**Tuesday, January 23, 2024 Temporary Detours and Closures at  
the Intersection of Clifton Country Road and Clifton Park Center  
Road (North) In the Exit 9 Commerce Area of Clifton Park**

*Repairs Being Made to Damaged Culvert at Intersection*

Clifton Park Highway Superintendent Dahn Bull has announced that Clifton Country Road and Clifton Park Center Road, between McDonough Way and Route 146 will be temporarily closed for repairs. There will be a brief change in traffic patterns where the lefthand turn lane onto Clifton Park Center Road will be closed. This intersection is commonly used as the entrance for access to the North end of the Mall. The work being completed is the replacement of a damaged culvert at this intersection. It will occur Tuesday, January 23, 2024.

During the closure, the Clifton Park Highway Department will have detours available for commuter traffic. Vehicles can enter the mall through the signaled intersection directly south of the construction zone at McDonough Way.

The Town Highway Department asks that motorists practice increased caution while driving in the area. For several hours throughout the day, the road will be impassable. First Responders and Shenendehowa School District Transportation have been notified. A Map has been attached to assist commuters.
