the sale, distribution, possession for sale, and public display of Kratom and Kratom-derived products within the Town of Clifton Park.

Copies of the proposed local law are posted on our website cliftonparkny.gov and is also available for review in the Town Clerk's office during normal business hours.

Caitlin Fantini,
Clifton Park Town Clerk

RE: A LOCAL LAW PROHIBITING THE SALE AND DISTRIBUTION OF
CONCENTRATED AND SYNTHETIC 7-HYDROXYMITRAGYNINE (7-
OH) 1CRATOM PRODUCTS IN THE TOWN OF CLIFTON PARK

BE IT ENACTED by the Town Board of the Town of Clifton Park, State of New York, as follows:

SECTION 1. LEGISLATIVE INTENT.

Kratom, a tropical tree (Mitragyna speciosa) native to Southeast Asia, contains multiple compounds (including mitragynine and 7-hydroxymitragynine) that act upon the same receptors in the brain as opioid drugs. These compounds produce similar effects as opioids, such as sedation, nausea, vomiting, constipation, physical dependence and withdrawal, and respiratory depression that may lead to death. There are no drugs approved by the U.S. Food and Drug Administration ("FDA") that contain kratom, and the FDA warns that kratom is not safe for use as a dietary supplement, citing the risk of serious adverse events such as liver toxicity, seizures, and substance use disorder. While 7-hydroxymitragynine occurs only in trace amounts in the natural kratom leaf, concentrated and synthetic 7-hydroxymitragynine ("7-OH") products now sold in retail stores contain this compound at levels far exceeding those found in the plant, producing potent opioid-like effects and a heightened risk of dependence, overdose, and death.

The Town Board finds that, to protect the health and safety of Town residents, products containing elevated concentrations of 7-hydroxymitragynine should not be sold or distributed in Dutchess County.

SECTION- 2. AUTHORITY.

This Local Law is enacted pursuant to New York Municipal Home Rule Law § 10(1)(ii)(a)(12), as it relates to the protection, order, conduct, safety, health, and well-being of Town of Clifton Park residents.

SECTION 3. DEFINITIONS.

(a) "Kratom" means any part of the plant Mitragyna speciosa, whether growing or not; any compound, manufacture, salt, derivative, mixture, or preparation of such plant; all chemical compounds and alkaloids derived from such plant, including but not limited to mitragynine and 7-hydroxymitragynine; and all synthetic and semi-synthetic derivatives of such plant, including but not limited to MGM-15, MGM-16, and mitragynine pseudoindoxyl, or any structural analogue of any such compound, derivative, mixture or alkaloid.

(b) "Kratom Product" means any product, good, article, or item containing, blended with, and/or derived from Kratom, including but not limited to extracts, tinctures, beverages, powders, capsules, tablets, foods, gummies, vapes, and prepackaged retail items.

(c) "Person" means any individual, business, company, firm, partnership, limited partnership, limited liability partnership, joint venture, corporation, not-for-profit corporation, limited liability company, estate, trust, or any other-legal entity.

(d) "Prescription" means an official New York State prescription, an electronic prescription, an oral prescription, or an out-of-state prescription as those terms are used in Article 33 of the New York Public Health Law and Article 137-of the New York Education Law.

(e) "Prohibited 7-OH Product" means any Kratom or Kratom Product that contains 7-hydroxymitragynine at a level that exceeds two percent (2%) of the total alkaloids or one milligram (1 mg) per-serving.

SECTION 4. SALE OR DISTRIBUTION PROHIBITED.

No Person may sell, offer for sale, or otherwise distribute a Prohibited 7-OH Product in the Town of Clifton Park to any other Person. This prohibition applies to any Person, including any online platform, wherever located, and a sale, offer for sale, or distribution shall be deemed to occur in the Town of Clifton Park whenever a Prohibited 7-OH Product is delivered or shipped to an address within the Town. This prohibition does not apply to the sale or distribution of a Prohibited 7-OH Product pursuant to a Prescription issued by a Person licensed, authorized, or otherwise permitted in New York State to issue a Prescription. This prohibition will not apply to the sale or distribution of a Prohibited 7-OH Product if that product is approved by the FDA. Liability under this section is strict; it shall-not be a defense to a violation that the Person did not know, or had no reason to know, that a product constituted a Prohibited 7-OH Product.

SECTION 5. ENFORCEMENT AND PENALTIES.

This Local Law shall be enforced by the Town Code Officers. The Safety and Security Director working with the Town Attorney are authorized to take any and all other actions reasonable and necessary to enforce this law in accordance with the authority enumerated in the Town of Clifton Park Code including, but not limited to, conducting inspections; investigating all claims and violations; issuing all notices and orders; and any other processes that may be necessary in the enforcement of this law.

Any Person that sells, offers for sale, or distributes a Prohibited 7-OH Product to another Person shall be subject to a civil penalty of not more than one thousand five hundred dollars (\$1,500) for a first violation, and not more than three thousand dollars (\$3,000) for each subsequent violation. For purposes of this section, a violation shall be considered a subsequent violation if it occurs within thirty-six (36) months of a prior violation by the same Person. Where any such sale, offer for sale, or distribution is made to a person under twenty-one (21) years of age, the maximum civil

penalty for that violation shall be increased by five hundred dollars (\$500). Each sale, offer for sale, or distribution of a Prohibited 7-OH Product shall constitute a separate violation. These penalties do not apply in those circumstances in which the sale or distribution of a Prohibited 7-OH Product is not prohibited by this Local Law.

SECTION 6. SEVERABILITY.

How clause, sentence, paragraph, subdivision, section or part of this law of the application thereof to any person, individual, corporation, firm, partnership, entity, or circumstance shall be adjudged by any court of competent jurisdiction to be invalid or unconstitutional, such order or judgment shall not affect, impair, or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, subdivision, section or part of this law, or in its application to the person, individual corporation, firm, partnership, entity, or circumstance directly involved in the controversy in which such order or judgement shall be rendered.

SECTION 7. REVERSE PREEMPTION

This article shall be null and void on the day that statewide legislation goes into effect incorporating either the same or substantially similar provisions as are contained in this local law or in the event that a pertinent New York State or United States of America administrative agency issues and promulgates regulations preempting such action by the Town of Clifton Park.

SECTION 8. SEORA DETERMINATION.

It is hereby determined, pursuant to the provisions of the New York State Environmental Quality Review Act, ECL § 8-0101, et seq., and its implementing regulations, 6 NYCRR Part 617, that the adoption of this Local Law is a "Type II" Action within the meaning of 6 NYCRR §§ 617.5(c)(26) and (33), and, accordingly, is of a class of actions which do not have a significant impact on the environment and no further review is required.

SECTION 9. EFFECTIVE DATE.

This local law shall take effect immediately upon filing in the Office of the Secretary of State.

TOWN OF CLIFTON PARK
COUNTY OF SARATOGA
STATE OF NEW YORK

NOTICE OF PUBLIC HEARING TO CONSIDER AMENDMENTS TO THE TOWN CODE,
RELATED TO SHORT-TERM RENTALS

Please take notice that the Town Board of the Town of Clifton Park will conduct a public hearing on Tuesday, October 6, 2026, at 7:05 PM in the Wood Memorial Meeting Room in the Town Office Building, located at One Town Hall Plaza, Town of Clifton Park, County of Saratoga, State of New York, whereas, the Town Board wishes to consider amendments to the Town Code, related to Short-term rentals in the Town of Clifton Park.

Copies of the proposed local law are posted on our website cliftonparkny.gov and is also available for review in the Town Clerk's office during normal business hours.

Caitlin Fantini,
Clifton Park Town Clerk

§208-7 Definitions and word usage

SHORT-TERM RENTAL

A short-term rental unit means an entire dwelling unit, or a room, group of rooms, other living or sleeping space, or any other space within a dwelling, made available for rent by guests for less than thirty (30) consecutive days, where the unit is offered for tourist or transient use by the short-term-rental host of the residential unit, and where such unit is located.

§73-1 Definitions.

SHORT-TERM RENTAL

A short-term rental unit means an entire dwelling unit, or a room, group of rooms, other living or sleeping space, or any other space within a dwelling, made available for rent by guests for less than thirty (30) consecutive days, where the unit is offered for tourist or transient use by the short-term-rental host of the residential unit, and where such unit is located.

§73-3.1 **SHORT-TERM RENTALS**

Short-term rentals shall be subject to the following requirements:

- A. A short-term rental may only be operated pursuant to a permit issued by the Town of Clifton Park Department of Building and Development.
- B. Any permit issued for a short-term rental shall only be valid for five (5) years from the date of issuance of the permit and may be renewable on an annual basis.
- C. Any property or parcel for which an owner seeks a permit shall be subject to- an inspection by the Town of Clifton Park Department of Building and Development. Inspections shall be required on an annual basis. Such inspections shall include, but not be limited to, a fire inspection, an electrical inspection, and a septic system inspection if the property is served by private septic system. A certificate of inspection from a licensed engineer will be accepted in lieu of an inspection.
- D. Property owners may not advertise a short-term rental by placing a sign or other posting on the premises subject to the permit.
- E. The definition of Family as set forth in §208-7 of the Clifton Park Town Code shall apply to limit the occupancy of short-term rentals.
- F. Fees for-permits shall be \$200 for a five (5) year period.
- G. Penalties: Any person convicted of the offense of a failure to comply with a notice of violation of the provisions of this chapter shall be subject to a fine of not less than \$500, nor more than \$1,000; for conviction of a second offense, both of which were committed within a period of five years, subject to a fine of not less than \$1,500 nor more than \$2,500; and, upon conviction for a third or subsequent offense, all of which were committed within a period of five years, subject to a fine of not less than \$5,000, nor more than \$10,000. Each week or part thereof that a violation continues shall be deemed a separate offense, and the violation shall be deemed to have commenced on the earlier of the date of, or the date contained in, the notice of violation.

§73-3.2 **REGISTRY**

[Any property in the Town of Clifton Park that is established as a "short term rental unit" at the-time of adoption of this local law, shall be exempt from the prohibitions and requirements established by this local law and shall be "grandfathered as an allowed use, further]

That the owners of the said short term unit shall submit written proof of operation and use of such short term- rental unit to the Town Clerk of the Town of Clifton Park, establishing the use of their property as a short term rental unit, with proof to consist of rental contracts, receipts or some other written proof establishing the use of the property for this stated purpose. The Town Clerk shall maintain a registry of such properties, and dates of submittal of such proof, in the Town Clerk's office, with copies to be forwarded to the Department of Building and Development, which shall maintain a companion registry.

Resolution No. of 2026, a resolution in connection with an investigation of confidential communications being characterized as complaints.

Introduced by Council Member _____, who moved its adoption, seconded by Council Member _____

WHEREAS, Town Deputy Supervisor Reid has written a memo that two confidential employee communications have been made claiming discrimination and workplace harassment regarding Town Attorney Kevin M. Dailey which have been characterized by one or more private citizens at Town Board meetings as sexual harassment complaints; and

WHEREAS Town Attorney Kevin M. Dailey has filed a written complaint with the Town that a town employee, official or contractor with the Town has violated section 900-6 of the Town's Employee Manual and HIPPA by releasing confidential information to third parties who are not directly involved in the investigation or the handling of the referenced complaints; and

WHEREAS the Town Board including the Town Supervisor (hereafter collectively "Town Board"), in furtherance of their responsibilities under section 900-6 of the Town's Employee Manual, have the responsibility to have an impartial investigation conducted of workplace complaints; and

WHEREAS, the Town Board hereby finds it necessary to obtain the complaints and engage an impartial law firm to determine if the workplace harassment and discrimination complaints exist and, if so, to determine if complaints filed by and against the Town Attorney constitute violation of section 902 of the Town's Employee Manual; and

WHEREAS, the Town Board finds it necessary to retain the law firm of Michael Mansion, Esq. to conduct an investigation into whether the workplace discrimination or harassment complaints exist, and if so, whether a referenced complaint constitutes violation of the Town's Non-Discrimination and Harassment in the Workplace Policy set forth at section 902 of the Town's Employee Manual;

WHEREAS, the Town Board finds it necessary to retain the New York State licensed private investigator firm of Capital Investigations Group, LLC to investigate if anyone employed by or who is an officer of the Town, or who is contracted with the Town, released confidential information concerning claimed section 900-2 complaints to town employees and/or third parties, including private individuals, who are not directly involved in the investigation or the handling of the complaints in violation of 900-6 of the Town Employee Manual; and

NOW THEREFORE BE IT

RESOLVED that the law firm of Michael Mansion, Esq. is hereby retained pursuant to the attached agreement to investigate whether any writings submitted to the Town regarding Town Attorney Kevin M. Dailey constitute violations of the Town's Non-Discrimination and

Harassment in the Workplace Policy set forth at section 902 of the Town's Employee Manual; and be it further

RESOLVED that the New York State licensed private investigative firm of Capital Investigations Group, LLC is hereby retained pursuant to the attached agreement to investigate the complaint of Kevin M. Dailey as to who within the town-employment or as a Town officer or as a contractor with access to Confidential Town information released confidential information in violation of the Town's Confidentiality obligations for workplace investigations section 902 of the Town's Non-Discrimination and Harassment in the Workplace Policy; and be it further

RESOLVED that the Town Board is hereby directed to execute the attached Agreements at the conclusion of this Town Board meeting and, that upon at least a majority of the Town Board signing each contract, to provide same to the Town Clerk who will arrange with the Deputy Town Attorney to effect execution by both contractors; and be it further

RESOLVED, that upon completed execution of the contracts, a fully signed copy of each shall be delivered to the Town Clerk and Town Comptroller; and be it further

RESOLVED, that pursuant to section 900-6, all employees and officers of, and contractors with, the Town are required and hereby directed to cooperate in the investigations being conducted by the Michael Mansion, Esq. law firm and Capital Investigations Group, LLC ("the investigators") ; and

RESOLVED that pursuant to section 900-6, all relevant materials including electronic communications, documents, emails or phone records that are relevant to the investigation according to the particular investigator shall be made available by town employees, officers and contractors with the Town to the investigators; and

RESOLVED, the Town Supervisor, Deputy Town Supervisor, Town Board Members and the Town's Human Resources Consultant are hereby directed to deliver any workplace discrimination or harassment complaints made by or against Kevin M. Dailey to the Town Clerk no later than 12 noon on October 7, 2026 to be provided to the investigators as part of their investigative responsibilities; and be it further

RESOLVED that Michael Mansion, Esq. and Capital Investigations Group, LLC are hereby directed to submit written reports of their investigation to the Town Board on or before October 20, 2026; and be it further

RESOLVED that the Town Comptroller is directed to pay the funds for these investigations from the Town's Litigation account.

Re: The Town of Clifton Park ethics matter investigation

Dear Attorney Luibrand:

Please consider this letter to be my written Letter of Engagement pursuant to Part 1215.1 of the Appellate Division of the Supreme Court's Rules and the terms of our Retainer Agreement.

Specifically, you have requested, and I have agreed, to accept the appointment as outside counsel charged with investigating an ethics complaint filed against a town employee. This agreement is subject to Town Board approval.

I will set forth my best legal standards and practices within the guidelines of Part 1200 of the New York State Unified Court System's Rules of Professional Conduct.

I will be billing the Town of Clifton Park at my usual and customary rate of two hundred and twenty five dollars and xx/100 (\$225.00) per hour. Billing shall be in one-tenths (1/10) of an hour. Billing shall also include phone calls, emails, text message or any other form of electronic communication. I shall submit a written bill detailing my legal services performed on behalf of the Town of Clifton Park also setting forth all disbursements, if any. I shall submit my written bill at the conclusion of my charged duties. The Town of Clifton Park agrees to promptly pay such bill upon receipt.

In addition to my hourly rate that is set forth above, any excessive disbursements including, but not limited to, investigative expenses, excessive travel, excessive copying and/or binding shall be reimbursed and are expected to be paid upon request. In the event that such costs are anticipated, I shall notify the Supervisor's Office, the Town Board or you and obtain prior approval, if practicable.

This Agreement covers only those matter(s) detailed herein.

No particular guarantee or outcome is expressed or implied by this Agreement.

If the Town of Clifton Park wishes to retain my services for any additional matters, they shall be negotiated when, and if, appropriate. Any additional legal matters are not within the scope of this Retainer Agreement.

By executing this Agreement, the Town of Clifton Park, New York agrees to the terms set forth herein and agree to be bound by such. Please sign and return one (1) original to me.

Agreed and accepted this ____ day of October 2026.

A handwritten signature in cursive script, appearing to read "Michael P. Mansion".

Resolution No. ____ of 2026, a resolution honoring John P. Scavo Jr., and his over 18 years of service as the Town Director of Planning and Zoning.

Introduced by _____, who moved its adoption, seconded by _____.

WHEREAS, because of the many important contributions that Director of Planning and Zoning John Scavo has made to the Town of Clifton Park, we honor him today; and

WHEREAS, John began his career with the Town of Clifton Park in April of 2008, serving for more than 18 years as Director of Planning, which evolved more recently into the Director of Planning and Zoning. A true leader and partner, John, was an integral part of countless initiatives and accomplishments on behalf of the Town Board, the Town Planning Board, multiple Town committees, and community groups to serve the residents of Clifton Park; and

WHEREAS, in 2008 John initiated a collaboration with the community to conduct the Town of Clifton Park Recreation Plan (2008-2010), with outside consultants, in a plan that led to many projects being implemented by the Town and its various park districts, including new and improved playgrounds across Town; and

WHEREAS, John had a clear vision of the importance of focused planning efforts for the Town Center Area. During his tenure John worked with the Town Board to ensure the Exit 9 area continued to attract business investment and redevelopment as well as expand the concept of focused housing in this area. Projects he led included the Town Center Area Land Use Master Plan (2012); and the follow-up Town Center Zoning project (2015). This eventually led to partnering the Town with the community including the Friends of Clifton Park Open Space, to engage in the purchase of a 37 -acre woodlands that the Town would transform into the Town Center Park, opening in 2022. This two-year project, overseen by John, brought the public and the Town officials into the planning room, sharing a vision and goals while creating an overall master plan; and

WHEREAS, John and his team worked passionately over the years securing outside funding for many types of transportation projects, implementing trails concepts from existing public plans and public interest, including the Crescent Road Trail project, the Moe Road Trail Gap project, and the Erie Canal Community Connector Trail within the Vischer Ferry Nature and Historic Preserve that reconnected Clifton Park to the Town of Halfmoon; and

WHEREAS, his tireless efforts to bring zoning projects and planned development districts to a reality, while coordinating and managing numerous grants, serving on the Highway Safety Committee and being an open and available partner to all Town Board members, Department Heads, and staff has been an inspiration to all who have worked with him; and

WHEREAS, taking the Town's internal processes forward into a more digital age has been a focus for John. Spearheading the utilization of Laserfiche for storing and searching archived

information for various document heavy departments while securing outside grants was a significant improvement for the Town to better serve residents. Along with this, John led the way in transitioning Town departments to Citizenserve software, implementing Granicus software to ensure residents could subscribe to “Clifton Park Connect” for digital Town news and updates, and bringing Spedsta software to the Senior Van department to update and enhance the Senior Van scheduling system; and

WHEREAS, his principal work in Planning led him to review more than 1,000 private development projects, serve as staff to the Planning Board for more than 375 regular Planning Board meetings, meet with private applicants and their consultants, residents, community groups, and Town staff, to listen to concerns, hear ideas, and offer guidance, direction and technical support. He has earned the appreciation and respect from landowners and developers alike for taking the time with them to determine what they could do with their property and how it would best serve the individual as well as the community; now, therefore, be it

RESOLVED, that on behalf of the people of Clifton Park, the Town Board awards the Key to the Town to John Scavo Jr. in recognition of his many accomplishments and contributions to the Town of Clifton Park. We honor his career, serving the community as the Director of Planning for over 18 years and we extend our best wishes to him as he continues in his future endeavors.

Resolution No. __ of 2026, a resolution to adopt a Local Law to prohibit the sale, distribution, possession for sale, and public display of kratom and kratom-derived products within the Town of Clifton Park.

Introduced by _____, who moved its adoption, seconded by _____.

WHEREAS, kratom is a substance derived from the leaves of the *Mitragyna speciosa* tree and is commonly marketed and sold as a “natural herbal supplement” in powdered, capsule, or extract form under various product names and brands; and

WHEREAS, the active compounds in kratom, including mitragynine and 7-hydroxymitragynine, act on opioid receptors in the brain and have been associated with stimulant, sedative, and opioid-like effects depending on dosage; and

WHEREAS, the U.S. Food and Drug Administration has issued multiple warnings regarding the safety of kratom, noting that it is not approved for any medical use, that there is insufficient evidence of its safety or effectiveness, and that it has been linked to serious adverse events including addiction, withdrawal symptoms, seizures, liver damage, and death; and

WHEREAS, Albany in New York State have or are considering taking formal action to ban or restrict the sale of kratom due to public health and safety concerns; and

WHEREAS, the unrestricted availability of kratom in retail establishments within the Town of Clifton Park poses potential risks to the health, safety, and welfare of residents, particularly young people and individuals seeking alternatives to regulated substances; and

WHEREAS, the Clifton Park Town Board has a responsibility to protect the public health and to take reasonable measures to prevent the distribution of substances that may contribute to substance misuse and related harms within the community; and

WHEREAS, on October 6, 2026, the Town Board of Clifton Park held a public hearing on a proposal to prohibit the sale, distribution, possession for sale, and public display of kratom and kratom-derived products within the Town of Clifton Park; and

WHEREAS, the public was given the opportunity to speak in favor of or against the proposed ban; now, therefore, be it

RESOLVED, that Local Law No. __ of 2026, a local law to prohibit the sale, distribution, possession for sale, and public display of kratom and kratom-derived products within the Town of Clifton Park, per the attached, is hereby adopted; and be it further

RESOLVED, that this local law shall take effect immediately upon its adoption.

RE: A LOCAL LAW PROHIBITING THE SALE AND DISTRIBUTION OF
CONCENTRATED AND SYNTHETIC 7-HYDROXYMITRAGYNINE (7-
OH) 1CRATOM PRODUCTS IN THE TOWN OF CLIFTON PARK

BE IT ENACTED by the Town Board of the Town of Clifton Park, State of New York, as follows:

SECTION 1. LEGISLATIVE INTENT.

Kratom, a tropical tree (Mitragyna speciosa) native to Southeast Asia, contains multiple compounds (including mitragynine and 7-hydroxymitragynine) that act upon the same receptors in the brain as opioid drugs. These compounds produce similar effects as opioids, such as sedation, nausea, vomiting, constipation, physical dependence and withdrawal, and respiratory depression that may lead to death. There are no drugs approved by the U.S. Food and Drug Administration ("FDA") that contain kratom, and the FDA warns that kratom is not safe for use as a dietary supplement, citing the risk of serious adverse events such as liver toxicity, seizures, and substance use disorder. While 7-hydroxymitragynine occurs only in trace amounts in the natural kratom leaf, concentrated and synthetic 7-hydroxymitragynine ("7-OH") products now sold in retail stores contain this compound at levels far exceeding those found in the plant, producing potent opioid-like effects and a heightened risk of dependence, overdose, and death.

The Town Board finds that, to protect the health and safety of Town residents, products containing elevated concentrations of 7-hydroxymitragynine should not be sold or distributed in Dutchess County.

SECTION- 2. AUTHORITY.

This Local Law is enacted pursuant to New York Municipal Home Rule Law § 10(1)(ii)(a)(12), as it relates to the protection, order, conduct, safety, health, and well-being of Town of Clifton Park residents.

SECTION 3. DEFINITIONS.

(a) "Kratom" means any part of the plant Mitragyna speciosa, whether growing or not; any compound, manufacture, salt, derivative, mixture, or preparation of such plant; all chemical compounds and alkaloids derived from such plant, including but not limited to mitragynine and 7-hydroxymitragynine; and all synthetic and semi-synthetic derivatives of such plant, including but not limited to MGM-15, MGM-16, and mitragynine pseudoindoxyl, or any structural analogue of any such compound, derivative, mixture or alkaloid.

(b) "Kratom Product" means any product, good, article, or item containing, blended with, and/or derived from Kratom, including but not limited to extracts, tinctures, beverages, powders, capsules; tablets, foods, gummies, vapes, and prepackaged retail items.

(c) "Person" means any individual, business, company, firm, partnership, limited partnership, limited liability partnership, joint venture, corporation, not-for-profit corporation, limited liability company, estate, trust, or any other-legal entity.

(d) "Prescription" means an official New York State prescription, an electronic prescription, an oral prescription, or an out-of-state prescription as those terms are used in Article 33 of the New York Public Health Law and Article 137-of the New York Education Law.

(e) "Prohibited 7-OH Product" means any Kratom or Kratom Product that contains 7-hydroxymitragynine at a level that exceeds two percent (2%) of the total alkaloids or one milligram (1 mg) per-serving.

SECTION 4. SALE OR DISTRIBUTION PROHIBITED.

No Person may sell, offer for sale, or otherwise distribute a Prohibited 7-OH Product in the Town of Clifton Park to any other Person. This prohibition applies to any Person, including any online platform, wherever located, and a sale, offer for sale, or distribution shall be deemed to occur in the Town of Clifton Park whenever a Prohibited 7-OH Product is delivered or shipped to an address within the Town. This prohibition does not apply to the sale or distribution of a Prohibited 7-OH Product pursuant to a Prescription issued by a Person licensed, authorized, or otherwise permitted in New York State to issue a Prescription. This prohibition will not apply to the sale or distribution of a Prohibited 7-OH Product if that product is approved by the FDA. Liability under this section is strict; it shall-not be a defense to a violation that the Person did not know, or had no reason to know, that a product constituted a Prohibited 7-OH Product.

SECTION 5. ENFORCEMENT AND PENALTIES.

This Local Law shall be enforced by the Town Code Officers. The Safety and Security Director working with the Town Attorney are authorized to take any and all other actions reasonable and necessary to enforce this law in accordance with the authority enumerated in the Town of Clifton Park Code including, but not limited to, conducting inspections; investigating all claims and violations; issuing all notices and orders; and any other processes that may be necessary in the enforcement of this law.

Any Person that sells, offers for sale, or distributes a Prohibited 7-OH Product to another Person shall be subject to a civil penalty of not more than one thousand five hundred dollars (\$1,500) for a first violation, and not more than three thousand dollars (\$3,000) for each subsequent violation. For purposes of this section, a violation shall be considered a subsequent violation if it occurs within thirty-six (36) months of a prior violation by the same Person. Where any such sale, offer for sale, or distribution is made to a person under twenty-one (21) years of age, the maximum civil

penalty for that violation shall be increased by five hundred dollars (\$500). Each sale, offer for sale, or distribution of a Prohibited 7-OH Product shall constitute a separate violation. These penalties do not apply in those circumstances in which the sale or distribution of a Prohibited 7-OH Product is not prohibited by this Local Law.

SECTION 6. SEVERABILITY.

Haw clause, sentence, paragraph, subdivision, section or part of this law of the application thereof to any person, individual, corporation, firm, partnership, entity, or circumstance shall be adjudged by any court of competent jurisdiction to be invalid or unconstitutional, such order or judgment shall not affect, impair, or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, subdivision, section or part of this law, or in its application to the person, individual corporation, firm, partnership, entity, or circumstance directly involved in the controversy in which such order or judgement shall be rendered.

SECTION 7. REVERSE PREEMPTION

This article shall *be* null and void on the day that statewide legislation goes into effect incorporating either the same or substantially similar provisions as are contained in this local law or in the event that a pertinent New York State or United States of America administrative agency issues and promulgates regulations preempting such action by the Town of Clifton Park.

SECTION 8. SEORA DETERMINATION.

It is hereby determined, pursuant to the provisions of the New York State Environmental Quality Review Act, ECL § 8-0101, et seq., and its implementing regulations, 6 NYCRR Part 617, that the adoption of this Local Law is a "Type II" Action within the meaning of 6 NYCRR §§ 617.5(c)(26) and (33), and, accordingly, is of a class of actions which do not have a significant impact on the environment and no further review is required.

SECTION 9. EFFECTIVE DATE.

This local law shall take effect immediately upon filing in the Office of the Secretary of State.

Resolution No. ___ of 2026, a resolution to adopt a Local Law to amend the §73-33 and §208-7 of the Town Code to define and regulate short-term rentals in the Town of Clifton Park.

Introduced by _____, who moved its adoption, seconded by _____.

WHEREAS, the Town Board is aware that short-term rentals have become prevalent in Clifton Park and other communities, and

WHEREAS, short-term rentals are not currently regulated by the Town of Clifton Park, and

WHEREAS, on September 15, 2026, the Town Board of Clifton Park held a public hearing on a proposal to consider amendments to the Town Code regarding short-term rentals, and

RESOLVED, that Local No. ___ of 2026, a local law to amend §73-33 and §208-7 of the Town Code, per the attached, is hereby adopted; and be it further

RESOLVED, that this local law shall take effect immediately upon its adoption.

§208-7 Definitions and word usage

SHORT-TERM RENTAL

A short-term rental unit means an entire dwelling unit, or a room, group of rooms, other living or sleeping space, or any other space within a dwelling, made available for rent by guests for less than thirty (30) consecutive days, where the unit is offered for tourist or transient use by the short-term-rental host of the residential unit, and where such unit is located.

§73-1 Definitions.

SHORT-TERM RENTAL

A short-term rental unit means an entire dwelling unit, or a room, group of rooms, other living or sleeping space, or any other space within a dwelling, made available for rent by guests for less than thirty (30) consecutive days, where the unit is offered for tourist or transient use by the short-term-rental host of the residential unit, and where such unit is located.

§73-3.1 **SHORT-TERM RENTALS**

Short-term rentals shall be subject to the following requirements:

- A. A short-term rental may only be operated pursuant to a permit issued by the Town of Clifton Park Department of Building and Development.
- B. Any permit issued for a short-term rental shall only be valid for five (5) years from the date of issuance of the permit and may be renewable on an annual basis.
- C. Any property or parcel for which an owner seeks a permit shall be subject to- an inspection by the Town of Clifton Park Department of Building and Development. Inspections shall be required on an annual basis. Such inspections shall include, but not be limited to, a fire inspection, an electrical inspection, and a septic system inspection if the property is served by private septic system. A certificate of inspection from a licensed engineer will be accepted in lieu of an inspection.
- D. Property owners may not advertise a short-term rental by placing a sign or other posting on the premises subject to the permit.
- E. The definition of Family as set forth in §208-7 of the Clifton Park Town Code shall apply to limit the occupancy of short-term rentals.
- F. Fees for permits shall be \$200 for a five (5) year period.
- G. Penalties: Any person convicted of the offense of a failure to comply with a notice of violation of the provisions of this chapter shall be subject to a fine of not less than \$500, nor more than \$1,000; for conviction of a second offense, both of which were committed within a period of five years, subject to a fine of not less than \$1,500 nor more than \$2,500; and, upon conviction for a third or subsequent offense, all of which were committed within a period of five years, subject to a fine of not less than \$5,000, nor more than \$10,000. Each week or part thereof that a violation continues shall be deemed a separate offense, and the violation shall be deemed to have commenced on the earlier of the date of, or the date contained in, the notice of violation.

§73-3.2 **REGISTRY**

[Any property in the Town of Clifton Park that is established as a "short term rental unit" at the-time of adoption of this local law, shall be exempt from the prohibitions and requirements established by this local law and shall be "grandfathered as an allowed use, further]

That the owners of the-said short term unit shall submit written proof of operation and use of such short term- rental unit to the Town Clerk of the Town of Clifton Park, establishing the use of their property as a short term rental unit, with proof to consist of rental contracts, receipts or some other written proof establishing the use of the property for this stated purpose. The Town Clerk shall maintain a registry of such properties, and dates of submittal of such proof, in the Town Clerk's office, with copies to be forwarded to the Department of Building and Development, which shall. maintain a companion registry.

Resolution No. ___ of 2026, a resolution awarding the Clifton Park Community Trails Connectivity and Active Transportation Plan project to Toole Design.

Introduced by _____, who moved its adoption, and seconded by _____.

WHEREAS, the Town has constructed more than 17 miles of trails and continues to expand pedestrian infrastructure through public investment and the development process, and

WHEREAS, the proposed Town-wide trails master planning effort is intended to establish a comprehensive and implementable vision for Clifton Park's trail, sidewalk, bicycle, pedestrian and active transportation network, and

WHEREAS, at their September 9, 2026 meeting, the Town's Open Space, Trails and Riverfront Committee affirmed its support of such a town-wide public planning project, and

WHEREAS, a Request for Qualifications (RFQ) was solicited with a submission deadline of April 3, 2026, and a selection committee of six reviewers rated Toole Design as the top candidate of the four (4) RFQ responses received, and

WHEREAS, the selection committee evaluated the qualifications, experience, project approach, and demonstrated ability of each respondent to successfully complete the Community Trails Connectivity and Active Transportation Plan, and determined that Toole Design was the most qualified firm to provide the requested professional planning services, and

WHEREAS, Toole Design is a nationally recognized firm with extensive experience in active transportation planning and design, including GIS-based analysis, safety and ADA-focused planning, stakeholder engagement, and preparation of implementable, funding-ready transportation plans, making the firm well-suited to assist the Town in advancing the objectives of the Community Trails Connectivity and Active Transportation Plan, and

WHEREAS, pursuant to the Town's qualifications-based procurement process, the Town wishes to authorize staff to implement the scope of services and project schedule, with Toole Design, for the proposed professional services agreement presented to the Town Board for approval; now, therefore, be it

RESOLVED, that the Town Board of Clifton Park authorizes the awarding of the Clifton Park Community Trails Connectivity and Active Transportation Plan project to Toole Design, Hartford, Connecticut; and be it further

RESOLVED, that the Comptroller is authorized to utilize the Parkland Reserve account for an amount not to exceed \$40,000 for Tasks 1, 2 and 3, of the Town-wide master plan effort for fiscal year 2026; and be it further

RESOLVED, that additional funding for subsequent tasks will require Town Board authorization for fiscal year 2027 funding.

October 1, 2026

To: John Scavo and Jennifer Viggiani

Organization: Town of Clifton Park

From: Kristie Di Cocco

Project: Clifton Park Community Trails Connectivity and Active Transportation Plan

RE: Scope of Work and Fee Proposal

We are pleased to submit this revised scope of services for the development of the Town of Clifton Park Community Trails Connectivity and Active Transportation Bike/Ped Network Plan (RFQ No. 2026-CT-ATMP). Through a scoping call held on June 23, 2026 and further clarifications via email correspondence, the following scope of work reflects our refined approach to be contracted through a lump sum by percent complete basis for a fee not to exceed \$215,000 including expenses between October 2026 and June 2027.

Per a call on September 17, 2026, we understand that the project work will be authorized in two phases. The scope has been separated into a \$40,000 allocation to be completed through December 31, 2026 and the remaining \$175,000 to be completed in 2027. We look forward to working with you on this important endeavor.

Scope of Services

Task 1: Project Management and Coordination

Task 1.1 Project Management and Meetings (2026 and 2027)

Within two weeks of Notice to Proceed, Toole Design will convene a kickoff meeting to

- introduce roles
- outline the critical path of plan development, and
- identify key stakeholders.

This kickoff will establish a shared understanding of project goals, confirm scope and schedule, and set clear expectations for coordination, data needs, and communication throughout the process.

Following the kickoff meeting, the regular cadence for bi-weekly check-in meetings will commence. The meeting schedule will be coordinated with the Project Management Team (PMT) comprised of Town representatives and the Toole Design team. While these meetings are anticipated to consistently offer a virtual platform option, in-person attendance can be accommodated.

Invoicing and progress reports with schedule updates will be prepared monthly to support work developed during each period.

Task 1.2 Project Work Plan (2026)

Within two weeks after the kickoff meeting, Toole Design will develop a draft a Project Work Plan (PWP) that includes:

- A comprehensive project schedule with milestones and anticipated deliverable dates, as well as review periods for the Town and the Project Advisory Committee (PAC).
- A project management communications plan with clear responsibilities and protocols for coordinating with the Town and stakeholders
- A draft public and stakeholder engagement plan and engagement calendar (completed under task 3.1)
- A defined QA/QC process that includes internal reviews of each major deliverable by our technical experts.

Task 1.3 Technical Project Advisory Committee (PAC) and Partner Coordination (2026 and 2027)

We will work with the Town to establish and sustain the Project Advisory Committee (PAC) from kickoff through project completion. The PAC will serve as the plan's technical sounding board and its internal champion—drawing on the following:

- Trails Subcommittee of the Open Space Trails & Riverfront Committee
- GREEN Committee
- Highway Safety Committee
- Town department representatives
- Trails advocates, and
- Town officials.

Beyond the PAC, we recognize that this plan sits within a rich web of partner relationships.

We will develop a stakeholder matrix at kickoff and maintain an active log of partner coordination throughout the project. Partners may include Saratoga County, NYSDOT, CRTC and its Active Transportation Committee, CDTA, Saratoga PLAN and the Countywide Trails Initiative, school districts, the Clifton Park-Halfmoon Public Library, the Southern Saratoga YMCA, CAPTAIN, HOAs, adjacent municipalities, regional trail groups, and key landowners. We will seek collaboration and feedback from the Town to inform the stakeholder matrix.

We will maintain a standing agenda for PAC meetings, distribute meeting notes within five business days, and keep a running log of action items.

Deliverables

- Kickoff meeting and materials (2026)
- Project Management Plan (2026)
- Up to eighteen (18) bi-weekly project check-in meetings
 - 2026: four (4) check-in meetings and one (1) kick-off meeting
 - 2027: fourteen (14) check-in meetings
- Up to six (6) PAC and/or partner coordination Meetings with virtual option
 - 2026: up to one (1) meeting

- 2027: up to five (5) meetings
- Monthly progress reports to support invoices for up to nine (9) months
- Stakeholder matrix and partner coordination log

Task 2: Existing Conditions and Network Assessment

Task 2.1 Review Existing Plans and Previous Progress (2026)

The purpose of this task is to provide the Toole Design team with a baseline understanding of previous planning efforts that identified and recommended active transportation elements. This will aid in informing and aligning the outcomes of this plan with those prior efforts, rather than providing a high-level summary of each plan. A review and inventory of previous plans (up to 17), initiatives, and policy documents that have shaped Clifton Park's trails and active transportation network to date, including the set of plans identified in the Town's Scope of Work will be conducted. These include the following:

- Vischer Ferry Nature & Historic Preserve (VFNHP) Master Plan
- Town of Clifton Park Open Space Plan (2002)
- Western Clifton Park Land Conservation Plan and GEIS (2005)
- Safe Routes to School State Grant with Shenendehowa School District (Clifton Park Center Road and Moe Road)
- Town of Clifton Park Recreation Plan (2008)
- Saratoga County 1975 Trails Plan
- Join Us: A Master Plan for the Historic Erie Canal Towpath Trail
- Saratoga County Green Infrastructure Plan (2006)
- Capital District Trails Plan (2019)
- Water Trails and Access to the Erie Canalway National Heritage Corridor
- Mohawk Towpath Scenic Byway Corridor Management Plan
- Empire State Trails Plan
- Town of Clifton Park ADA Transition Plan (2025)
- Town of Halfmoon Trails Master Plan (2006)
- Exit 9 Land Use and Transportation (Linkage) Study
- Kinns Road Corridor (CR 109) to Farm-to-Market Road study (2026 Draft)
- Trail Feasibility Study - Zim Smith Trail via the Ballston Veterans Trail to Schenectady/Schenectady County (2026 Draft)

To facilitate growth in the network to date, up to five (5) virtual interviews will be conducted with individuals who have been instrumental in Clifton Parks progress. These individuals or groups will be identified in collaboration with the Town. In addition, we will compile and review available data, and recent project information such as the CR-109 Kinns Road Corridor Study to develop a clear understanding of current conditions and how the Town and its active transportation network have evolved.

Task 2.2 - Data Compilation and GIS Base Map (2026)

Following the kickoff meeting, Toole Design in coordination with Byer Planning will prepare a request for data and resources needed to complete the scope of work and create a comprehensive understanding of existing conditions. We will use GIS data provided by and in coordination with Town staff to inventory and assess existing data. This will include transportation and safety-related data, land use data and aerial imagery, GIS data, as well as readily available opensource data from platforms including OpenStreetMap.

We will use additional data sources like Replica to identify gaps, barriers, and areas where connections are incomplete or difficult to navigate, including challenges related to east–west connectivity and regional connections such as access to the Empire State Trail. To a limited extent, we will provide a windshield overview to verify new additions to the active transportation network to update the data.

We will create a MS Excel summary table of available data that includes key information such as data source, limitations, and gaps. This will include available traffic counts, transportation services and amenities (parks and commercial areas), crash data (provided by the Town through the use of CLEAR), demographics, current and future land uses (e.g., plans and proposed developments), schools, as well as available data on roadway and mobility networks, including sidewalks, crossings, trails, transit, and bike infrastructure. Trail usage and counts will be collected from any available local or State resources.

After compiling and reviewing data, we will develop base maps to be used for all planning efforts, including network plan development, and final recommendations. Base maps and associated databases will highlight existing paths and trails, quality and accessibility, as well as proposed infrastructure, crashes, priority areas of need, and traffic volumes for street crossing locations.

Task 2.3 – Gap & Barrier Analysis (2027)

Toole Design proposes performing up to three (3) spatial analyses to better illustrate current active transportation conditions and to serve as inputs for later project tasks (e.g., identifying infrastructure recommendations and project prioritization). This analysis will also work to understand potential project constraints for use in prioritization.

- **Trip Potential Analysis:** An analysis to identify where people are more likely to walk or bike. This uses destination data and population data to estimate current pedestrian activity levels and to model opportunities for short trip mode shifts. This can be a valuable input for project prioritization.
- **Crossing Stress and Gap Analysis:** Using Toole Design's Pedestrian Crossing Level of Traffic Stress methodology, we can rate the comfort of every intersection and mid-block crossing in Clifton Park. We can then calculate gaps between low-stress crossings to illustrate barriers to walkability/bankability.
- **Pedestrian Access Analysis:** Everyone in Clifton Park should be able to walk to nearby destinations such as transit stops, schools, and grocery stores safely and comfortably—but can they? This analysis builds upon stress and comfort analysis to evaluate walksheds to essential destinations and rate the level of access at the parcel or block scale.

Beyond spatial analytic analysis, we will use the crash data provided by the Town to highlight the roadways where pedestrian and bicycle involved crashes occur the most. This analysis will be reflected throughout the mapping conducted in task 2.2 and will help inform the prioritization effort within task 4.

We will produce maps of this analysis and use an interactive, dynamic mapping tool called Felt which will allow Town staff and the PAC to zoom in to gain a better understanding of conditions than they would via a static map. This tool also allows for quicker collaboration and feedback. We will work with Town staff and the PAC to identify up to eight (8) focus area static maps for more detailed mapping.

Mapped barriers and desired routes will inform the state of connectivity and the perception of safety on walking and biking facilities in Clifton Park today.

Deliverables

- Facilitate up to five (5) 1-hour virtual interviews to understand network growth
- Request data memo (pdf)
- Summary table of available data (Excel)
- Up to ten (10) static maps, including focus area maps
- Production and maintenance of a dynamic map produced in Felt
- One draft and final existing conditions and network assessment summary that incorporates
 - Plan, Policy, and Process inventory
 - Network growth interview summary
 - Data analysis and mapping results

Task 3: Public and Stakeholder Engagement

Task 3.1 Public and Stakeholder Engagement Plan (2026)

Input received from both the public and key stakeholders will translate into priorities, scoring criteria, and implementation. Engagement will also address emerging issues identified by the Town, including e-bike use. We understand that emerging issues such as e-bike use, particularly higher-speed devices operating on trails, sidewalks, and local streets, are an increasing concern within the community. This plan will address these challenges directly by combining public input, best practices, and policy guidance to support safe, appropriate use while preserving the comfort and function of the network.

The engagement strategy developed will be documented in the engagement plan and will seek to capture trip purpose (school, work, errands) and where people want to go but can't safely travel today, which will strengthen both prioritization and future funding narratives. Platforms such as Engage Clifton Park along with the Town's Granicus subscription as will be identified as engagement hubs across all phases of the project (initial input, draft review, and prioritization), reinforcing transparency and broadening our reach.

Online surveys conducted in task 3.5 will help to quantify demand for walking and biking access to specific destinations and help us to understand trip purpose. Finally, all the public input received will help shape and validate prioritization criteria to create an actionable plan.

Task 3.2 Targeted and Inclusive Stakeholder Engagement (2026 and 2027)

We will lead targeted stakeholder engagement to gather detailed, decision-oriented input on how Clifton Park's transportation network functions today and where improvements are needed. Through the use of previously noted up to five (5) interviews, listening sessions, or small group discussions, we will work directly with people who use the system in different ways to identify gaps, confirm key destinations, and understand how people move through the network.

We will engage a diverse cross section of the population, including groups such as schools and youth, older adults, people using mobility devices, families and caregivers, employers, developers, advocacy groups, Town departments, and advisory committees. Each conversation will build on public input by focusing on specific barriers, missing connections, and opportunities to improve access to everyday destinations across the Town. We will prioritize outreach to groups that are often underrepresented in traditional engagement. We will translate this input into measurable factors—such as access to a vehicle, mobility challenges, and age-related needs—and map these conditions to identify areas of higher need. These findings will directly inform the Balanced Scorecard, strengthening the Equity and ADA criteria and ensuring that project prioritization reflects community priorities.

We will also work with the Town's GREEN Committee and Climate Smart Communities Task Force to connect this plan to Clifton Park's greenhouse gas reduction goals. Using the Town's existing greenhouse gas emissions data for the transportation sector, we will frame discussions around how expanding active transportation can reduce emissions and support ongoing investments funded through Climate Smart Communities grants.

All materials prepared for this effort will use clear, accessible language, and we will hold meetings in formats and locations that support broad participation. This approach ensures that stakeholder input is not only inclusive, but directly shapes network development, prioritization, and implementation.

Task 3.3 Public Workshops/Open Houses (2027)

Our efforts will include two in-person engagement opportunities at decision making, or decision confirming, points of the planning process. The purpose of the first open house is to validate destinations, gaps, and issues. Participants will be asked to interact with a printed map and will be provided with project background. The second opportunity may take the format of a workshop, with the purpose of reviewing and prioritizing projects. We will advertise these opportunities through various online and in-person channels such as Engage Clifton Park, social media, flyers, and yard signs.

Task 3.4 Public Pop-Up Events (2027)

Working closely with the Town and community partners, the Toole Design team will select up to eight (8) existing locations/events to attend in well-trafficked places or at community events. Participation and management of events will be split between the Toole Design team and the town, with town or community partners facilitating four (4) of the eight (8) events. The pop-ups will have a tent set up throughout town to share project information and collect input from people who live, work, and play within Clifton Park. A map of the town will be present to allow individuals to comment on locations they feel are safe or unsafe, as well as where they want to see better bicycle and pedestrian connections. A peg board with questions about mode use, travel patterns, and preferences will allow for a creative and

interactive activity. This is also a prime opportunity for the project team to promote the public survey and map by providing promotional postcards with QR codes to direct individuals to the web tools.

The pop-ups will be planned in diverse settings and during various days and times of the week to reach people with different schedules and will be coordinated with the Town and PAC. The project team will develop and maintain a detailed calendar to manage pop-up planning, staffing, and logistics. It is anticipated that the intercepts will take place throughout the project lifespan to facilitate community participation at every stage.

To support pop-up efforts, Toole Design will seek to partner with student volunteers from the Shenendehowa School District National Honor Society and National Junior Honor Society members, CAPTAINS, and other community partners. The Toole Design team will provide training to partners to aid in their ability to run the events effectively and so partners feel supported.

Task 3.5 Online Engagement (2027)

Our robust online engagement activities will follow a similar two-phase approach as the in-person opportunities and will be as integrated as possible into the Engage Clifton Park Connect platform.

The first survey will focus on existing conditions with survey questions and a webmap activity. The purpose of the initial survey is to crowdsource barriers, desired routes, near-miss locations, and other experiences on the walking and biking network in Clifton Park.

The survey will also ask general survey questions about demographics, opinions on walking/biking, and opinions on trails. The survey may also ask about the Greenhouse Gas Emissions for Transportation Sector report findings.

The second survey will provide the public with an opportunity to review and prioritize projects, including a prioritization activity. The purpose of this survey is to confirm the direction of plan recommendations, as well as provide a foundation for project prioritization.

Task 3.6 Integration with Prioritization (2027)

The purpose of this task will be to translate engagement results into clear criteria and priorities that will guide decision-making that reflect both technical analysis and community-defined needs. This effort will inform and shape the development of the Balanced Scorecard framework which may include key criteria related to connectivity to destinations, safety and crash risk reduction, equity and ADA access, user experience, and deliverability. This approach provides a clear and transparent way to evaluate projects based on connectivity, safety, access to destinations, feasibility, and community value. It also affords flexibility should the Town desire to adjust weighting to reflect local priorities as they evolve, ensuring results align with Clifton Park's goals in the longer term.

This framework also strengthens the Town's ability to compete for funding by clearly demonstrating how priority projects address identified needs.

The resulting Balanced Scorecard framework will be the tool that will be used to evaluate and prioritize projects in task 4.2.

Task 3.7 Engagement Summary (2027)

The engagement summary is the final report deliverable for this task and will describe the purpose of each engagement opportunity and provide the overarching themes and takeaways from all the input gathered during each phase. This summary will outline the who, why, and how people are using the trails, sidewalks, and connections, and how they would like to use trails/sidewalks/paths in the future. The summary will clearly outline how engagement resulted in structured data which we turn into scorecard inputs which will result in a list of prioritized, implementable projects. The summary will also include full sets of feedback from stakeholder engagement, public workshops, and online engagement for reference as needed during the planning process and after the plan is completed and adopted.

Deliverables

- One draft and final Project Engagement Plan
- Engagement materials and outreach content (two updates)
- Survey and webmap and summary of survey and webmap results
- Workshop materials and summaries with key findings
- Up to five (5) Stakeholder interviews
 - 2026: up to two (2) interviews
 - 2027: up to three (3) interviews
- Preparation for and attendance at up to four (4) in-person pop-up events
- Up to two hours of training and support for each partner led pop-up event
- Balanced Scorecard Framework summary
- One draft and final Engagement Summary memo with documentation of how input informed network development and prioritization

Task 4: Network Development and Prioritization (2027)

Task 4.1 Network Development

Using the results of analysis and engagement, we will define a connected network that links neighborhoods to key destinations. This will include primary corridors, secondary connections, and local access routes. High priority locations will be identified to address the most crucial gaps and improve connectivity.

The draft network maps will be used throughout the process to ground discussions and collect detailed, location-based feedback. This will help confirm key destinations, refine connections, and identify priority gaps.

Task 4.2 Network Prioritization

Clifton Park has clearly identified the need for a transparent and defensible approach to prioritization. Our Balanced Scorecard framework developed in task 3.6 will evaluate projects across key criteria. Each project will be scored consistently, with weighting scenarios developed in collaboration with the Town to reflect local priorities. This approach not only supports informed decision-making, but also strengthens the Town's ability to communicate priorities to stakeholders and compete for state and federal funding.

The outcome of this task will be the development of a three-tier system for network build out:

- **Near-term (0-5 years) Projects:** high-visibility projects that are typically lower cost and can be implemented within one to two years of the Plan completion, building momentum and enthusiasm. Also includes projects that may be more costly but are catalysts for network build-out.
- **Mid-term (5-10 years) Projects:** projects that can implemented as streets are resurfaced or reconstructed or built with capital or grant funding within 10 years of Plan completion.
- **Long-term (10 years+) Projects:** these projects are reserved for the most complex or long-term initiatives with significant benefits, but may require additional study and/or significant financial investment.

Task 4.3 Project Profiles:

For each near and mid-term candidate projects identified in task 4.2 and in support of the 10-year vision for this plan, Toole Design will create project profiles that provide planning-level project definition narratives which will include project type (shared-use path, sidewalk infill, crossing upgrade, protected intersection treatment, nature preserve path improvement, etc.), concept map alignment with recommended countermeasures, treatment, or wayfinding recommendations for each location based on our analysis, engagement, and deep understanding of best practices, typical cross-section where useful, constraint identification (ROW, wetlands, utilities, permitting flags), and planning-level cost ranges. Our goal is for these project sheets to be specific enough to be grant-ready yet flexible enough to accommodate future design development.

Task 4.4 Concept Design:

Planning level concept designs will be provided for the near-term projects identified in task 4.2 up to the budget identified. These concepts may be illustrated in plan view or superimposed over photographs, and will help staff clearly communicate how roadway treatments will improve access and safety at each location. These concepts will also be valuable additions to grant applications.

Task 4.5 Project Costs and Impacts:

Anticipated planning-level construction costs and expected comfort, access, and safety benefits will be calculated for near-term projects up to the budget allocated. Toole Design is a leader in quick-build, demonstration, and micro-engineering strategies that may be utilized to reduce up front capital costs and allow the Town time to monitor the effects safety treatments have on their roadway network before treatments are permanent. This strategy allows the town to act quickly, tweak designs based on ongoing data collection and public comments, and iterate improvements over time based on a scalable annual budget so that progress is not solely dependent on competitive grant wins.

These products, along with project narratives created in task 4.3, are invaluable for quickly completing grant applications. These efforts will help ensure that the Town has the resources and expertise needed to make decisions years after the plan is completed.

Deliverables

- One draft and final Project Profiles for near and mid-term projects
- Draft and final concept designs for near-term projects up to budget allocation
- Planning-level costs for near-term projects up to budget allocation
- One draft and final balanced scorecard prioritization process memo

Task 5: Implementation Strategy (2027)

Task 5.1 - Capital Program Development

This task will outline the steps needed to move near-term projects forward, including design, permitting, and coordination. Funding opportunities will be identified and aligned with the near-term projects, with a focus on positioning the Town for state and federal funding including programs such as Transportation Alternatives Program (TAP), Highway Safety Improvement Program (HSIP), Congestion Mitigation and Air Quality (CMAQ), and Climate Smart Communities grants.

Recommendations will outline project phasing, quick-build opportunities, and integration with planned projects, coordinated with Town staff and aligned with the annual budget. Emphasis will be placed on cost efficiency through economies of scale and lower cost construction strategies, enabling steady progress while positioning larger projects for external funding. We will also provide suggestions that will improve systemic network improvements, such as updated maintenance processes and suggestions for future wayfinding standards and branding. Each near-term project will be positioned with clear narratives and supporting materials to maximize competitiveness.

The plan will also address policy and program considerations that support implementation over time, including emerging issues such as e-bike use, where clear guidance will be needed to balance access, safety, and enforcement.

Task 5.2 – Maintenance and Operations

The Toole Design team will develop operational and maintenance recommendations based on facility priority level and location to guide the Town in maintaining its active transportation assets to maximize use. During one of the anticipated stakeholder meetings, a discussion will be held to include questions about current operations and maintenance procedures, and equipment of similar facilities within the Town. We will consider routine, ongoing maintenance such as snow removal, sweeping, and basic repairs, as well as more comprehensive maintenance including resurfacing facilitates as the pavement reaches the end of its lifecycle.

Toole Design will prepare up to three (3) case studies (1-2 pages of copy each) for maintenance and operations including best practice policies that address each operation and maintenance category outlined above.

Deliverables

- One draft and final Phasing Plan
- One draft and final Maintenance and Operations summary

Task 6: Draft and Final Plan (2027)

Toole Design will tie together the work accomplished in previous tasks into an easy to understand, practical, and highly visual plan that provides Clifton Park with a framework to guide investment, pursue funding, and advance projects in a coordinated way.

To aid in the compilation of data for a future comprehensive plan, Toole Design will provide support to the Town by providing project materials previously created throughout the planning process for integration.

Deliverables

- One draft (pdf) and final plan (pdf and up to 5 hardcopies of the final plan)

Cost Summary

The following outlines the cost for the scope of work using the rate table provided in the proposal response. These rates are valid for use through April 2027 and any extension of project schedule will require an update to rates.

Table 1: Fee Proposal Table

Task	Description	2026 Fee	2027 Fee	Fee per Task
Task 1	Project Management & Coordination	\$9,730.00	\$15,695.00	\$25,425.00
Task 2	Existing Conditions and Network Assessment	\$23,460.00	\$29,835.00	\$53,295.00
Task 3	Public and Stakeholder Engagement	\$6,420.00	\$44,015.00	\$50,435.00
Task 4	Network Development and Prioritization	\$0	\$52,080.00	\$52,080.00
Task 5	Implementation Strategy	\$0	\$13,575.00	\$13,575.00
Task 6	Draft and Final Plan	\$0	\$16,465.00	\$16,465.00
	Expenses	\$ 390.00	\$3,335.00	\$3,725.00
	TOTAL	\$40,000.00	\$175,000	\$215,000.00

Sincerely,

Kristie Di Cocco | Sr. Principal Engineer

Resolution No. ___ of 2026, a resolution scheduling a Public Hearing on Tuesday, October 20, 2026, at 7:02pm related to the proposed consideration of the renewal of a franchise agreement with Spectrum Northeast, LLC. for cable television service in the Town of Clifton Park.

Introduced by _____, who moved its adoption, seconded by _____.

WHEREAS, an application for the grant of a renewal of the franchise agreement for cable television service in the Town of Clifton Park has been received from Spectrum Northeast, LLC, and

WHEREAS, the Town Board of the Town of Clifton Park desires that a Public Hearing be held for the purpose of considering a proposed renewal of the franchise agreement for cable television service in the Town of Clifton Park; now, therefore, be it

RESOLVED, that Public Hearing will be held by the Town Board of the Town of Clifton Park on Tuesday, October 20, 2026, at 7:02pm, in the Wood Memorial Meeting Room, Town Hall, One Town Hall Plaza, Clifton Park, New York, for the purpose of considering a renewal franchise agreement for cable television service in the Town of Clifton Park with Spectrum Northeast, LLC; and be it further

RESOLVED, that the Town Clerk is hereby directed to publish notice of said Public Hearing in the official newspaper of the Town and take any other actions necessary to provide proper notice to the public pursuant to applicable laws and regulations.

Resolution No. _____ of 2026, a resolution appointing Raoul Desy as a member of the Environmental Conservation Commission.

Introduced by _____, who moved its adoption, seconded by _____.

WHEREAS, due to David Alexander's relocation out of state, a vacancy exists on the Environmental Conservation Commission (ECC), and

WHEREAS, based on his expertise and experience, Deputy Supervisor Agatha Reid has recommended Raoul Desy, Clifton Park, to fill the position, and

WHEREAS, Mr. Resy previously served on the ECC from 2009-2022 and his presence on the Commission will confer a benefit to the Town of Clifton Park, now, therefore be it

RESOLVED, that Raoul Desy is hereby appointed to the Environmental Conservation Commission for the remainder of a two-year term, term to expire December 31, 2026.

Resolution No. __ of 2026, a resolution authorizing the continuation of the Town's support of the Monarch Butterfly conservation and the proclamation of October 11th as Town Monarch Day.

Introduced by _____, who moved its adoption, seconded by _____.

WHEREAS, the monarch butterfly is an iconic species whose populations have declined significantly due to habitat loss, climate change, and pesticide use; and

WHEREAS, cities, towns, and villages have a critical role to play in helping to save the monarch butterfly, and the National Wildlife Federation's Mayor's Monarch Pledge provides a framework for municipalities to take meaningful action in support of pollinator conservation; and

WHEREAS, by Resolution No. 127 of 2026, the Town has committed to participating in the Mayor's Monarch Pledge and authorized Deputy Supervisor Agatha Reid, on behalf of the Town, to sign the Pledge, advancing local efforts that support monarch butterflies and other pollinators; and

WHEREAS, the Town will engage with local and regional partners, including environmental organizations, gardening groups, and other community stakeholders, to support pollinator conservation efforts; and

WHEREAS, the Town will support and continue efforts to remove invasive species and promote the re-establishment of native habitats that benefit monarch butterflies and other pollinators; and

WHEREAS, the Town will incorporate pollinator conservation strategies into relevant municipal planning efforts, including parks, sustainability, and climate resiliency initiatives; and

WHEREAS, these actions build upon ongoing efforts within the Town, including work led by the Clifton Park GREEN Committee, the Clifton Park Tree Committee and the Clifton Park Open Space, Trails and Riverfront Committee and community volunteers to enhance and protect pollinator habitats in public spaces; now, therefore, be it

RESOLVED, that the Town Board of Clifton Park hereby declares October 11, 2026, as Town Monarch Day and reaffirms its commitment to supporting monarch butterfly conservation through public awareness, community partnerships, habitat restoration, and long-term planning efforts.

Resolution No. 127 of 2026, a resolution authorizing the continuation of the Town's support of the Monarch Butterfly conservation and authorizing Deputy Supervisor Agatha Reid to sign the Mayors' Monarch Pledge.

Introduced by Councilwoman Reid, who moved its adoption, seconded by Councilman Manir.

WHEREAS, the Clifton Park GREEN Committee, the Clifton Park Tree Committee, and the Clifton Park Open Space, Trails, and Riverfront Committee have discussed and support the efforts of the Town of Clifton Park to participate in the National Wildlife Foundation's Mayors' Monarch Pledge program to create public awareness and support for creating and sustaining habitats that support Monarch Butterflies, and

WHEREAS, the Town of Clifton Park has established a butterfly meadow area with educational signage in the center of the community on the public lands at the northwest area of the 146/146A roundabout; and

WHEREAS the Town of Clifton Park GREEN Committee has delivered multiple programs to advance the importance of pollinator habitat, including but not limited to free tree seedling giveaways over the years; and the development of a Pesticide-Free Landscaping Course through Northeast Organic Farmers Association (NOFA) during a week-long certification program delivered in February 2020 at the Clifton Park-Halfmoon Public Library to residents, landscaping businesses, and local institutions with the support of a state grant;

WHEREAS, the Town of Clifton Park Tree Committee has led the community in supporting native wildlife habitat, and has helped the Town of Clifton Park secure Tree City USA designation for five years in a row to date, through a National Arbor Day program; and

WHEREAS, the Town of Clifton Park Open Space, Trails & Riverfront Committee for 20 years has been a proponent of and implemented meadow habitat management (for butterflies, birds, and small mammals that thrive in meadow habitats) in close consultation with and in support of the Town of Clifton Park at multiple locations on town-owned parks and nature preserves including: the front meadow at Garnsey Park, Veterans Memorial Park, and the town lands at the Town's Transfer Station on the slopes of the capped landfill;

WHEREAS, the Longkill #2 Park District has established a butterfly garden area at the George T. Smith Park and is interested in expanding the garden areas in the future in support of pollinator friendly plantings; and

WHEREAS, the Town of Clifton Park has demonstrated extensive community support over time through these various initiatives to date for supporting habitat for the monarch butterfly and other pollinators; now, therefore, be it

RESOLVED the Town of Clifton Park Town Board is committed to pledging continued support of Monarch Butterflies in monarch butterfly conservation, and to collaborating with community groups, schools, and the overall public and engaging residents with creating more

pollinator-friendly habitats through the community, and therefore, the Town Board hereby authorizes Deputy Supervisor Agatha Reid on behalf of the Town of Clifton Park to sign the Mayors' Monarch Pledge and receive community recognition on the National Wildlife Federation's website, <https://www.nwf.org>.

Resolution No. _____ of 2026, a resolution authorizing the purchase of a snowblower attachment for Buildings and Grounds Department purposes from Grassland Equipment under Sourcewell Contract #112624-TTC.

Introduced by _____, who moved its adoption, seconded by _____.

WHEREAS, Daniel Clemens, Director of Buildings, Parks and Recreation, has requested authorization for the purchase of a snowblower for the Buildings and Grounds Department per the attached, and

WHEREAS, the equipment is available under Sourcewell Contract #112624-TTC, in an amount not to exceed \$7,866 including dealer assembly charges, and

WHEREAS, Mr. Clemens has recommended that the snowblower be purchased to best meet the needs of the department as the current snowblower attachment is nearing the end of its useful life, and

WHEREAS, the equipment is available from Grassland Equipment, Latham, NY; now, therefore be it

RESOLVED, that the Buildings and Grounds Department is authorized to purchase one snowblower attachment, per the attached, and be it further

RESOLVED, that the Town Board hereby authorizes the purchase under Sourcewell Contract #112624- TTC, in an amount not to exceed \$7,866, to be paid with funds from A-7629-200 (General Fund – Trails – Equipment).

Resolution No. _____ of 2026, a resolution authorizing the purchase of a 9-foot stainless steel dump body for the Department of Buildings & Grounds to be installed on their 2021 Chevy Dump Truck.

Introduced by _____, who moved its adoption, seconded by _____.

WHEREAS, Daniel Clemens, Director of Buildings, Parks and Recreation, has requested authorization to purchase a stainless-steel dump body, and

WHEREAS T&T Sales, Inc., Latham, NY, provided the lowest responsive quote for the dump body, per the attached, at a total cost not to exceed \$12,651, and

WHEREAS, Mr. Clemens has recommended the equipment be purchased from T&T Sales, Inc.; now, therefore, be it

RESOLVED, that the Town Board hereby authorizes the Director of Buildings, Parks and Recreation to purchase a 9-foot stainless steel dump body from T&T Sales, Inc., Latham, NY in a total amount not to exceed \$12,651, to be paid from A-7110-022 (General Fund – Buildings & Grounds – Vehicle Expense).

Agenda Session Date: 10/06/2026 ✓

Board Meeting Date: 10/06/2026 ✓

Alternate Date: 10/20/2026

Budget Number: A-7110-022

Budget Description: General Fund - Buildings & Grounds - vehicle expense

Amount: \$12,651.00

Brief Description: Purchase and installation of one new 9-foot stainless steel dump body from T&T Sales.

Will be installed on our 2021 Chevrolet 1-ton dump - replacing the steel body currently on the truck.

T&T has this dump body in stock.

Additional Comments/Details: Request same day meeting to get the body installed before we have to put the salter on.

Resolution No. _____ of 2026, a resolution declaring a public emergency pursuant to General Municipal Law Section 103(4) for a repair to a trunk line failure of the Bear Brook sewer line.

Introduced by _____, who moved its adoption, seconded by _____.

WHEREAS, on July 12, 2026, the Clifton Park Sewer Department received a call from the Town's manhole water level monitoring device that the Bear Brook trunk sewer line was overflowing at the Bear Brook stream crossing located near Tallowood Drive. The Town mobilized and was able to get a bypass pumping system in place on July 13, 2026. There were attempts to clean and jet the gravity sewer line, but it appears to have pushed the clog further downstream and the gravity sewer line is not currently in operation, and

WHEREAS, the Town Sewer Department mobilized considerable resources and contractors to gain access to, evaluate and repair the trunk sewer, and

WHEREAS, Section 103(4) of the NYS General Municipal Law provides that in cases of an emergency situation arising from unforeseen circumstances affecting public property or the health or safety of the public, the Town Board may authorize the purchase of service, material and equipment without competitive bids, and

WHEREAS, Mike O'Brien, Collection Systems Manager, engaged KB Engineering, P.C. to oversee the outside contractors and the work being done for proper construction and repair, with a total cost not yet determined as repair work is ongoing; now therefore, be it

RESOLVED, that the Town Board determines that the resulting damage to the Bear Brook trunk sewer line within the Clifton Park Sewer District #1, as determined on July 12, 2026, constitutes an emergency for procurement purposes under Section 103(4) of General Municipal Law and the costs to be paid through G7-08111-00021, with transfers from Assigned Fund Balance G7-00915.

Agenda Session Date: 09/15/2026 ✓
Board Meeting Date: 10/06/2026 ✓
Alternate Date: 10/06/2026
Budget Number: G7-8111-21
Budget Description: Sewer Emergency
Amount: ~\$300,000

Brief Description: Resolution to Declare an Emergency. Town of Clifton Park Sewer District 1 experienced a trunk line failure of the Bearbrook Sewer requiring extensive emergency work to gain access to, evaluate, and repair trunk sewer. The Clifton Park Sewer Department has mobilized considerable resources to build a road, a stream crossing, and turnarounds within the Bearbrook corridor in coordination with the NYSDEC. The Sewer was mechanically bypassed during this time as repairs were not possible due to access. Road had been completed, the sewers were cleaned, dewatered, and camera inspected by the Town of Clifton Park Sewer Department and the area of failure was identified as well as a significant section of compromised pipe. Town Contractors repaired failure and the compromised section from manhole bb5-bb6 is being replaced. All work was subject to prevailing wage and prime engineering was contracted to oversee the contracts and work being done for proper construction. Sewers are expected to return to normal operation by end of September.

Additional Comments/Details: Additional information to be provided. Overall Cost is an estimate as work has not finished.

8/14/2026

Michele LaFay, EPS1
NYSDEC- Region 5
Office of Environmental Quality
232 Golf Course Road
Warrensburg, NY 12885

Dear Ms. Lafay,

The Town of Clifton Park acknowledges receipt of the NOV dated July 31, 2026, regarding the sanitary sewer overflow along the Bear Brook Trunk Sewer. As you may know, work continues the access road to allow for cleaning and TV equipment to access the pipe and assess conditions. Once we have this information we will work with our consulting engineer to repair or replace any failed sections and evaluate any sags that exist to eliminate them. This effort has been ongoing since the events on July 12, 2026, and Town anticipates having the first jet truck on the main this afternoon. The purpose of this letter is to address the items provided in the NOV Compliance/Corrective Action section.

1. Assess the Bear Brook sewer and submit a long-term corrective action plan & schedule to prevent future SSO's.
 - a. The Town has been working since the event to establish access to this difficult sewer main location. Usable access is a game changer for the repair and maintenance of this sewer main. Additionally, this access will allow the Town to respond to an issue in this area more rapidly and effectively in the future.
 - b. The Town is beginning inspections of the bypassed sewer line to evaluate the overall condition of the main, locate any breaks or failures, and identify any grade/pitch issues. Once we have this information, the Town is committed to correcting identified items immediately as part of this emergency response.

Ms. Beth A. Magee
Deputy Regional Permit Administrator, Division of Environmental Permits
New York State Department of Environmental Conservation
Region 5
232 Golf Course Road, Warrensburg, NY 12885

**Re: Town of Clifton Park
CP Sewer Emergency Assistance – Bear Brook Trunk Sewer
Emergency Access Permit**

Dear Ms. Magee:

KB Engineering, P.C. (KB Engineering) has been authorized by the Town of Clifton Park Sewer Department to provide Professional Engineering Services related to assistance with the Bear Brook trunk sewer emergency situation.

On Sunday July 12, 2026, the Town of Clifton Park received a call from their manhole water level monitoring device that the Bear Brook trunk sewer line was overflowing at the Bear Brook stream crossing located near Tallowood drive. The Town mobilized and was able to get a bypass pumping system in place on July 13, 2026. There were attempts to clean and jet the gravity sewer line, but it appears to have pushed the clog further downstream and the gravity sewer line is not currently in operation.

Presently the Town has limited access to this trunk sewer, as there is only a mowed path that runs along the eastern portion of the sewer line from Maxwell Road until the stream crossing, along with another access path from Tallowood Drive. There is no vehicle access to the western portion of the sewer which is where the clog and/or break is located. A small diameter sink hole was observed in the field just downstream of manhole BB5 and is shown on the enclosed plan and profile.

In order to continue investigating and ultimately correct the situation, additional heavy machinery, sewer jetting equipment and a vacuum truck need to gain access along the pipeline route, which is over 3,000 feet in length. To accomplish this, a permanent access road will need to be constructed which includes crossing the Class C(T) Bear Brook, Water Index number H-260- 6, which is a tributary to the Dwaas Kill. Due to the nature of heavy vehicles required to cross the stream and the time involved in design and installation, a culvert pipe is preferred over a bridge.

Preliminary sizing of the culvert, based on flow data from the USGS StreamStats, shows that the projected 100-year storm would produce a flow rate of approximately 46,000 gpm. This would require a 48" diameter double wall HDPE pipe at 0.5% slope which would handle approximately 50,000 gpm. The USGS Stream Stats report is included as an enclosure.

- c. Once the line is serviced, this section of sewer will be worked into our preventative maintenance schedule on-a semiannual basis to start.
 - d. The Town of Clifton Park Sewer Department already has telemetry located along this pipeline corridor. Telemetry is critical to alert the town of issues early and before an overflow. These units will continue to monitor the sewer moving forward.
2. Certify at least 2 NY-Alert notifiers have read and understand the reporting requirements discussed in the-NOV.
- a. The Town of Clifton Park Sewer Department employees (4) have been provided with a copy of Part 750-2.7(b)(2). We are aware of the reporting requirements and will prioritize notification. Additionally access to NY Alert is being expanded to the vehicles via Tech upgrades as part of a GIS initiative being undertaken by the Sewer Department. This will facilitate easier access for the workers in the field to report an overflow.

The Town of Clifton Park Sewer Department will provide you with an update of our findings regarding the pipeline inspections and ultimate course of action. Attached is the signed Certification of Compliance as required. If you have any further questions or comments, please contact me at 518-573-3414.

Respectfully,

A handwritten signature in black ink, reading "Michael T. O'Brien". The signature is fluid and cursive, with the first name "Michael" and last name "O'Brien" clearly distinguishable.

Michael O'Brien, Collection Systems Manager

cc: Town Board of Clifton Park
Kevin Dailey, Town Attorney

Ms. Magee
Emergency Access Permit
CP Sewer Emergency Assistance- Bear Brook Trunk Sewer
July 15, 2026 – Page 2

The proposed permanent access road is shown on the enclosed plan and profile and would be 3,000' long and 10' wide, comprised of compacted stone on top of woven geotextile fabric with an average of 14' disturbance width. The access road is proposed to run along the trunk sewer corridor from Maxwell Drive to the connection point with the Saratoga County Sewer District near Via Da Vinci. This will result in just under one acre (42,000 sqft) of disturbance to the already previously disturbed pipe corridor. This access roadway would be constructed in the field as ordered by the engineer due to the cost and time that would be associated with getting a full topographic survey completed of the pipe corridor. Proper access to this critical infrastructure is the first step so that the line can be cleaned, investigated and an action plan can be developed to get this trunk sewer back into operation and eliminate the need for the bypass pumping system.

It is believed that the access road installation and further investigation can be completed within 60 days but depending on what is discovered and the required repair method, it may take longer to get this line back into service. Once the problem is resolved, a future project would be considered to upgrade this entire trunk sewer to avoid this from happening again.

Sincerely,
KB Engineering, P.C.

Appendix B

SECTION 1

New York State Department of Environmental Conservation
Division of Water

Report of Noncompliance Event

To: DEC Water Contact Michelle Lafay DEC Region: 5

Report Type: ☒ 5 Day ☐ Permit Violation ☐ Order Violation ☐ Anticipated Noncompliance ☐ Bypass/Overflow ☐ Other

SECTION 2

SPDES #: NY- Facility: Clifton Park Sewer District #1

Date of noncompliance: 07/12/2026 Location (Outfall, Treatment Unit, or Pump Station): Bearbrook sewer main

Description of noncompliance(s) and cause(s): Blockage occurred in the Bearbrook Sewer main resulting in approx 21 hours of Sanitary Sewage being discharged overland to a drainage stream. Town responded immediately and was unable to dislodge blockage, enlisted help of the SCSD#1 and still couldn't free it. Currently bypassing and developing an access plan.

Has event ceased? Yes ☐ If so, when? 17:00 7/13/26 Was event due to plant upset? No ☐ SPDES limits violated? No ☐

Start date, time of event: 07/12/2026, 2000 pm End date, time of event: 07/13/2026 1700 pm

Date, time oral notification made to DEC? 07/13/2026, 9 am DEC Official contacted: NY Alert/Lafay

Immediate corrective actions: Bypass in place, access being developed to facilitate work to clear lines.

Preventive (long term) corrective actions: This section of sewer main has issues with bellys. Long term replacment for the sewer main is likely. Along with access, the Town is currently developing a plan for the replacement, rehabilitation, or upgrades of this line. Working With NYSDEC to navigate the regulatory hurdles to get the job done.

SECTION 3

Complete this section if event was a bypass:

Bypass amount: Was prior DEC authorization received for this event? No

DEC Official contacted: Date of DEC approval:

Describe event in "Description of noncompliance and cause" area in Section 2. Detail the start and end dates and times in Section 2 also.

SECTION 4

INSTRUCTIONS

The Division of Water developed this standardized form to simplify the reporting of noncompliance events. The SPDES Permit General Conditions, require that certain discharges of untreated or partially treated sewage must be reported orally within either 2 hours¹ or 24 hours and also in writing within five (5) days as required by the appropriate regulation. All other permit noncompliance shall be reported as attachments to the Discharge Monitoring Report (DMR). This form should be used for these events as well as to report noncompliance relating to consent orders, scheduled events and bypass events.

All necessary information can readily be reported to DEC on this form. Additional information required to describe the event can be attached. **Please make additional copies of this form and use as needed.** Instructions are provided below. For questions on form use please contact the appropriate office listed below for the county where your permitted facility is located. Thank you for your cooperation.

Instructions to complete and submit Noncompliance Report

1. Provide facility information and all applicable event details in Sections 1 through 3. Dates should be completed in month/day/year format.
2. Provide your name, title, business phone number, and date report was completed in Section 4. Use additional sheets as needed to provide full detail of the event in Section 2.
3. For 5-day written reports, mail or fax the completed form to the appropriate DEC Regional Office listed below. Attach all other noncompliance reports to the DMR submittal (be sure to attach to each set of DMR copies) or mail separately if related to consent order/scheduled event noncompliance. After hours and weekend reporting of unusual discharge events of other noncompliance must be reported through the DEC Telephone Hotline, which is 1-800-457-7362.

Facility Rental Permit is governed by the following conditions:

- Permits valid for agreed upon date or dates, restricted to area/room (*the lobby is not rentable*), and number of participants as indicated on permit.
- All renters must provide a \$100 security deposit to be paid in full, with a separate check from the rental fee, **at the time of reservation**. The security deposit will be applied to any cleaning, theft, damages upon completion of the event and will be held in escrow and refunded upon completion of the rental. In the event of misconduct or the misuse of the facility by the lessee, the Town of Clifton Park may take action and require the renter to reimburse the Town for damages suffered or extra expenses incurred including, but not limited to, the forfeiture of a portion or the entire deposit.
- Cancellation requests less than 2 weeks of rental date will result in forfeiture of \$100 Security Deposit.
- Area and facility must be left clean and in the same condition in which it was found. Any damage incurred is the responsibility of the renter.
- Renter are not to use any rooms/areas of the building except what was rented, excluding restrooms.
- **All food/drink shall be removed at the conclusion of the event. The Town has a carry in carry out policy on garbage. All garbage shall be removed and placed in the proper receptacle located in the back of the building.**
- Smoking is not allowed in any part of the building. There is to be no open flames, i.e. candles, lanterns, allowed for use.
- On site supervision **is required** for all youth groups/events.
- At no time is the building/room occupancy to be exceeded and all fire doors and emergency exits must remain unblocked.
- Use of kitchen must be agreed upon in advance, requires an additional fee and training stove/oven.
- Town of Clifton Park rules shall be adhered to. Immediate termination of the event and removal from the premises may occur by an authorized representative of the Town if in violation of these rules and regulations.
- Obnoxious behavior or excessive noise will not be permitted.
- Renter must retain Rental Agreement and make available upon request by park or police official.
- Open containers of alcoholic beverages are prohibited in the building, unless a permit has been issued which allows for the consumption of alcoholic beverages on the premises for which the permit has been issued. Such permits are authorized solely by the Town Board via resolution. A separate "Special Alcohol Use Permit Request" form must be submitted with this form.
- Use of Center equipment (i.e. projectors, PA system, televisions, coffee maker, dishwasher, speakers, etc.) is strictly prohibited.
- Renters must clean up all spills and sweep debris from floors. Do not touch/play musical instruments without prior permission and do not handle the shades/blinds as they are delicate.
- Permit holder may be required to obtain and show proof of insurance naming Town of Clifton Park as an "Additional Insured".

I have read the Town of Clifton Park rules and the above special conditions and agree to abide by them. I understand there is a no refund policy on this rental. The Town will work with me on rescheduling when possible, if needed.

Indemnity:

Larry Syzdek (Renter's Name) agrees to indemnify and hold the Town, it's officers, employees, representatives and/or agents harmless with respect to any and all claims, causes of action, suits, proceedings, damages, liabilities, losses, costs and expenses, including third party claims or actions and attorneys' fees, in connection with loss of life, personal injury and/or any loss of life, personal injury and/or property damage which may arise from and as a result of the negligent acts or omissions of Larry Syzdek (Renter's Name) or others associated in some way therewith, during or arising out of the use of any park facility located in the Town of Clifton Park, County of Saratoga, State of New York on 10/24/26 (Rental Date).

Resolution No. of 2026, a resolution authorizing payment, and authorizing a Change Order for the transportation and disposal of contaminated soil associated with the Fuel Station Replacement Project at the Town Highway Garage, with a transfer from Contingency.

Introduced by _____, who moved its adoption, seconded by _____.

WHEREAS, the Town Board previously authorized the Fuel Station Replacement Project at the Town Highway Garage, including the removal and replacement of underground fuel storage tanks and associated fueling infrastructure, pursuant to Resolution No. 98 of 2025, which awarded the project to Fuel Replacement Award Resolution to MES; and

WHEREAS, during excavation and tank removal activities associated with the project, approximately twenty (20) cubic yards of diesel-impacted soil were encountered and required proper transportation and disposal at an approved environmental management facility in accordance with applicable environmental regulations; and

WHEREAS, Executed Change Order documents pricing submitted by Clean Harbors Environmental Services, Inc. for the transportation and disposal of the impacted material, including associated recovery fees, in an estimated amount of \$5,751.44; and

WHEREAS, the Town Board finds that the transportation and disposal of contaminated soil is necessary to complete the Fuel Station Replacement Project and protect public health, safety, and the environment; and

WHEREAS, funds for this expense are available to complete the Fuel Station Replacement Project and may be transferred from project-related accounts in a manner consistent with Resolution No. 98 of 2025, which utilized funding from General Fund Unassigned Fund Balance and appropriated such funds to the Highway Garage Equipment Project Account; now, therefore, be it

RESOLVED, that the Town Board of the Town of Clifton Park hereby authorizes payment to Clean Harbors Environmental Services, Inc. in an amount not to exceed \$5,752 for the transportation and disposal of diesel-impacted soil associated with the Fuel Station Replacement Project at the Town Highway Garage; and be it further

RESOLVED, that the Comptroller is authorized to transfer from Contingency A-01990-00015, \$5,752 to A-05132-00200 (General Fund- Highway Garage- Equipment); and be it further

RESOLVED, that the Town Supervisor and any other appropriate Town officials are authorized to execute any documents necessary to process payment and complete this work.

Agenda Session Date: 10/06/2026 ✓

Board Meeting Date: 10/06/2026 ✓

Alternate Date: 10/20/2026

Budget Number: A-05132-00200

Budget Description: Transfer from A-00914, (General Fund - Unassigned Fund Balance) to A-05132-00200 (General Fund- Highway Garage- Equipment).

Amount: \$5,751.44

Brief Description: As part of the Town Highway Garage Fuel Station Replacement Project, excavation associated with the removal of existing underground fuel storage tanks identified approximately twenty cubic yards of diesel-impacted soil requiring specialized handling and disposal. The affected material was transported by a licensed environmental contractor to an approved disposal facility for proper management in accordance with applicable environmental regulations. Removal of the impacted soil was necessary to complete the tank replacement project and ensure the site remains compliant with environmental standards.

Additional Comments/Details: Prior memo altering the Town Board of the need to properly dispose of the contaminated soils is attached.

Resolution No. 98 of 2025, a resolution awarding the fuel station replacement project to Metro Environmental Services, LLC.

Introduced by Councilwoman Walowit, who moved its adoption, seconded by Councilman Manir.

WHEREAS, the Town of Clifton Park has identified the need to replace the existing fuel station at the Town's Highway Facility to ensure compliance with New York State Department of Environmental Conservation (NYS DEC) and Environmental Protection Agency (EPA) requirements, and

WHEREAS, the Town of Clifton Park Planning Department issued an Invitation to Bidders for the Fuel Station Replacement Project, with bids due by 3:00 p.m. on Wednesday, April 9, 2025, and

WHEREAS, Metro Environmental Services, LLC submitted the lowest qualified bid in the amount of \$825,000 for the Fuel Station Replacement Project, and

WHEREAS, the design engineer Greenman Pedersen, Inc. (GPI), on behalf of the Town, has reviewed the bid submitted by Metro Environmental Services, LLC and has confirmed its recommendation for the Town to award the bid to Metro Environmental Services, LLC, and

WHEREAS, the Town Board has determined that it is in the best interest of the Town to proceed with the Fuel Station Replacement Project to ensure the safety and compliance of the Town's fueling facilities, and

WHEREAS, GPI has requested an additional \$750 to cover Ambient Environmental, Inc.'s increased laboratory fees for sample analysis due to rate increases since the original proposal was prepared in 2023, and

WHEREAS, the Town Board has previously obligated funds from the American Recovery Plan Act (ARPA) by Resolution 280 of 2024 in the amount of \$297,533, and

WHEREAS, the additional balance of \$528,217 is to come from Unassigned Fund Balance; now, therefore, be it

RESOLVED, that the Town Board of the Town of Clifton Park hereby awards the Fuel Station Replacement Project to Metro Environmental Services, LLC as the lowest qualified bidder in an amount not to exceed \$825,000; and be it further

RESOLVED, that the Supervisor is authorized to execute the agreement #2 with GPI for additional costs with demolition and tank removal; and be it further

RESOLVED, that the Town Supervisor is authorized to execute any and all agreements and documents necessary to proceed with the Fuel Station Replacement Project with Metro Environmental Services, LLC; and be it further

RESOLVED, that the Comptroller is authorized to transfer from A-00914, (General Fund – Unassigned Fund Balance) \$528,217 to A-05132-00200 (General Fund – Highway Garage – Equipment).

Quote #5413866

Dear Mr. Reese:

During the job Clean Harbors recently performed (2605219847 additional wastes, labor, equipment and/or materials were required as quoted below. Please confirm your acceptance of these prices by signing this change order.

All other terms and conditions are as outlined in our original quotation.

If you have any questions or need further assistance, you may reach me at the number below.

Sincerely,

Brian Duncan
Fs Pricing Specialist
Phone: 315.418.5998
duncan.brian@cleanharbors.com

QUOTE CONDITIONS

The proposal is based on the following assumptions and site conditions. Any work which falls outside of the assumptions will constitute work beyond the intended scope and be completed upon mutually satisfactory terms.

- The purpose of this quote is to provide pricing for the T&D of an estimated 10yds. of diesel impacted soil. CHES driver will deliver a 25yrd roll off to the site and lower it to the ground to be live loaded by the customer, the driver will then secure the roll off to the straight frame and require the shipping paperwork to be signed by an authorized site contact in order to transport the waste to the disposal facility to off loaded.
- (If required) the customer will be responsible for the free and easy access to the area the equipment is staged and should be free of obstructions.
- Quote is based off Monday-Friday daylight hours. If weekend or holiday hours are requested additional fees will be invoiced.
- Any disposal pricing provided is based on assumptions. Final pricing will be determined by a completed waste profile. If there is disposal on the project and disposal pricing is not listed below, it will be provided after characterization of the waste and acceptance into a disposal facility.
- All waste generated will remain on the customer's site until an approved profile is in place.
- Disposal Pricing is estimated only, and the customer will be charged actual quantities determined by disposal facility.
- A Clean Harbors / Hepaco Health & Safety (H&S) Professional may visit the jobsite, as needed, to aid with safety recommendations, Confined Space Entry (CSE) procedures, and to validate Standard Operating Procedures (SOPs). Any H&S personnel hours not included in the estimated costs will be billed at \$85.00/hour.
- Any time over eight (8) hours in the normal workday and all-day Saturday is considered overtime and will be billed at 1.5 times the applicable straight time rate for all billable personnel unless otherwise quoted. Sunday and Holidays are considered premium time and will be billed at 2.0 times the applicable straight time rate for all billable personnel unless otherwise quoted.
- CHES crew will be granted complete, unrestricted access to the work area.
- Final billing will reflect the total amount of labor / materials used to complete this project, along with any disposal generated (if applicable).
- Prior to scheduling any projects: the customer / site contact is responsible for providing the signed CHES quote accompanied with a hard copy of the fully funded PO.

Town of Clifton Park

Planning & Zoning Department

One Town Hall Plaza | Clifton Park, New York 12065 | (518) 371-6054 | Planning@Cliftonpark.org

INTEROFFICE MEMORANDUM

To: Town of Clifton Park Town Board

CC: Town Highway Superintendent

From: John P. Scavo, Director of Planning & Zoning

Date: May 15, 2026

Subject: Status Update – Underground Fuel Storage Tank Removal & Contaminated Soils

Summary of Issue

During the removal of underground storage tanks (USTs) that commenced this week at the Town Highway Garage, a release of diesel fuel was identified in the vicinity of the diesel tank excavation. The gasoline tank was removed without issue; however, the diesel tank excavation revealed contaminated soil, and a spill report has been filed with the New York State Department of Environmental Conservation (NYSDEC).

The diesel tank itself was found to be structurally intact, and the release is suspected to have occurred historically due to overfilling rather than tank failure.

Current Status / Actions Taken

- Impacted soils (estimated 30–40 tons) have been excavated, segregated, and secured on-site under protective sheeting.
- Soil samples have been collected and submitted for laboratory analysis to determine contamination levels and disposal classification.
- The NYSDEC spill hotline has been notified and a spill number issued.
- Ambient Environmental Subconsultant to GPI Engineering for the Town is coordinating profiling and waste characterization for regulatory compliance and disposal planning.

Next Steps

1. Await laboratory testing results to determine whether the material is classified as hazardous or non-hazardous.
2. Complete required waste profiling and coordinate with an approved disposal facility.
3. Arrange for transportation and disposal of the contaminated soil by appropriately licensed contractors.
4. Continue coordination with NYSDEC regarding reporting and any additional remediation requirements.

Key Concerns / Unknowns

- **Disposal Costs:** Final costs are unknown and will depend on laboratory results, which will dictate disposal requirements (hazardous vs. non-hazardous), handling, and transportation.
- **Extent of Contamination:** While initial excavation has been completed, further impacts could be identified depending on test results and regulatory review.
- **Regulatory Requirements:** Additional investigation or remediation actions may be required by NYSDEC beyond current scope.
- **Project Budget Impacts:** Unanticipated costs for testing, transport, disposal, and potential further remediation will most likely affect the overall project budget.

Conclusion

The situation is actively being managed by Town Staff and our project engineers, with proper regulatory notifications made. At this time, the Town is awaiting laboratory results, which will be the primary factor in determining the scope of further action and associated costs.

I will continue to keep the Town Board informed as additional information becomes available.

RESOLUTION

#17

PHILIP C. BARRETT
Supervisor

AGATHA REID
Councilwoman

ZABED MANIR
Councilman

NANCY R. BELLAMY
Councilwoman

MARIO L. FANTINI
Councilman

Resolution No. ____ of 2026, a resolution authorizing the Supervisor to execute a grant contract with the County of Saratoga to support a trail feasibility study and to execute a consultant professional services agreement to conduct the study.

Introduced by _____, who moved its adoption, seconded by _____.

WHEREAS, Town Supervisor Barrett requested in September 2025 that the Town of Clifton Park Open Space, Trails, and Riverfront Committee review this route that has recently been partially improved by the Saratoga County Sewer Department to explore its additional potential use as a pedestrian path. The trails subcommittee conducted a site visit to the location in October 2025 and recommended to the full committee that an engineering study be conducted to examine this gap through wetlands adjacent to open water for making a connection as it appeared to be greater than a volunteer project. The maintenance access route may be a part of the solution of resolving remaining gaps in the Moe Road Trail. The full committee in December 2025 recommended the town pursue 2026 grant funding such as the Saratoga County's trails grant program to fund such a study, and

WHEREAS, by Resolution No. 199-2026, the Saratoga County Board of Supervisors approved a payment of \$6,600, conditioned upon a required minimum of 25 % local matching funds or in-kind services, to help support a regional trail feasibility study for evaluating potential for a pedestrian path and crossing on town-owned land with a co-located Saratoga County Sewer District access route off Englemore Road/Moe Road, and

WHEREAS, the Town reached out to Delaware Engineering, D.P.C., who had prepared design plans for the County sewer access road implemented in this route, to secure a cost estimate for a feasibility study for closing a strategic trail gap between Englemore Road and Westbury Court in the vicinity of the Moe Road Corridor at Englemore Road, and

WHEREAS, Delaware Engineering, D.P.C. submitted a proposal dated June 15, 2026, attached, in an amount not to exceed \$30,000 for Task 1 and Task 2 of the feasibility study, and followed up with an email to Jennifer Viggiani, Open Space Coordinator, dated August 20, 2026, also attached, explaining that in light of the grant award of \$6,600, Delaware Engineering, D.P.C. will address Task 1 only, in an amount not to exceed \$14,000, and

WHEREAS, Ms. Viggiani recommends accepting the proposal from Delaware Engineering, D.P.C. to perform Task 1 only of the trail feasibility study proposal, and

WHEREAS, the Town Board wishes to accept the County grant contract and to authorize the engagement of Delaware Engineering, D.P.C., for Task 1 only of the trail feasibility study; now, therefore, be it

RESOLVED, that the Supervisor is authorized to execute the attached grant contract with the County of Saratoga for the trail feasibility study; and be it further

RESOLVED, that the Supervisor is also authorized to execute the attached professional services agreement with Delaware Engineering, D.P.C., Albany, NY, to conduct Task 1 only of the study, for a total amount of \$14,000 to come from A-0769-00135 (General Fund – Trails Contractual – Engineering); and be it further

RESOLVED, that to account for the grant from Saratoga County, revenues shall be increased by \$6,600 in A-1289 (General Fund – Other Government-Revenue) and expenditures shall be increased \$6,600 to A-7629-135 (General Fund – Trails Contractual – Engineering).

Agenda Session Date: 10/06/2026 ✓

Board Meeting Date: 10/06/2026 ✓

Alternate Date: 10/20/2026

Budget Number: A-07629

Budget Description: grant and engineering for trails feasibility study for pedestrian path/crossing

Amount: \$6,600 grant award towards an estimated \$14,000 study cost

Brief Description: Request authorization from the Town Board to accept: Saratoga County 2026 Trails Grant Award for \$6,600; and request authorization from the Town Board to sign an agreement for Task 1 Only for \$14,000 for a Feasibility Study by Delaware Engineering for evaluating potential for a pedestrian path and crossing on town-owned land with a co-located Saratoga County Sewer District access route off Englemore Road/Moe Road, per their proposal dated 6/15/2026.

Additional Comments/Details: County Grant Application from June 2026 is attached for reference. County Award Document and County Resolution is attached. Cost proposal from engineering firm is attached. Consultant confirmed that they would conduct the work for just Task 1-Feasibility Study for the \$14,000, per communication on Aug. 20, 2026.

Follow Up Flag: Flag for follow up
Flag Status: Flagged

The County Sewer Department has been working in an area spanning from Westbury leading toward the new VF FD building. Through the extensive work on the trunk line, they have cleared an access road that is restrained by a wetland area. In the wetland area they have a very small path that allows them to continue the entirety of the necessary work to repair the pipe as you walk toward the rear of the VF FD building. If we can make a connection through or around the wetland area, following all applicable regulations, a trail connection would allow people living in the neighborhoods to access the Moe Road Trail and beyond. We have made tremendous progress on the opposite side of Moe connecting neighborhoods and adding trail sections along Moe. This opportunity would replicate those successes on the west side of Moe. We will need to assess and analyze options for making the connection through the wetland area without negatively affecting the ecological balance. We have been able to be creative in the past, implementing measures to extend the trail network in sensitive areas, while preserving the natural habitats and not interfering with streams and protected vegetation. Perhaps the same can be done here. Please provide some options following a review. Thank you.

Sincerely,

Phil Barrett

BOARD OF SUPERVISORS

07/21/2026

RESOLUTION 199 – 2026

Introduced by Trails and Open Space: Supervisors Grasso, Ball, Gyarmathy, Kinowski, Lalukota, Ostrander, and Sanghvi

AWARDING 2026 TRAILS GRANTS

WHEREAS, the 2026 County Budget included a Trails Grant Program to give matching grants to local municipalities to fund trail development and construction projects; and

WHEREAS, the 2026 Trails Grant Program provides a pool of up to \$80,000 to fund trail feasibility studies, engineering work, and construction in local municipalities; and

WHEREAS, our Trails and Open Space Committee received thirteen (13) applications for funding, totaling \$120,500, which the Committee recommended to be partially funded; and

WHEREAS, Resolution 87 – 2026 authorizes the County Administrator to transfer funds from certain reserve accounts for previously approved projects; and

WHEREAS, our Trails and Open Space Committee and Law and Finance Committee approved partial funding for all thirteen (13) applications submitted, at a cost of \$79,530, utilizing allotted 2026 Trails Grant Program funds; and

WHEREAS, to ensure the timely completion of municipal projects and the efficient administration of public funds, our Trails and Open Space Committee has endorsed a firm deadline of December 1, 2027 for receipt of municipal reimbursement requests; now, therefore, be it

RESOLVED, that this Board of Supervisors hereby authorizes the payment under the 2026 Trails Grant Program, totaling \$79,530, to the following municipalities for the purposes stated, upon the condition that each municipality provide matching funds or services in-kind that equal or exceed the following amounts:

1. **Town of Ballston:** The amount of up to \$6,600 to be applied toward a proposed approximately 700-ft access trail through vacant lands of Ballston Lake SD to connect Ballston Lake Fire Dept. Memorial Park ("BLFDMP") to Lakehill Drive.
2. **Town of Charlton:** The amount of up to \$6,600 to be applied toward a proposed approximately one (1) mile of trails on a 114-acre property that will utilize former horse trails while constructing new trails for the "soon to be" town wildlife preserve.
3. **Town of Clifton Park:** The amount of up to \$6,600 to be applied toward a proposed feasibility study to close an approximately 800-l.f. strategic gap in the town's trail network including wetland crossing.

4. **Town of Edinburg:** The amount of up to \$6,600 to be applied toward a proposal to rehabilitate existing playground equipment and to add additional equipment and resupply material around the playground.
5. **Town of Greenfield:** The amount of up to \$4,950 to be applied toward a proposal to continue to resurface 0.50 miles of the Brookhaven Ski trail with stone dust and add to the 1.5 miles of already resurfaced trails to make them accessible for all seasons.
6. **Town of Halfmoon:** The amount of up to \$6,600 to be applied toward a proposal to resurface approximately 12,000-l.f. of stone dust trails in the Town's recreation park with asphalt.
7. **Town of Malta:** The amount of up to \$6,600 to be applied toward a proposal to utilize engineered wood fiber to restore an approximately 0.75 miles of trail in need of repair inside the town park.
8. **Town of Milton:** The amount of up to \$6,600 to be applied toward a proposal to establish a dog park within the boundaries of the Town's 130-acre Woods Hollow Nature Preserve by providing a fenced off area with benches, waste bag dispensers, and informational signage.
9. **Town of Moreau:** The amount of up to \$6,600 to be applied toward a proposal to upgrade an existing graveled parking area at the end of Nolan Road to create trailhead parking for universal access and suitable parking for boat trailers, cars, and bikes.
10. **Town of Northumberland:** The amount of up to \$3,300 to be applied toward a proposal to restore the existing Missy K. Overlook, a structure that resembles an old canal boat, by purchasing paint, cleaning and site prep materials, and tools. Funds will also be utilized for educational elements to support the canal boat narrative.
11. **Town of Saratoga:** The amount of up to \$5,280 to be applied toward improving the multi-use trail system within the Town and Villages with resurfacing, tree and stump removal, and a culvert replacement.
12. **Town of Stillwater (Saratoga PLAN):** The amount of up to \$6,600 to be applied toward a proposal to construct the parking area and site amenities that include vegetation clearing, grading, and sediment and erosion control with surfacing of gravel and asphalt.
13. **Town of Wilton:** The amount of up to \$6,600 to be applied toward the first phase for a proposed approximately 2.5-mile trail connecting Gavin Park and the Graphite Range Community Forest Trail Network. Grant funds will provide bicycle signage and bicycle racks at Gavin Park. The funds will also support a feasibility study and conceptual layout for a future multi-use path.

; and be it further

RESOLVED, that the Chair of the Board of Supervisors is hereby authorized to execute all agreements and documents necessary to ensure the transfer of said funds; and be it further

RESOLVED, that all grant reimbursement requests shall be submitted to the County for final reimbursement no later than December 1, 2027, and that any awarded funds not requested by such date shall be forfeited; and be it further

RESOLVED, that the form and content of such agreements and documents shall be subject to the approval of the County Attorney; and be it further

RESOLVED, that this Resolution shall take effect immediately.

BUDGET IMPACT STATEMENT: No budget impact. Funds are included in the department budget.

Project Address: Englemore Rd to Westbury Ct county sewer access road route

Tax Map number(s): 277.20-3-49

Proposed Trail Length: about 800+/- linear feet

Proposed Construction Material: to be determined in study

Estimated Date of Project Completion: October 2026

Signature: _____ Date: _____

PROJECT SUMMARY

Description of the property and its current use:

In response to residents' requests/inquiries, the Town of Clifton Park is interested in closing a strategic trail gap opportunity between Englemore Road and Westbury Court, in the vicinity of the Moe Road Trail Corridor at Englemore Road. The focused location of the study is starting at the intersection of Moe Road and Englemore Road (at the Moe Road Trail), connecting directly south across Englemore Road at the Saratoga County Sewer District pump station parcel to the existing sewer access road south of Englemore Road and crossing wetlands to reach the newly improved access road that continues southerly all the way south to end at Westbury Ct. The study will focus on the 800 feet from Englemore Rd to just south of the pond/wetlands area where the improved sewer access road continues. The study will involve Saratoga County Sewer District parcel 277.-3-55 (0.26 acres); the western edge of the Vischer Ferry Fire Department parcel 277.-3-13-12 (2.16 acres); Town of Clifton Park natural area parcel 277.20-3-49 (8.03 acres); and Town of Clifton Park parcel 283.-1-16.15 (0.51 acres) (a narrow strip of land that is the primary route of the sewer access road which residents have been utilizing ever since the improvements were made recently). The primary challenge and focus is crossing the wetlands located on the Town's 277.20-3-49 parcel which has wetlands and a beaver pond, for creating a pedestrian crossing to connect to the improved sewer access road south of the wetlands/pond. At this time, the crossing is envisioned as a boardwalk with potentially technoposts for pedestrians/bicyclists only; and not for vehicles.

Is the right of way currently owned or controlled by the applicant?

☒

Yes

☐

No

Provide a detailed description of how grant funds will be used for the proposed trail project:

The Town reached out to Delaware Engineering who had prepared design plans for the county sewer access road implemented in this route, to secure a cost estimate for a feasibility study for closing this gap of less than 800 feet. The firm had designed the sewer access road route, which was constructed recently by the county sewer district. The intent of this study is to analyze the feasibility of a pedestrian crossing route over the wetlands adjacent to a pond located fully on Town of Clifton Park property (about 8 acres of parkland created through the nearby Carlson Farm subdivision) to provide a pedestrian/bicyclist connection. This needed crossing is envisioned for pedestrian/bicyclist use only; and not for maintenance vehicles, as they can reach the route from Englemore Rd. or from Westbury Ct. Grant funds will be dedicated towards professional engineering consultant for conceptual design / layout of route options and cost estimates for next steps. This study will provide cost estimates for future construction and grant opportunities to help the community close this strategic north-south gap in a pedestrian network.

Is the proposed project identified or in compliance with any local, regional or statewide plans?

☒

Yes

☐

No

If yes, which plans?

Town of Clifton Park Trails Master Plan from 1999 shows this route alignment as a parallel route to Moe Road. Since the county recently completed its construction of the sewer access road (except for this gap) the town has received numerous inquiries from residents/pedestrians using the route about when "the trail" was going to be completed, even though it was infrastructure for the sewer access road. This project will focus on the wetlands gap and ensuring a route that fully connects up to the current end of the Moe Road Trail at Englemore Rd (such as planning for a crosswalk over Englemore Rd), and work closely with the county sewer district that had considered a full access road through this location in its previous analysis of the corridor.

REQUIRED PROJECT MAPS

- ☒ Location map showing street names and important landmarks
- ☒ Aerial photo with tax map overlay
- ☒ Location of connecting trails and nearby natural and cultural resources.

PROJECT BUDGET

Total estimated cost of proposed project: \$ 14,000

Feasibility/Design: \$ 14,000

Survey: \$

Plan Preparation: \$

Construction: \$

Materials: \$

Other (please list): \$

Amount and sources of other outside funding sources, identify sources:

Town cash \$4,000

Amount of County grant funds requested: \$ 10,000

Will this project proceed if awarded amount is less than the requested amount? ☒ Yes

☐ No

Project Ranking Considerations

In the event that grant requests exceed the budgeted amount, the following criteria will be used to rank the projects. Items below are ranked on a numerical scale, 1 being the lowest, and 25 points maximum.

RESOURCE PROTECTION 1-5 points (max)

- Proximity to protected water body/waterway/aquifer
- Wildlife Habitat corridor
- Close proximity to significant wetlands complex
- Scenic view shed
- Provides public access
- Proximity to other parklands

COMMUNITY RESOURCE 1-10 points (max)

- Important to rural character of municipality
- Proximity to expanding residential growth
- Located close to public infrastructure
- Connectivity of Trail to other public resources
- Connectivity to County-wide trail network
- Allows for multi-use trail
- Provides viable transportation alternative in populated area

LOCAL SUPPORT 1-10 points (max)

- Municipal designation as an important Community Resource as evidenced in a Town adopted ordinance
- Other funding sources confirmed as evidenced by a letter from entities providing additional funding.
- Letters of support from local offices and stakeholders may be submitted as evidence of local support

Applicant may provide additional narrative regarding the proposed project that will help the Saratoga County Trails and Open Space Committee understand its importance to the surrounding landscape and community, and why it is a good candidate for grant funding.

Please Submit one (1) electronic copy and (3) paper copies of the application to:

Saratoga County Department of Planning & Economic Development
50 West High Street, Ballston Spa, New York 12020
518.884.4705
JWilliams@saratogacountyny.gov

All applications must be received by: **June 18, 2026.**

Existing county sewer line access improved route that pedestrians are already using: starting at a small parcel off Westbury Court north, following a long parcel strip owned by the Town of Clifton Park, and continuing on to the wetlands/beaver pond on Town-owned lands. The interest is in crossing the wetlands through a designed crossing that will need DEC/ACOE permitting, to then either follow the sewer line alignment (easement) or work with VFFD.

Town Supervisor

Town of Clifton Park Trails Master Plan

1. What is the purpose of the study?
 To investigate the effects of the new curriculum on the learning outcomes of students in the field of biology.
2. What are the research objectives?
 To determine the impact of the new curriculum on the learning outcomes of students in the field of biology.
3. What are the research questions?
 How does the new curriculum affect the learning outcomes of students in the field of biology?
4. What are the hypotheses?
 The new curriculum will have a positive effect on the learning outcomes of students in the field of biology.
5. What are the variables?
 The independent variable is the new curriculum, and the dependent variable is the learning outcomes of students in the field of biology.
6. What are the methods?
 The study will use a quantitative research method, specifically a quasi-experimental design, to measure the learning outcomes of students in the field of biology.
7. What are the results?
 The results of the study show that the new curriculum has a positive effect on the learning outcomes of students in the field of biology.
8. What are the conclusions?
 The study concludes that the new curriculum has a positive effect on the learning outcomes of students in the field of biology.
9. What are the recommendations?
 The study recommends that the new curriculum be implemented in other schools and that further research be conducted to investigate the effects of the new curriculum on the learning outcomes of students in the field of biology.

2026 TRAILS GRANT PROGRAM AGREEMENT
BETWEEN
SARATOGA COUNTY AND TOWN OF CLIFTON PARK

THIS AGREEMENT, BY AND BETWEEN,

COUNTY OF SARATOGA, a municipal corporation duly organized under the laws of the State of New York, with offices at 40 McMaster Street, Ballston Spa, New York 12020 (COUNTY),

-and-

TOWN OF CLIFTON PARK, a municipal corporation duly organized under the laws of the State of New York, with principal offices at 1 Town Hall Plaza, Clifton Park, New York 12065 (TOWN);

WITNESSETH:

WHEREAS, the Saratoga County Trails Grant Program was established to provide a matching fund grant program to assist municipalities in the feasibility, planning, engineering, and construction of local trails; and

WHEREAS, pursuant to Resolution 199-2026, the Saratoga County Board of Supervisors awarded a Trails Grant Program grant to the TOWN in the amount of up to \$6,600 upon the condition that the TOWN contribute a matching commitment from non-COUNTY sources; and

WHEREAS, all grant reimbursement requests shall be submitted to the COUNTY for final reimbursement no later than December 1, 2027, and any awarded funds not requested by such date shall be forfeited;

NOW, THEREFORE, IT IS AGREED:

1. **PROJECT**: The TOWN shall conduct a feasibility study to close a strategic gap of approximately 800 linear feet in the TOWN's trail network, including a wetland crossing (the "Project").
2. **GRANT AWARD & MATCH**: The COUNTY agrees to provide a grant to the TOWN in an amount not to exceed \$6,600 subject to the terms of Resolution 199-2026. The TOWN shall contribute a minimum 25% match of the awarded amount, i.e., \$1,650, from non-COUNTY sources, consisting of cash, in-kind services, or a combination of both. Total project expenditures must equal or exceed \$8,250 to qualify for the maximum reimbursement.
3. **REIMBURSEMENT**: The COUNTY shall issue a check from the Trails Grant Program funds payable to the TOWN in the amount of up to \$6,600 within 30 days of the receipt from the

TOWN of a properly executed COUNTY voucher. The voucher must be supported by documentation acceptable to the Saratoga County Auditor documenting total Project expenditures equaling or exceeding \$8,250, verifying the completion of the Project and the fulfillment of the non-COUNTY matching requirement.

4. DEADLINE: All grant reimbursement requests shall be submitted to the COUNTY for final reimbursement no later than December 1, 2027. Any awarded funds not requested by such date shall be forfeited and this Agreement shall be void with no further obligation or liability remaining on the part of the COUNTY.

IN WITNESS WHEREOF, the parties have executed this Agreement as of the date of the last signature affixed below.

SARATOGA COUNTY

Planning & Economic Development

Saratoga County Trails Grant Program 2026

A. Background: Saratoga County Board of Supervisors has allocated \$80,000 in grant funds to assist municipalities with the planning and construction of trails. Grant funds are awarded directly to the municipality as a reimbursement upon completion of the proposed project.

B. Eligible Applicants: All Saratoga County municipalities may apply for this grant program.

C. Eligible Projects: Project that may be funded through this grant program include:

- Engineering/Design/Feasibility Study
- Construction of new recreation trails
- Restoration of existing trails
- Development and improvement of trail amenities including wayfinding signs
- Land acquisition and permanent easements
- Water trails aka "blue trails"

It should be noted that not all applications may be awarded grant funds. Preference will be given to trail projects that fit into the County's goals of having interconnected multi-use trails throughout the County.

D. Eligible Costs: Grant funds may be used for costs associated with the planning, construction or reconstruction of trails including survey work, scoping reports and feasibility studies. The maximum award amount for a single proposal is \$10,000.

E. Match Requirements: The grant program requires a minimum 25% match of any awarded amount from Non-County sources (i.e. A County grant award of \$10,000 requires a minimum of \$2,500 in expenditures from Non-County sources). The match may be in the form of cash, in-kind services or a combination of both.

F. Post Award: Upon notice of award, the Saratoga County Department of Planning & Economic Development will provide the awardee with a checklist of submission requirements along with a template for the project's final budget. The awardee will be required to provide quarterly updates to the County outlining the progress of the project. All 2026 grants shall be submitted for final reimbursement no later than December 1, 2027. If substantial progress of the project has not been made by December 1, 2027, any unreimbursed awarded funds may be relinquished for the project. No grant monies shall be released without sufficient evidence of expenditures by the awardee.

Application must be received by June 18, 2026.

Please submit one (1) electronic copy and (3) paper copies of the application to:

Re: Moe Road Walking Path

Dear Ms. Viggiani:

Delaware Engineering, D.P.C. (DE) is pleased to provide this proposal for professional engineering services for the feasibility study and preliminary design of a walking path connecting the existing gravel pathways on Town property.

Project assumptions and services to be provided are listed below:

Assumptions:

- DE will have access to all available property and topographic surveys and as-built documentation pertaining to the project area.

Scope of Services:

Task 1 – Feasibility Study:

- Provide a feasibility study for connecting the existing gravel pathways through wetlands on Town property. The walking path is near Moe Road within the easement for the Saratoga County Sewer District (SCSD).
- Correspond with New York State Department of Environmental Conservation (NYSDEC), SCSD, and Vischer Ferry Fire Department for permitting requirements, locations, and easement requirements.
- Provide cost estimates for the construction of the walking path.

Task 2 – Permitting and Design Plans:

- Site Plan will be developed using orthoimagery and available LIDAR as part of this Proposal. DE will provide spot elevations as needed. If a boundary survey is required, DE will coordinate with the Client for additional surveying needs, and this will be billed separately as an additional service.
- Review plans and details with the Client.
- Wetlands in the area have been delineated, and the existing delineation will be used. If updated delineation is required, DE will coordinate with the Client, and this will be billed separately as an additional service.
- No geotechnical investigations or soil boring will be conducted. If geotechnical investigation is required, DE will coordinate with the Client, and this will be billed separately as an additional service.
- Provide Design Plans to the New York State Department of Environmental Conservation and Army Corp of Engineers for the wetland permit.

DELAWARE ENGINEERING, D.P.C.

- Plans will be signed and sealed by a professional engineer licensed to practice engineering in New York State.

Professional Services Fee:

Delaware Engineering will provide the Scope of Services as described in this proposal for a lump sum fee of **\$30,000**.

Task	Description	Total
1	Feasibility Study (Approx. 66 hours)	\$14,000
2	Design and Permitting (Approx. 100 hours)	\$16,000
	Total	\$30,000

*

Compensation:

Compensation shall commence for services provided from contract signing until completion of the work.

Total contract compensation shall not exceed **\$30,000** unless prior authorization is received from the Client. Invoices will be submitted to the Client not more frequently than on a monthly basis. Payment shall be made to the Engineer within 30 calendar days of the date of invoice. Checks shall be forwarded to Delaware Engineering, D.P.C., 28 Madison Avenue Extension, Albany, NY 12203 Attention: Susan Olivares.

Additional Services:

Additional services can be provided if deemed necessary and approved by the Client. Compensation for additional services can be negotiated as needed. Additional work will be approved by the Client prior to the execution of the additional services.

Services not indicated or included in the above-listed scope of services or which are subsequently requested, either verbally or in writing, will be considered additional services. The fee will be based upon either a mutually agreed upon lump sum or an hourly basis at rates in effect at the time the services are performed, plus subcontracts and reimbursable expenses as outlined in the Rate Schedule (See Attachment A) for the year in which the work is being performed.

Standard Contract Terms and Conditions:

The terms and conditions contained on the attached sheet would apply to the project contract for these services (See Attachment B).

Endorsements:

Thank you for the opportunity to submit a proposal for these services. If all is acceptable and you wish us to proceed with the work, please sign below and return a copy to our office.

Please contact me if you have any questions or comments at 518-452-1290 or via email at jfogarty@delawareengineering.com

DELAWARE ENGINEERING, D.P.C.

PART III
STANDARD TERMS AND CONDITIONS

1. STANDARD OF CARE. Services shall be performed in accordance with the standard of professional practice ordinarily exercised by the applicable profession at the time and within the locality where the Services are performed. Professional services are not subject to, and ENGINEER can not provide, any warranty or guarantee, express or implied, including warranties or guarantees contained in any uniform commercial code. Any such warranties or guarantees contained in any purchase orders, requisitions or notices to proceed issued by CLIENT are specifically objected to.

2. CHANGE OF SCOPE. The scope of Services set forth in this Agreement is based on facts known at the time of execution of this Agreement, including, if applicable, information supplied by CLIENT. For some projects involving conceptual or process development services, scope may not be fully definable during initial phases. As the Project progresses, facts discovered may indicate that scope must be redefined.

3. SAFETY. ENGINEER has established and maintains corporate programs and procedures for the safety of its employees. Unless specifically included as a service to be provided under this Agreement, ENGINEER specifically disclaims any authority or responsibility for general job site safety and safety of persons other than ENGINEER employees.

4. DELAYS. If events beyond the control of CLIENT or ENGINEER, including, but not limited to, fire, flood, explosion, riot, strike, war, process shutdown, act of God or the public enemy, and act or regulation of any government agency, result in delay to any schedule established in this Agreement, such schedule shall be amended to the extent necessary to compensate for such delay. In the event such delay exceeds 60 days, ENGINEER shall be entitled to an equitable adjustment in compensation.

5. TERMINATION/SUSPENSION. Either party may terminate this Agreement upon 30 days written notice to the other party. CLIENT shall pay ENGINEER for all Services, including profit relating thereto, rendered prior to termination, plus any expenses of termination. In the event either party defaults in its obligations under this Agreement (including CLIENT'S obligation to make the payments required hereunder), the non-defaulting party may, after 7 days written notice stating its intention to suspend performance under the Agreement if cure of such default is not commenced and diligently continued, and failure of the defaulting party to commence cure within such time limit and diligently continue, suspend performance under this Agreement.

6. OPINIONS OF CONSTRUCTION COST. Any opinion of construction costs prepared by ENGINEER is supplied for the general guidance of the CLIENT only. Since ENGINEER has no control over competitive bidding or market conditions, ENGINEER cannot guarantee the accuracy of such opinions as compared to contract bids or actual costs to CLIENT.

7. RELATIONSHIP WITH CONTRACTORS. ENGINEER shall serve as CLIENT'S professional representative for the Services, and may make recommendations to CLIENT concerning actions relating to CLIENT'S contractors, but ENGINEER specifically disclaims any authority to direct or supervise the means, methods, techniques, sequences or procedures of construction selected by CLIENT'S contractors.

8. CONSTRUCTION REVIEW. For projects involving construction, CLIENT acknowledges that under generally accepted professional practice, interpretations of construction documents in the field are normally required, and that performance of construction-related services by the design professional for the project permits errors or omissions to be identified and corrected at comparatively low cost. CLIENT agrees to hold ENGINEER harmless from any claims resulting from performance of construction-related services by persons other than ENGINEER.

9. INSURANCE. ENGINEER will maintain insurance coverage for Professional, Comprehensive General, Automobile, Worker's Compensation, and Employer's Liability in amounts in accordance with applicable law and regulation and ENGINEER'S business requirements. Certificates evidencing such coverage will be provided to CLIENT upon request. For projects involving construction, CLIENT agrees to require its construction contractor, if any, to include ENGINEER as an additional insured-on its policies relating to the Project. ENGINEER'S coverages referenced above shall, in such case, be excess over contractor's primary coverage.

10. HAZARDOUS MATERIAL. Hazardous materials may exist at a site where there is no reason to believe they could or should be present. ENGINEER and CLIENT agree that the discovery of unanticipated hazardous materials constitutes a changed condition mandating a renegotiation of the scope of work. ENGINEER agrees to notify CLIENT as soon as practically possible should unanticipated hazardous materials or suspected hazardous materials be encountered. CLIENT acknowledges and agrees that it retains title to all hazardous material existing on the site and shall report to the appropriate federal, state or local public agencies, as required, any conditions at the site that may present a potential danger to the public health, safety or the environment. CLIENT shall execute any manifests or forms in connection with transportation, storage and disposal of hazardous materials resulting from the site or work on the site or shall authorize ENGINEER to execute such documents as CLIENT'S agent. CLIENT waives any claim against ENGINEER and agrees to defend, indemnify, and save ENGINEER harmless from any claim or liability for injury or loss arising from ENGINEER'S discovery of unanticipated hazardous materials or suspected hazardous materials.

11. INDEMNITIES. To the fullest extent permitted by law, ENGINEER shall indemnify and save harmless CLIENT from and against loss, liability, and damages sustained by CLIENT, its agents, employees, and representatives by reason of injury or death to persons or damage to tangible property to the extent caused directly by the willful misconduct or failure to adhere to the standard of care described in Paragraph 1 above of ENGINEER, its agents or employees.

To the fullest extent permitted by law, CLIENT shall defend, indemnify, and save harmless ENGINEER from and against loss, liability, and damages sustained by ENGINEER, its agents, employees, and representatives by reason of claims for injury or death to persons, damages to tangible property, to the extent caused directly by any of the following: (a) any substance, condition, element, or material or any combination of the foregoing (1) produced, emitted or released from the Project or tested by ENGINEER under this Agreement, or (b) operation or management of the Project. CLIENT also agrees to require its construction contractor, if any, to include ENGINEER as an indemnitee under any indemnification obligation to CLIENT.

12. LIMITATIONS OF LIABILITY. No employee or agent of ENGINEER shall have individual liability to CLIENT. CLIENT agrees that, to the fullest extent permitted by law, ENGINEER'S total liability to CLIENT for any and all injuries, claims, losses, expenses or damages whatsoever arising out of or in any way related to the Project or this Agreement from any causes including, but not limited to, ENGINEER'S negligence, errors, omissions, strict liability, or breach of contract and whether claimed directly or by way of contribution shall not exceed the limits of insurance under this Agreement. If CLIENT desires a limit of liability greater than that provided above, CLIENT and ENGINEER shall include in Part III of this Agreement the amount of such limit and the additional compensation to be paid to ENGINEER for assumption of such additional risk. IN NO EVENT AND UNDER NO CIRCUMSTANCES SHALL ENGINEER BE LIABLE TO CLIENT FOR CONSEQUENTIAL, INCIDENTAL, INDIRECT, SPECIAL, OR PUNITIVE DAMAGES.

13. ACCESS. CLIENT shall provide ENGINEER safe access to any premises necessary for ENGINEER to provide the Services.

14. REUSE OF PROJECT DELIVERABLES. Reuse of any documents or other deliverables, including electronic media, pertaining to the Project by CLIENT for any purpose other than that for which such documents or deliverables were originally prepared, or alteration of such documents or deliverables without written verification or adaptation by ENGINEER for the specific purpose intended, shall be at the CLIENT'S risk. Further, all title blocks and the engineer's seal, if applicable, shall be removed if and when CLIENT provides deliverables in electronic media to another entity. CLIENT agrees that relevant analyses, findings and reports provided in electronic media shall also be provided in "hard-copy" and that the hard copy shall govern in the case of a discrepancy between the two versions, and shall be held as the official set of drawings, as signed and sealed. CLIENT shall be afforded a period of 30 days in which to check the hard copy against the electronic media. In the event that any error or inconsistency is found as a result of this process, ENGINEER shall be advised and the inconsistency shall be corrected at no additional cost to CLIENT. Following the expiration of this 30-day period, CLIENT shall bear all responsibility for the care, custody and control of the electronic media. In addition, CLIENT represents that it shall retain the necessary mechanisms to read the electronic media, which CLIENT acknowledges to be of only limited duration. CLIENT agrees to defend, indemnify, and hold harmless ENGINEER from all claims, damages, and expenses, (including reasonable litigation costs), arising out of such reuse or alteration by CLIENT or others acting through CLIENT.

15. AMENDMENT. This Agreement, upon execution by both parties hereto, can be amended only by a written instrument signed by both parties.

16. ASSIGNMENT. Except for assignments (a) to entities which control, or are controlled by, the parties hereto or (b) resulting from operation of law, the rights and obligations of this Agreement cannot be assigned by either party without written permission of the other party. This Agreement shall be binding upon and inure to the benefit of any permitted assigns.

17. STATUTES OF LIMITATION. To the fullest extent permitted by law, parties agree that, except for claims for indemnification, the time period for bringing claims under this Agreement shall expire one year after Project completion.

18. DISPUTE RESOLUTION. Parties shall attempt to settle disputes arising under this agreement by discussion between the parties' senior representatives of management. If any dispute can not be resolved in this manner, within a reasonable length of time, parties agree to attempt non-binding mediation or any other method of alternative dispute resolution prior to filing any legal proceedings. In the event any actions are brought to enforce this Agreement, the prevailing party shall be entitled to collect its litigation costs from the other party.

19. NO WAIVER. No waiver by either party of any default by the other party in the performance of any particular section of this Agreement shall invalidate any other section of this Agreement or operate as a waiver of any future default, whether like or different in character.

20. NO THIRD-PARTY BENEFICIARY. Nothing contained in this Agreement, nor the performance of the parties hereunder, is intended to benefit, nor shall inure to the benefit of, any third party, including CLIENT'S contractors, if any.

21. SEVERABILITY. The various terms, provisions and covenants herein contained shall be deemed to be separate and severable, and the invalidity or unenforceability of any of them shall not affect or impair the validity or enforceability of the remainder.

22. AUTHORITY. The persons signing this Agreement warrant that they have the authority to sign as, or on behalf of, the party for whom they are signing.

Good afternoon,

As a quick follow-up to the TB Resolution request just submitted, I wanted to share with you the communication from Delaware Engineering, that they are fine to ONLY proceed with the Task 1 Feasibility Study - in light of the grant award being \$6,600 and not a greater amount, should the Town Board decide to authorize them to conduct the feasibility study.

Thank you!

Sincerely,

Jennifer Viggiani

Subject: Englemore foot path - consideration of technopost type of pedestrian crossings over wetlands

Hi Jake,

We have a number of wooden construction pedestrian boardwalks built on Techno posts, elevated through wetland areas, in the West Sky Natural Area, south of the project site (from West Sky Lane south to an east-west connector trail (from Compton to Sugarbush at Moe). Here is a link to basic plans that include a detail/elevation of the **foot bridge** details: [West Sky Trail design plan.pdf](#)

I think the elevated footpath above the wetlands — is highly permissible under DEC and ACOE — unless things have changed! Which is always possible!!

We also have some wooden boardwalks in Hayes Nature Park, off of Moe Rd.

How the boardwalk "connects" and interfaces/transitions to the gravel surface existing access road — will be an important detail. And we have learned the hard way, that allowing for/designing for good drainage off the wooden deck bridges is critical to slow down boards rotting from moisture.

Thanks again!

Have a great weekend,

Resolution No. ___ of 2026, a resolution authorizing the retainment of FCM Engineering for professional services related to safety improvements for the Miller Road/Sugar Hill Road intersection with Grooms Road.

Introduced by _____, who moved its adoption, seconded by _____.

WHEREAS, at the September 24, 2026 Town Highway Safety Committee meeting, a recommendation was put forth to engage FCM Engineering to study and recommend safety improvements for the two Town roads of Miller Road and Sugar Hill Road and their intersection with Grooms Road, a County road, and

WHEREAS, the Town Planning Department received a proposal from FCM Engineering, attached, which includes their scope of services for studying the said intersection safety improvements, in an amount not to exceed \$4,950.00; now, therefore, be it

RESOLVED, that FCM Engineering is hereby retained to provide professional services in regard to the study and recommendation of safety improvements for the Miller Road/Sugar Hill Road intersection with Grooms Road, at a cost not to exceed \$4,950.00, to be paid from the Vischer Ferry GEIS, with a transfer to A-01440-00135, (General Fund – Engineering – Engineering).

John Scavo
Director of Planning & Zoning Department
Town of Clifton Park
One Town-Hall Plaza
Clifton Park, NY 12065

Re: Miller Road/Grooms Road/Sugar Hill Road Intersection
Intersection Safety Improvements

Dear Mr. Scavo:

We have reviewed the Initial August Safety Review memorandum dated September 8, 2026, along with the video and the crash data report for the subject intersection. The intersection is controlled by "STOP" signs on the minor approaches, which are Sugar Hill Road and Miller Road. Grooms Road traffic is free flowing. The preliminary findings from the Town Highway Safety Committee identified a recurring failure-to-yield pattern involving the stop-controlled approaches and a potential visibility concern with the northbound Sugar Hill Road approach "STOP" sign and recommended the following:

1. Conduct a formal daytime and nighttime field review.
2. Measure intersection sight distance.
3. Evaluate the northbound Sugar Hill Road STOP-sign installation.
4. Review the difference between the two stopped approaches.
5. Collect updated traffic and speed data.
6. Coordinate with enforcement personnel.
7. Review property and historic-site constraints.
8. Return to the Highway Safety Committee with alternatives.

From my experience as a Transportation Engineer for over 40 years and the Chairman of the Town of Glenville Traffic Safety committee for over 20 years, this intersection is not unique with respect to traffic flow, speed and safety concerns and measures can be taken to improve safety. All recommendations will be consistent with the latest addition of the Manual of Traffic Control Devices (MUTCD) and standard traffic engineering design practices. Our proposed scope of services is as follows:

SCOPE OF SERVICES

Task 1 – The consultant will develop project base mapping of the intersection and the project area using available information via google street and tax maps. Base mapping will be scaled at 1" =40' on 11 x 17 paper.

Cost of the task is \$250.00.

Task 2 – Review all materials received from the Town that includes:

- Grooms Road Speed Trailer Data collected in August 2019.
- Miller Road Speed Trailer Data collected in May 2023.

- Sugar Hill Road Speed Data collected in August 2023.
- Five-Year Crash Data Report, which identifies six reported crashes in the compiled dataset at the intersection.
- Any additional traffic and speed data that will be provided by the town.

Cost of the task is \$400.00.

Task 3 – The consultant will conduct an existing conditions survey of the project area that includes the following:

- Field measure the location and type of traffic signs within 500 feet of each approach to the intersection. This will include all traffic signs.
- Field measure the location of all existing pavement markings at the intersection.
- Field measure the location of any fixed objects such as utility poles.
- Field measure the location of any sight obstructions such as trees and shrubs that obstruct the visibility of the intersection.
- Field measure the intersection sight distance for each approach to the intersection.
- Visually observe the traffic flow at the intersection during the PM peak hours, which are typically from 4:00 pm to 6:00 pm and nighttime traffic flow from 8:00 pm to 10:00 pm.

Cost for the task is \$950.00.

Task 4 – All field data will be added to the project base mapping for the purpose of developing an “Existing Conditions” plan of the project area.

Cost of the task is \$250.00.

Task 5 – The consultant will perform a safety improvement evaluation of the intersection and recommended improvements that may include but not limited to the following:

- Recommending appropriate location of traffic signs at the intersections and the approaches, which includes the “STOP” signs, “STOP” bars and advisory signs at the approaches to the intersection.
- Recommending improvements where approaches to the intersection have less than desirable sight distances.
- Recommending possible traffic calming measures to reduce vehicular traffic speeds.
- Prepare an Initial Concept Plan showing the recommended improvements for review by the town.

Cost of the task is \$1,900.00.

Task 6 – Attend a meeting with town staff to go over the safety evaluation and recommended improvements and obtain input.

Cost of the task is \$250.00.

Task 7 – The consultant will modify the Initial Concept Plan based upon input from the Town. A Pre-final Concept Plan will be forwarded to the Town for final review and comment. The consultant will finalize the Concept Plan after any additional comments are received.

Cost of the task is \$250.00.

Task 8 - The consultant will prepare a draft technical memorandum summarizing the project and include all information collected and analyzed in tasks 1-7 and submit it to the town for review and comment. A final memorandum will be prepared to incorporate any comments provided by the town.

Budget amount for the task is \$700.00.

Throughout the development of each task, the consultant will coordinate with Town officials as needed to obtain input and guidance. The cost of the coordination effort is included in the tasks.

ENGINEERING FEE

The consultant will perform the above scope of services for a fee of **\$4,950.00**. Invoices will be submitted based upon the cost for each task. A progress report will be sent with each invoice.

ADDITIONAL SERVICES

Additional engineering and phase services beyond the stated scope of services can be provided at the request of the client at an agreed upon cost prior to performing the work.

SCHEDULE

The consultant proposes completing Tasks 1 through 5 within two weeks of town approval of the proposal. The remainder of the work will be completed no later than two weeks following meeting under Task 6.

ACCEPTANCE

If this proposal is acceptable, please sign and date below. I will then begin the work as stated in the scope of services. **FCM Engineering, PLLC**, appreciates the opportunity to provide engineering services for this project. If you have any questions, please contact me.

Sincerely,

FCM Engineering, PLLC

DAHN S. BULL
SUPERINTENDENT OF HIGHWAYS

RECEIVED

JUL 20 2026

CLIFTON PARK
TOWN CLERK

MEMO

TO: The Town Board
CC: Ellen Martin, Deputy Highway Superintendent, Caitlin Fantini, Town Clerk, James Ryan, Highway Maintenance Supervisor, Ryan Ensel, Assistant Highway Maintenance Supervisor
FROM: Dahn S. Bull, Highway Superintendent
Date: July 20, 2026
RE: Reorganization of Highway Department

As of Thursday, July 30, 2026, Stanley Rusinovich will be retiring from his position as Assistant Highway Maintenance Supervisor. I have submitted a resolution to promote from within Mr. Ryan Ensel, a current Working Supervisor.

As management is changing, this is an ideal time to reevaluate our organizational structure and determine changes allowing for additional opportunities for our employees to grow and better themselves. Creating additional promotional prospects within the Highway Department will help with employee retention and widen the field of advancement for our employees.

The most significant changes that I will be making are as follows;

First, I will create an additional Working Supervisor position. This would increase the number of Working Supervisors from three to four. After Mr. Ensel's promotion to Assistant Highway Maintenance Supervisor, this will mean there are two vacancies for Working Supervisor, and not one. These two vacancies will be promotions from within, not new hires. Working Supervisor is a title within the CSEA Union Contract with the Highway Department and is a Grade 7.

Second, I am reestablishing the position of Heavy Equipment Operator (HEO). The HEO position is a Grade 6 and is within the CSEA Union Contract. I will establish two of these positions and promotions will occur from within the Department.

Thirdly, with Mr. Rusinovich's retirement, we now have three vacancies within the department. Under the Highway Budget lines, there are typically 30 employees in the garage. I will be shortly seeking applications for Motor Equipment Operators to fill these vacancies.

I understand that the above-mentioned promotions will have a financial impact on the Highway Department Budget. I would like the Town Board to support the promotions and their financial implications, but if it is necessary, to counter the increases in salary, forgoing the hiring of a third Motor Equipment Operator could be a possibility. This would lower the total numbers of the department from 30 to 29. While not eliminating a position would be ideal, I find it far more imperative to increase the opportunities for our current workforce and create an environment where hard work and dedication can be rewarded through promotion. We have many great employees within this department and I find it necessary to incentivize that exceptionalism rather than add to the ranks.

If you have any questions, please feel free to contact me.

MEMO

TO: The Town Board
CC: Ellen Martin, Deputy Highway Superintendent, Caitlin Fantini, Town Clerk, James Ryan, Highway Maintenance Supervisor, Ryan Ensel, Assistant Highway Maintenance Supervisor
FROM: Dahn S. Bull, Highway Superintendent
Date: July 28, 2026
RE: Reorganization of Highway Department

This is in response to my memo of July 20, 2026, I am today posting the promotional positions of Working Supervisor and Heavy Equipment Operator. I will also post the Motor Equipment positions.

Here is a recap of the changes that I will be making;

The proposed reorganization of the Highway Department includes creating a fourth Working Supervisor position, resulting in two internal promotion opportunities following Ryan Ensel's promotion to Assistant Highway Maintenance Supervisor, and reestablishing two Heavy Equipment Operator positions, which will also be filled through internal promotions.

Additionally, the department will seek applicants to fill the remaining Motor Equipment Operator vacancies created by a retirement and resignations. While these promotions will increase personnel costs, the proposal emphasizes investing in current employees by expanding advancement opportunities and improving retention.

If necessary to offset the budgetary impact, the department could forgo filling one of the three Motor Equipment Operator vacancies, reducing the workforce from 30 to 29 employees while prioritizing employee development and recognizing outstanding performance.

If you have any questions, please feel free to contact me.

CLIFTON PARK HIGHWAY DEPARTMENT

JOB DESCRIPTION

MOTOR EQUIPMENT OPERATOR (2)

Grade 5, Step 1 Salary – 60,364.00, \$28.91/hr.

ACCEPTING APPLICATIONS TO HIGHWAY DEPARTMENT

The Town of Clifton Park Highway Department is searching for a Motor Equipment Operator. This position is a full-time position and is responsible for many of the daily tasks performed by the employees of the Highway Department. A Motor Equipment Operator is required to have a Class A or Class B Commercial Drivers License to operate the vehicles necessary for this position. This includes, but is not limited to Snow Plows, the Vac Truck, Water Truck, six and ten wheeled vehicles with Air Brake Certification, and more. An ideal candidate has experience in fields such as construction, excavation, heavy equipment operation and license endorsements such as air brakes, tanker, etc.

GENERAL STATEMENT OF DUTIES: Operates one or more types of automotive equipment and performs a variety of manual tasks in connection with such operation; does related work as required.

DISTINGUISHING FEATURES OF THE CLASS: Work involves responsibility for the safe and efficient operation and care of moderately complex motor equipment in the performance of assigned tasks. An employee in this class is also required to perform recurring manual duties related to the operation of the equipment. Work is usually performed under close supervision.

EXAMPLES OF WORK: (Illustrative only)

- Operates a truck in connection with the hauling of material for road construction and Repair;
- Operates a truck to transport workmen, tools and other equipment;
- Operates a snowplow or related snow removal equipment;
- Performs minor mechanical repairs on automotive equipment;
- On assignment, operates bulldozer, grader, power shovel or other heavy automotive Equipment;
- Services assigned vehicle and maintains it in clean condition;
- Loads and unloads trucks;
- Performs a variety of simple manual tasks, such as cleaning culverts, shoveling snow, Painting and road maintenance work.

REQUIRED KNOWLEDGES, SKILLS AND ABILITIES: Good knowledge of the operation of trucks, tractors, and other types of automotive equipment; ability to understand and carry out simple oral and written instructions; mechanical aptitude; industry and dependability; good physical condition.

ACCEPTABLE EXPERIENCE AND TRAINING: One year of experience in the operation of some type of construction or automotive equipment.

SPECIAL REQUIREMENTS FOR ACCEPTANCE OF APPLICATIONS: Candidate must possess a New York State Driver's License appropriate for the type of vehicle to be operated.

Questions can be directed to the Superintendent of Highways at (518) 371-7310

DISTINGUISHING FEATURES OF THE CLASS: The work involves responsibility for leading and participating with a small group of Laborers and Motor Equipment Operators in safely performing a variety of routine highway maintenance tasks. Instructions are received regarding work to be done and how to do it when new or unusual procedures are involved. A higher-ranking department employee may check the work in progress and upon completion may inspect and review the work. Does related work as required.

TYPICAL WORK ACTIVITIES:

- Leads and participates in the cleaning, maintenance and repair of highways and adjacent areas;
- Leads and participates in the construction, maintenance, and repair of ditches, culverts and other structures;
- Leads and participates in snow removal and sanding tasks;
- Leads and participates in tree trimming and removal activities;
- Leads and participates in the construction of curbs and retaining walls;
- Leads and participates in the cleaning and oiling of tools and equipment;
- Operates various pieces of motor equipment in connection with the work;
- Performs various manual tasks;
- May maintain records of work performed.

FULL PERFORMANCE KNOWLEDGE, SKILLS, ABILITIES AND PERSONAL CHARACTERISTICS: Working knowledge of practices, tools, terminology and safety precautions of highway maintenance; Good knowledge of local geography and roads; Ability to safely and effectively operate a variety of highway construction and maintenance equipment; Ability to understand and follow oral and written instructions; Ability to participate in assigned projects and lay-out work for others.

MINIMUM QUALIFICATIONS: Either: (A) Graduation from high school or possession of a high school equivalency diploma and two (2) years of experience as a motor equipment operator in construction, public works or related activities; (B) Four (4) years paid experience as defined in (a).

SPECIAL REQUIREMENT: Possession of a valid New York State driver's license appropriate to the vehicles operated.

CLIFTON PARK HIGHWAY DEPARTMENT

JOB DESCRIPTION

Heavy Equipment Operator (2)

Grade 6

ACCEPTING APPLICATIONS TO HIGHWAY DEPARTMENT

DISTINGUISHING FEATURES OF THE CLASS: Work involves the operation one or more types of specialized heavy equipment used in road maintenance, construction projects and other public works activities; Incumbent performs a variety of manual tasks in connection with the operation and maintenance of such equipment; This title differs from Motor Equipment Operator due to the more complex nature of skill level required for the type of equipment being operated, along with the increased responsibility for the safety of others. Additional responsibility is involved for making minor repairs and service to equipment, which may include automotive equipment as needed. Work is performed under general supervision with leeway allowed for the exercise of independent judgement in carrying out the details of the work. Supervision may be exercised over the work of Laborer(s) and Motor Equipment Operator(s) depending on the project/assignment; Does related work as required.

EXAMPLES OF WORK: (*Illustrative only)

Operates bulldozer, power grader, roller, tractor with equipment and other types of heavy equipment in the construction and maintenance of highways and other public works projects;

Operates heavy snow removal equipment including plows, heavy trucks, graders and 4 wheel drive snow plows, in the clearing of roads;

Operates heavy equipment in connection with cutting banks, cutting and filling ditches, removing stumps, stripping gravel pits and related assigned highway department tasks;

Performs minor maintenance and repair work on assigned equipment;

May operate a variety of hand and power tools such as snow removal equipment, shovels, picks, axes, rakes, etc., in the performance of assigned duties;

May operate chain saws in cutting and trimming trees;

Loads and unloads vehicles;

Performs manual tasks related to motor and/or heavy equipment operation;

Performs a variety of manual work within departmental operations when not engaged in equipment operations. (*Typical Work Activities are intended only as illustrations of possible types of work that might be appropriately assigned to an incumbent of this title. Work activities that do not appear above are not excluded as appropriate work assignments, as long as they can be reasonably understood to be within the logical limits of the job.)

REQUIRED KNOWLEDGES, SKILLS AND ABILITIES: Good knowledge of the operation and maintenance of heavy automotive and/or specialized automotive and/or construction equipment; good knowledge of safety procedures for equipment use; ability to service and make minor repairs and adjustments to equipment as required to meet demands of projects; ability to read and understand assigned equipment operational and servicing information; ability to plan and supervise the work of assigned Motor Equipment Operators and Laborer(s) as necessary on assigned projects; ability to understand and carry out oral and written instructions; mechanical aptitude; willingness to respond to emergencies and work adverse weather conditions; physical condition commensurate with the demands of the position.

MINIMUM QUALIFICATION: One year of experience in the operation of specialized or heavy motor and/or construction maintenance equipment, or two (2) years of experience in the operation of any type of specialized automotive equipment.

SPECIAL REQUIREMENTS: Candidate must possess and maintain a New York State Driver's License appropriate for the type of vehicle to be operated. (CDL required for the operation of vehicles with a gross weight over 26,000 lbs.)
