## For Your Information

We want you to easily understand your bill, the terms we use and the charges that appear. Following is a brief explanation of items that appear on your bill, as well as payment programs and billing services we offer. If you have questions or want more detailed explanations, please visit our website at [www.nationalgrid.com](http://www.nationalgrid.com) or call 1-800-642-4272.

### Paying Your Bill/ Payment Options

- **DirectPay:** If you choose, National Grid will automatically withdraw your monthly bill payment from your checking or savings account. You will avoid the inconvenience of check writing, stamps, mailing and due dates. Your service bill will indicate your energy usage and the date of your next automatic withdrawal.
  - **By Mail:** Send us your payment in the envelope provided with your bill. For your protection, please do not send cash. Put your 10-digit account number on your check or money order and include your bill stub. Please do not staple or paper clip your check to the stub.
  - **In Person:** Pay at an authorized payment location by cash or check. Please bring your bill with you. Most locations charge a fee for providing this service. For the payment locations nearest you, visit our website or contact us.
  - **Online:** Enroll online to receive and pay your bill online. The online function will begin with the next billing cycle following your enrollment.
  - **Late Payment Charge:** To avoid Late Payment Charges, your payment must be received by the date shown on the front of the bill.
- ### Billing Credits

**Paperless Billing Credit:** A credit provided to Customers who elect to receive their bills electronically through the Company's Online Bill-Pay Program.

**Outage Credit:** A credit issued by the company in case of a prolonged electric service outage.

## Charges

Charges for electric or gas service are based on rates or prices approved by the New York State Public Service Commission (PSC). When changes in prices are approved by the PSC, information will be included with your bill. Complete price schedules are available on our website or by contacting us. National Grid reserves the right to upwardly adjust a previously issued bill or back bill.

**Basic Service:** A charge to cover costs for meter reading, billing, equipment and maintenance. This charge is the same regardless of how much energy is used during the billing period.

**Tariff Surcharge:** New York State and many local municipalities impose taxes on National Grid's revenue. These operating costs are recovered through a tariff surcharge applied to all rates and charges and may vary among taxing municipalities within the National Grid system area.

**Sales Tax:** In some areas National Grid is required to collect state and local sales taxes. Some school districts also impose taxes.

### Incremental State Assessment

**Surcharge/Credit:** A surcharge collected on behalf of New York State in accordance with Public Service Law, Section 18-a which established the Temporary State Energy and Utility Service Conservation Assessment.

**Merchant Function Charge:** A charge for the Company's cost to procure gas or electricity supply. The Company will not bill you this charge if you choose an alternate supplier.

### Energy Measurement Terms

**kWh:** The unit of electricity usage measured by your meter. One kilowatt-hour (kWh) is 1000 watts-hours, and will light a 100-watt bulb for 10 hours. The number of kWhs is used to determine the electricity charges on your bill.

**Meter Multiplier:** Due to their design, some meters record a fraction of the total usage. The multiplier is used to convert the recorded meter reading on these types of meters to total actual consumption.

**CCF:** The unit of gas volume (100 cubic feet) as measured by your meter.

**Therm:** A unit of heat content equal to 100,000 British Thermal Units (BTU). A BTU represents the amount of heat required to raise the temperature of one pound of water by one degree Fahrenheit. The number of CCFs is multiplied by a conversion factor to determine the therms used. The number of therms is used to determine the gas charges on your bill.

### Electric Service

**Delivery:** National Grid's charges for bringing electricity from your supplier to your premise, regardless of supplier.

**Legacy Transition Charge (LTC):** All delivery service customers are billed the cost or benefit of electricity supply contracts the Company entered prior to June 1, 2001. Residential customers also receive the benefit of low cost hydropower and a discount payment from the New York Power Authority.

**Capacity Tag:** Your adjusted electricity demand at the hour of the New York Control Area peak load in the most recent 12 month period ending May 1.

**SBC:** These charges reflect costs associated with mandated public policy programs, such as energy efficiency.

**Revenue Decoupling Mechanism ("RDM") :** Reconciles actual billed delivery service revenues to annual target revenues. Delivery service revenues above target are refunded to customers. Target revenues above actual delivery service revenues are collected from customers.

**Transmission Revenue Adjustment:** Reconciles wholesale transmission service revenue to the forecasted transmission service revenue embedded in electric delivery rates. Transmission service revenues above those forecasted are credited to customers. Forecast revenues above actual revenues are collected from customers.

**Electricity Supply:** The price of electricity supply used during the billing period. If you choose an alternate supplier, the price will be what you agree upon with that supplier.

**Electricity Supply Reconciliation Mechanism (ESRM):** Reconciles National Grid's electricity supply service revenues to the cost of Company-purchased electricity. Costs above revenues are recovered from customers. Revenues above costs are credited to customers.

## Gas Service

**National Grid Gas Delivery Service Charge:** National Grid's charges for transporting gas across its distribution system to your premise, regardless of supplier.

**Adjustment for changes from normal weather:** A mechanism that adjusts customers' gas bills due to variations from normal weather during the heating months, October through May.

**System Benefits Charge:** A charge to reflect costs associated with certain mandated public policy programs, such as energy efficiency programs.

**Gas Supply:** A charge to reflect the Company's actual cost to purchase gas from suppliers and transporting the gas to the Company's distribution system. If you choose an alternate supplier, the price will be what you agree upon with that supplier.

### Delivery Service Adjustment:

A collection of surcharges and credits consisting of a Pipeline Refund, Net Revenue Sharing Adjustment, Research & Development Surcharge, Revenue Decoupling Mechanism Adjustment and Deferral Credit.

## Estimating Your Usage

When we are unable to obtain a reading, we estimate your usage based on your past usage, taking current weather conditions into account. Because our meters keep a continuous record of usage, any difference between estimated and actual usage is reconciled with the next meter reading. To avoid estimated readings, you can take your own reading on or just before the scheduled date shown on your bill and call it in at 1-888-932-0301.

For more information, visit us at: [www.nationalgrid.com](http://www.nationalgrid.com) or call 1-800-642-4272. Customers with problems paying their National Grid bill should call 1-800-443-1837.

[www.nationalgridus.com](http://www.nationalgridus.com)  
**Understanding Demand Charges**

Applied to nonresidential customers' service bills, demand charges help National Grid provide and maintain its electric service equipment and meet peak consumption periods.

Demand usage levels are used to determine the appropriate service classification under which a nonresidential customer will be billed. A change in recorded demand may cause a customer to be moved to a different service classification with different rates and charges.

Whenever a nonresidential customer served under Service Classification No 2 has recorded energy consumption greater than 2,000 kilowatt-hours (kWh) per month for four consecutive months, or whenever the connected load of a customer indicates that the energy consumption will exceed 2,000 kWh per month, National Grid will start billing for demand.

Once demand billing begins under SC-2, it does not end until after a customer's monthly energy consumption has been less than 2,000 kWh per month for 12 consecutive months. This requirement cannot be avoided by terminating service.

If a customer's monthly measured demand has equaled or exceeded 100 kilowatts (kW) in each of the previous 12 months and the average monthly load characteristics (sum of 12 monthly metered energies divided by the sum of the 12 monthly measured demands) indicate greater than 150 hours use, or when in the Company's opinion the applicant's demand will equal or exceed 100 kW in 12 consecutive months, the customer will be moved to SC-3. The customer will remain on SC-3 until the monthly measured demand has been less than 100 kW for 12 consecutive months following the initial term of service.

Information relating to the applicability of service classifications and demand billing can be found in National Grid's Electric Tariff. The tariff is available for review at [www.nationalgridus.com/tariff](http://www.nationalgridus.com/tariff) or at the Public Service Commission headquarters in Albany.

For National Grid service classifications, prices for electric service and supply, or other energy-related information, see [www.nationalgrid.com](http://www.nationalgrid.com) or call our Commercial and Industrial Business Team at 1-800-664-6729, Monday-Friday, 8 a.m.- 5 p.m.

You may also reach us via email at [www.nationalgridus.com/contactus](mailto:www.nationalgridus.com/contactus).

## For Your Information

We want you to easily understand your bill, the terms we use and the charges that appear. Following is a brief explanation of items that appear on your bill, as well as payment programs and billing services we offer. If you have questions or want more detailed explanations, please visit our website at [www.nationalgrid.com](http://www.nationalgrid.com) or call 1-800-642-4272.

## Paying Your Bill/ Payment Options

• **DirectPay:** If you choose, National Grid will automatically withdraw your monthly bill payment from your checking or savings account. You will avoid the inconvenience of check writing, stamps, mailing and due dates. Your service bill will indicate your energy usage and the date of your next automatic withdrawal.

• **By Mail:** Send us your payment in the envelope provided with your bill. For your protection, please do not send cash. Put your 10-digit account number on your check or money order and include your bill stub. Please do not staple or paper clip your check to the stub.

• **In Person:** Pay at an authorized payment location by cash or check. Please bring your bill with you. Most locations charge a fee for providing this service. For the payment locations nearest you, visit our website or contact us.

• **Online:** Enroll online to receive and pay your bill online. The online function will begin with the next billing cycle following your enrollment.

• **Late Payment Charge:** To avoid Late Payment Charges, your payment must be received by the date shown on the front of the bill.

## Billing Credits

**Paperless Billing Credit:** A credit provided to Customers who elect to receive their bills electronically through the Company's Online Bill-Pay Program.

**Outage Credit:** A credit issued by the company in case of a prolonged electric service outage.

## Charges

Charges for electric or gas service are based on rates or prices approved by the New York State Public Service Commission (PSC). When changes in prices are approved by the PSC, information will be included with your bill. Complete price schedules are available on our website or by contacting us. National Grid reserves the right to upwardly adjust a previously issued bill or back bill.

**Basic Service:** A charge to cover costs for meter reading, billing, equipment and maintenance. This charge is the same regardless of how much energy is used during the billing period.

**Tariff Surcharge:** New York State and many local municipalities impose taxes on National Grid's revenue. These operating costs are recovered through a tariff surcharge applied to all rates and charges and may vary among taxing municipalities within the National Grid system area.

**Sales Tax:** In some areas National Grid is required to collect state and local sales taxes. Some school districts also impose taxes.

## Incremental State Assessment

**Surcharge/Credit:** A surcharge collected on behalf of New York State in accordance with Public Service Law, Section 18-a which established the Temporary State Energy and Utility Service Conservation Assessment.

**Merchant Function Charge:** A charge for the Company's cost to procure gas or electricity supply. The Company will not bill you this charge if you choose an alternate supplier.

## Energy Measurement Terms

**kWh:** The unit of electricity usage measured by your meter. One kilowatt-hour (kWh) is 1000 watts-hours, and will light a 100-watt bulb for 10 hours. The number of kWhs is used to determine the electricity charges on your bill.

**Meter Multiplier:** Due to their design, some meters record a fraction of the total usage. The multiplier is used to convert the recorded meter reading on these types of meters to total actual consumption.

**CCF:** The unit of gas volume (100 cubic feet) as measured by your meter.

**Therm:** A unit of heat content equal to 100,000 British Thermal Units (BTU). A BTU represents the amount of heat required to raise the temperature of one pound of water by one degree Fahrenheit. The number of CCFs is multiplied by a conversion factor to determine the therms used. The number of therms is used to determine the gas charges on your bill.

## Electric Service

**Delivery:** National Grid's charges for bringing electricity from your supplier to your premise, regardless of supplier.

**Legacy Transition Charge (LTC):** All delivery service customers are billed the cost or benefit of electricity supply contracts the Company entered prior to June 1, 2001. Residential customers also receive the benefit of low cost hydropower and a discount payment from the New York Power Authority.

**Capacity Tag:** Your adjusted electricity demand at the hour of the New York Control Area peak load in the most recent 12 month period ending May 1.

**SBC:** These charges reflect costs associated with mandated public policy programs, such as energy efficiency.

**Revenue Decoupling Mechanism ("RDM"):** Reconciles actual billed delivery service revenues to annual target revenues. Delivery service revenues above target are refunded to customers. Target revenues above actual delivery service revenues are collected from customers.

**Transmission Revenue Adjustment:** Reconciles wholesale transmission service revenue to the forecasted transmission service revenue embedded in electric delivery rates. Transmission service revenues above those forecasted are credited to customers. Forecast revenues above actual revenues are collected from customers.

**Electricity Supply:** The price of electricity supply used during the billing period. If you choose an alternate supplier, the price will be what you agree upon with that supplier.

**Electricity Supply Reconciliation Mechanism (ESRM):** Reconciles National Grid's electricity supply service revenues to the cost of Company-purchased electricity. Costs above revenues are recovered from customers. Revenues above costs are credited to customers.

## Gas Service

**National Grid Gas Delivery Service Charge:** National Grid's charges for transporting gas across its distribution system to your premise, regardless of supplier.

**Adjustment for changes from normal weather:** A mechanism that adjusts customers' gas bills due to variations from normal weather during the heating months, October through May.

**System Benefits Charge:** A charge to reflect costs associated with certain mandated public policy programs, such as energy efficiency programs.

**Gas Supply:** A charge to reflect the Company's actual cost to purchase gas from suppliers and transporting the gas to the Company's distribution system. If you choose an alternate supplier, the price will be what you agree upon with that supplier.

## Delivery Service Adjustment:

A collection of surcharges and credits consisting of a Pipeline Refund, Net Revenue Sharing Adjustment, Research & Development Surcharge, Revenue Decoupling Mechanism Adjustment and Deferral Credit.

## Estimating Your Usage

When we are unable to obtain a reading, we estimate your usage based on your past usage, taking current weather conditions into account. Because our meters keep a continuous record of usage, any difference between estimated and actual usage is reconciled with the next meter reading. To avoid estimated readings, you can take your own reading on or just before the scheduled date shown on your bill and call it in at 1-888-932-0301.

For more information, visit us at: [www.nationalgrid.com](http://www.nationalgrid.com) or call 1-800-642-4272. Customers with problems paying their National Grid bill should call 1-800-443-1837.

**Choosing an Energy Supplier** You can choose who supplies your energy. No matter which energy supplier you choose, National Grid will continue to deliver energy to you safely, efficiently and reliably. We will also continue to provide your customer service, including emergency response and storm restoration. National Grid is dedicated to creating an open energy market that lets you choose from a variety of competitive energy suppliers, who may offer different pricing options. For information on authorized energy suppliers and how to choose, please visit us online at [ngrid.com/ny-energychoice](http://ngrid.com/ny-energychoice)

**Understanding Demand Charges**

Applied to nonresidential customers' service bills, demand charges help National Grid provide and maintain its electric service equipment and meet peak consumption periods.

Demand usage levels are used to determine the appropriate service classification under which a nonresidential customer will be billed. A change in recorded demand may cause a customer to be moved to a different service classification with different rates and charges.

Whenever a nonresidential customer served under Service Classification No 2 has recorded energy consumption greater than 2,000 kilowatt-hours (kWh) per month for four consecutive months, or whenever the connected load of a customer indicates that the energy consumption will exceed 2,000 kWh per month, National Grid will start billing for demand.

Once demand billing begins under SC-2, it does not end until after a customer's monthly energy consumption has been less than 2,000 kWh per month for 12 consecutive months. This requirement cannot be avoided by terminating service.

If a customer's monthly measured demand has equaled or exceeded 100 kilowatts (kW) in each of the previous 12 months and the average monthly load characteristics (sum of 12 monthly metered energies divided by the sum of the 12 monthly measured demands) indicate greater than 150 hours use, or when in the Company's opinion the applicant's demand will equal or exceed 100 kW in 12 consecutive months, the customer will be moved to SC-3. The customer will remain on SC-3 until the monthly measured demand has been less than 100 kW for 12 consecutive months following the initial term of service.

Information relating to the applicability of service classifications and demand billing can be found in National Grid's Electric Tariff. The tariff is available for review at [www.nationalgridus.com/tariff](http://www.nationalgridus.com/tariff) or at the Public Service Commission headquarters in Albany.

For National Grid service classifications, prices for electric service and supply, or other energy-related information, see [www.nationalgrid.com](http://www.nationalgrid.com) or call our Commercial and Industrial Business Team at 1-800-664-6729, Monday-Friday, 8 a.m. - 5 p.m.

You may also reach us via email at [www.nationalgridus.com/contactus](mailto:www.nationalgridus.com/contactus).

## For Your Information

We want you to easily understand your bill, the terms we use and the charges that appear. Following is a brief explanation of items that appear on your bill, as well as payment programs and billing services we offer. If you have questions or want more detailed explanations, please visit our website at [www.nationalgrid.com](http://www.nationalgrid.com) or call 1-800-642-4272.

### Paying Your Bill/ Payment Options

• **DirectPay:** If you choose, National Grid will automatically withdraw your monthly bill payment from your checking or savings account. You will avoid the inconvenience of check writing, stamps, mailing and due dates. Your service bill will indicate your energy usage and the date of your next automatic withdrawal.

• **By Mail:** Send us your payment in the envelope provided with your bill. For your protection, please do not send cash. Put your 10-digit account number on your check or money order and include your bill stub. Please do not staple or paper clip your check to the stub.

• **In Person:** Pay at an authorized payment location by cash or check. Please bring your bill with you. Most locations charge a fee for providing this service. For the payment locations nearest you, visit our website or contact us.

• **Online:** Enroll online to receive and pay your bill online. The online function will begin with the next billing cycle following your enrollment.

• **Late Payment Charge:** To avoid Late Payment Charges, your payment must be received by the date shown on the front of the bill.

### Billing Credits

**Paperless Billing Credit:** A credit provided to Customers who elect to receive their bills electronically through the Company's Online Bill-Pay Program.

**Outage Credit:** A credit issued by the company in case of a prolonged electric service outage.

## Charges

Charges for electric or gas service are based on rates or prices approved by the New York State Public Service Commission (PSC). When changes in prices are approved by the PSC, information will be included with your bill. Complete price schedules are available on our website or by contacting us. National Grid reserves the right to upwardly adjust a previously issued bill or back bill.

**Basic Service:** A charge to cover costs for meter reading, billing, equipment and maintenance. This charge is the same regardless of how much energy is used during the billing period.

**Tariff Surcharge:** New York State and many local municipalities impose taxes on National Grid's revenue. These operating costs are recovered through a tariff surcharge applied to all rates and charges and may vary among taxing municipalities within the National Grid system area.

**Sales Tax:** In some areas National Grid is required to collect state and local sales taxes. Some school districts also impose taxes.

### Incremental State Assessment

**Surcharge/Credit:** A surcharge collected on behalf of New York State in accordance with Public Service Law, Section 18-a which established the Temporary State Energy and Utility Service Conservation Assessment.

**Merchant Function Charge:** A charge for the Company's cost to procure gas or electricity supply. The Company will not bill you this charge if you choose an alternate supplier.

### Energy Measurement Terms

**kWh:** The unit of electricity usage measured by your meter. One kilowatt-hour (kWh) is 1000 watts-hours, and will light a 100-watt bulb for 10 hours. The number of kWhs is used to determine the electricity charges on your bill.

**Meter Multiplier:** Due to their design, some meters record a fraction of the total usage. The multiplier is used to convert the recorded meter reading on these types of meters to total actual consumption.

**CCF:** The unit of gas volume (100 cubic feet) as measured by your meter.

**Therm:** A unit of heat content equal to 100,000 British Thermal Units (BTU). A BTU represents the amount of heat required to raise the temperature of one pound of water by one degree Fahrenheit. The number of CCFs is multiplied by a conversion factor to determine the therms used. The number of therms is used to determine the gas charges on your bill.

### Electric Service

**Delivery:** National Grid's charges for bringing electricity from your supplier to your premise, regardless of supplier.

**Legacy Transition Charge (LTC):** All delivery service customers are billed the cost or benefit of electricity supply contracts the Company entered prior to June 1, 2001. Residential customers also receive the benefit of low cost hydropower and a discount payment from the New York Power Authority.

**Capacity Tag:** Your adjusted electricity demand at the hour of the New York Control Area peak load in the most recent 12 month period ending May 1.

**SBC:** These charges reflect costs associated with mandated public policy programs, such as energy efficiency.

**Revenue Decoupling Mechanism ("RDM"):** Reconciles actual billed delivery service revenues to annual target revenues. Delivery service revenues above target are refunded to customers. Target revenues above actual delivery service revenues are collected from customers.

**Transmission Revenue Adjustment:** Reconciles wholesale transmission service revenue to the forecasted transmission service revenue embedded in electric delivery rates. Transmission service revenues above those forecasted are credited to customers. Forecast revenues above actual revenues are collected from customers.

**Electricity Supply:** The price of electricity supply used during the billing period. If you choose an alternate supplier, the price will be what you agree upon with that supplier.

**Electricity Supply Reconciliation Mechanism (ESRM):** Reconciles National Grid's electricity supply service revenues to the cost of Company-purchased electricity. Costs above revenues are recovered from customers. Revenues above costs are credited to customers.

## Gas Service

**National Grid Gas Delivery Service Charge:** National Grid's charges for transporting gas across its distribution system to your premise, regardless of supplier.

**Adjustment for changes from normal weather:** A mechanism that adjusts customers' gas bills due to variations from normal weather during the heating months, October through May.

**System Benefits Charge:** A charge to reflect costs associated with certain mandated public policy programs, such as energy efficiency programs.

**Gas Supply:** A charge to reflect the Company's actual cost to purchase gas from suppliers and transporting the gas to the Company's distribution system. If you choose an alternate supplier, the price will be what you agree upon with that supplier.

### Delivery Service Adjustment:

A collection of surcharges and credits consisting of a Pipeline Refund, Net Revenue Sharing Adjustment, Research & Development Surcharge, Revenue Decoupling Mechanism Adjustment and Deferral Credit.

## Estimating Your Usage

When we are unable to obtain a reading, we estimate your usage based on your past usage, taking current weather conditions into account. Because our meters keep a continuous record of usage, any difference between estimated and actual usage is reconciled with the next meter reading. To avoid estimated readings, you can take your own reading on or just before the scheduled date shown on your bill and call it in at 1-888-932-0301.

For more information, visit us at: [www.nationalgrid.com](http://www.nationalgrid.com) or call 1-800-642-4272. Customers with problems paying their National Grid bill should call 1-800-443-1837.

**Understanding Demand Charges**

Applied to nonresidential customers' service bills, demand charges help National Grid provide and maintain its electric service equipment and meet peak consumption periods.

Demand usage levels are used to determine the appropriate service classification under which a nonresidential customer will be billed. A change in recorded demand may cause a customer to be moved to a different service classification with different rates and charges.

Whenever a nonresidential customer served under Service Classification No 2 has recorded energy consumption greater than 2,000 kilowatt-hours (kWh) per month for four consecutive months, or whenever the connected load of a customer indicates that the energy consumption will exceed 2,000 kWh per month, National Grid will start billing for demand.

Once demand billing begins under SC-2, it does not end until after a customer's monthly energy consumption has been less than 2,000 kWh per month for 12 consecutive months. This requirement cannot be avoided by terminating service.

If a customer's monthly measured demand has equaled or exceeded 100 kilowatts (kW) in each of the previous 12 months and the average monthly load characteristics (sum of 12 monthly metered energies divided by the sum of the 12 monthly measured demands) indicate greater than 150 hours use, or when in the Company's opinion the applicant's demand will equal or exceed 100 kW in 12 consecutive months, the customer will be moved to SC-3. The customer will remain on SC-3 until the monthly measured demand has been less than 100 kW for 12 consecutive months following the initial term of service.

Information relating to the applicability of service classifications and demand billing can be found in National Grid's Electric Tariff. The tariff is available for review at [www.nationalgridus.com/tariff](http://www.nationalgridus.com/tariff) or at the Public Service Commission headquarters in Albany.

For National Grid service classifications, prices for electric service and supply, or other energy-related information, see [www.nationalgrid.com](http://www.nationalgrid.com) or call our Commercial and Industrial Business Team at 1-800-664-6729, Monday-Friday, 8 a.m.- 5 p.m.

You may also reach us via email at [www.nationalgridus.com/contactus](mailto:www.nationalgridus.com/contactus).

## For Your Information

We want you to easily understand your bill, the terms we use and the charges that appear. Following is a brief explanation of items that appear on your bill, as well as payment programs and billing services we offer. If you have questions or want more detailed explanations, please visit our website at [www.nationalgrid.com](http://www.nationalgrid.com) or call 1-800-642-4272.

### Paying Your Bill/ Payment Options

- **DirectPay:** If you choose, National Grid will automatically withdraw your monthly bill payment from your checking or savings account. You will avoid the inconvenience of check writing, stamps, mailing and due dates. Your service bill will indicate your energy usage and the date of your next automatic withdrawal.
- **By Mail:** Send us your payment in the envelope provided with your bill. For your protection, please do not send cash. Put your 10-digit account number on your check or money order and include your bill stub. Please do not staple or paper clip your check to the stub.
- **In Person:** Pay at an authorized payment location by cash or check. Please bring your bill with you. Most locations charge a fee for providing this service. For the payment locations nearest you, visit our website or contact us.
- **Online:** Enroll online to receive and pay your bill online. The online function will begin with the next billing cycle following your enrollment.
- **Late Payment Charge:** To avoid Late Payment Charges, your payment must be received by the date shown on the front of the bill.

### Billing Credits

**Paperless Billing Credit:** A credit provided to Customers who elect to receive their bills electronically through the Company's Online Bill-Pay Program.

**Outage Credit:** A credit issued by the company in case of a prolonged electric service outage.

## Charges

Charges for electric or gas service are based on rates or prices approved by the New York State Public Service Commission (PSC). When changes in prices are approved by the PSC, information will be included with your bill. Complete price schedules are available on our website or by contacting us. National Grid reserves the right to upwardly adjust a previously issued bill or back bill.

**Basic Service:** A charge to cover costs for meter reading, billing, equipment and maintenance. This charge is the same regardless of how much energy is used during the billing period.

**Tariff Surcharge:** New York State and many local municipalities impose taxes on National Grid's revenue. These operating costs are recovered through a tariff surcharge applied to all rates and charges and may vary among taxing municipalities within the National Grid system area.

**Sales Tax:** In some areas National Grid is required to collect state and local sales taxes. Some school districts also impose taxes.

### Incremental State Assessment

**Surcharge/Credit:** A surcharge collected on behalf of New York State in accordance with Public Service Law, Section 18-a which established the Temporary State Energy and Utility Service Conservation Assessment.

**Merchant Function Charge:** A charge for the Company's cost to procure gas or electricity supply. The Company will not bill you this charge if you choose an alternate supplier.

### Energy Measurement Terms

**kWh:** The unit of electricity usage measured by your meter. One kilowatt-hour (kWh) is 1000 watts-hours, and will light a 100-watt bulb for 10 hours. The number of kWhs is used to determine the electricity charges on your bill.

**Meter Multiplier:** Due to their design, some meters record a fraction of the total usage. The multiplier is used to convert the recorded meter reading on these types of meters to total actual consumption.

**CCF:** The unit of gas volume (100 cubic feet) as measured by your meter.

**Therm:** A unit of heat content equal to 100,000 British Thermal Units (BTU). A BTU represents the amount of heat required to raise the temperature of one pound of water by one degree Fahrenheit. The number of CCFs is multiplied by a conversion factor to determine the therms used. The number of therms is used to determine the gas charges on your bill.

### Electric Service

**Delivery:** National Grid's charges for bringing electricity from your supplier to your premise, regardless of supplier.

**Legacy Transition Charge (LTC):** All delivery service customers are billed the cost or benefit of electricity supply contracts the Company entered prior to June 1, 2001. Residential customers also receive the benefit of low cost hydropower and a discount payment from the New York Power Authority.

**Capacity Tag:** Your adjusted electricity demand at the hour of the New York Control Area peak load in the most recent 12 month period ending May 1.

**SBC:** These charges reflect costs associated with mandated public policy programs, such as energy efficiency.

**Revenue Decoupling Mechanism ("RDM"):** Reconciles actual billed delivery service revenues to annual target revenues. Delivery service revenues above target are refunded to customers. Target revenues above actual delivery service revenues are collected from customers.

**Transmission Revenue Adjustment:** Reconciles wholesale transmission service revenue to the forecasted transmission service revenue embedded in electric delivery rates. Transmission service revenues above those forecasted are credited to customers. Forecast revenues above actual revenues are collected from customers.

**Electricity Supply:** The price of electricity supply used during the billing period. If you choose an alternate supplier, the price will be what you agree upon with that supplier.

**Electricity Supply Reconciliation Mechanism (ESRM):** Reconciles National Grid's electricity supply service revenues to the cost of Company-purchased electricity. Costs above revenues are recovered from customers. Revenues above costs are credited to customers.

## Gas Service

**National Grid Gas Delivery Service Charge:** National Grid's charges for transporting gas across its distribution system to your premise, regardless of supplier.

**Adjustment for changes from normal weather:** A mechanism that adjusts customers' gas bills due to variations from normal weather during the heating months, October through May.

**System Benefits Charge:** A charge to reflect costs associated with certain mandated public policy programs, such as energy efficiency programs.

**Gas Supply:** A charge to reflect the Company's actual cost to purchase gas from suppliers and transporting the gas to the Company's distribution system. If you choose an alternate supplier, the price will be what you agree upon with that supplier.

**Delivery Service Adjustment:** A collection of surcharges and credits consisting of a Pipeline Refund, Net Revenue Sharing Adjustment, Research & Development Surcharge, Revenue Decoupling Mechanism Adjustment and Deferral Credit.

## Estimating Your Usage

When we are unable to obtain a reading, we estimate your usage based on your past usage, taking current weather conditions into account. Because our meters keep a continuous record of usage, any difference between estimated and actual usage is reconciled with the next meter reading. To avoid estimated readings, you can take your own reading on or just before the scheduled date shown on your bill and call it in at 1-888-932-0301.

For more information, visit us at: [www.nationalgrid.com](http://www.nationalgrid.com) or call 1-800-642-4272. Customers with problems paying their National Grid bill should call 1-800-443-1837.

**Understanding Demand Charges**

Applied to nonresidential customers' service bills, demand charges help National Grid provide and maintain its electric service equipment and meet peak consumption periods.

Demand usage levels are used to determine the appropriate service classification under which a nonresidential customer will be billed. A change in recorded demand may cause a customer to be moved to a different service classification with different rates and charges.

Whenever a nonresidential customer served under Service Classification No. 2 has recorded energy consumption greater than 2,000 kilowatt-hours (kWh) per month for four consecutive months, or whenever the connected load of a customer indicates that the energy consumption will exceed 2,000 kWh per month, National Grid will start billing for demand.

Once demand billing begins under SC-2, it does not end until after a customer's monthly energy consumption has been less than 2,000 kWh per month for 12 consecutive months. This requirement cannot be avoided by terminating service.

If a customer's monthly measured demand has equaled or exceeded 100 kilowatts (kW) in each of the previous 12 months and the average monthly load characteristics (sum of 12 monthly metered energies divided by the sum of the 12 monthly measured demands) indicate greater than 150 hours use, or when in the Company's opinion the applicant's demand will equal or exceed 100 kW in 12 consecutive months, the customer will be moved to SC-3. The customer will remain on SC-3 until the monthly measured demand has been less than 100 kW for 12 consecutive months following the initial term of service.

Information relating to the applicability of service classifications and demand billing can be found in National Grid's Electric Tariff. The tariff is available for review at [www.nationalgridus.com/tariff](http://www.nationalgridus.com/tariff) or at the Public Service Commission headquarters in Albany.

For National Grid service classifications, prices for electric service and supply, or other energy-related information, see [www.nationalgrid.com](http://www.nationalgrid.com) or call our Commercial and Industrial Business Team at 1-800-664-6729, Monday-Friday, 8 a.m.-5 p.m.

## For Your Information

We want you to easily understand your bill, the terms we use and the charges that appear. Following is a brief explanation of items that appear on your bill, as well as payment programs and billing services we offer. If you have questions or want more detailed explanations, please visit our website at [www.nationalgrid.com](http://www.nationalgrid.com) or call 1-800-642-4272.

### Paying Your Bill/ Payment Options

- **DirectPay:** If you choose, National Grid will automatically withdraw your monthly bill payment from your checking or savings account. You will avoid the inconvenience of check writing, stamps, mailing and due dates. Your service bill will indicate your energy usage and the date of your next automatic withdrawal.
- **By Mail:** Send us your payment in the envelope provided with your bill. For your protection, please do not send cash. Put your 10-digit account number on your check or money order and include your bill stub. Please do not staple or paper clip your check to the stub.
- **In Person:** Pay at an authorized payment location by cash or check. Please bring your bill with you. Most locations charge a fee for providing this service. For the payment locations nearest you, visit our website or contact us.
- **Online:** Enroll online to receive and pay your bill online. The online function will begin with the next billing cycle following your enrollment.
- **Late Payment Charge:** To avoid Late Payment Charges, your payment must be received by the date shown on the front of the bill.

### Billing Credits

**Paperless Billing Credit:** A credit provided to Customers who elect to receive their bills electronically through the Company's Online Bill-Pay Program.

**Outage Credit:** A credit issued by the company in case of a prolonged electric service outage.

## Charges

Charges for electric or gas service are based on rates or prices approved by the New York State Public Service Commission (PSC). When changes in prices are approved by the PSC, information will be included with your bill. Complete price schedules are available on our website or by contacting us. National Grid reserves the right to upwardly adjust a previously issued bill or back bill.

**Basic Service:** A charge to cover costs for meter reading, billing, equipment and maintenance. This charge is the same regardless of how much energy is used during the billing period.

**Tariff Surcharge:** New York State and many local municipalities impose taxes on National Grid's revenue. These operating costs are recovered through a tariff surcharge applied to all rates and charges and may vary among taxing municipalities within the National Grid system area.

**Sales Tax:** In some areas National Grid is required to collect state and local sales taxes. Some school districts also impose taxes.

### Incremental State Assessment

**Surcharge/Credit:** A surcharge collected on behalf of New York State in accordance with Public Service Law, Section 18-a which established the Temporary State Energy and Utility Service Conservation Assessment.

**Merchant Function Charge:** A charge for the Company's cost to procure gas or electricity supply. The Company will not bill you this charge if you choose an alternate supplier.

### Energy Measurement Terms

**kWh:** The unit of electricity usage measured by your meter. One kilowatt-hour (kWh) is 1000 watts-hours, and will light a 100-watt bulb for 10 hours. The number of kWhs is used to determine the electricity charges on your bill.

**Meter Multiplier:** Due to their design, some meters record a fraction of the total usage. The multiplier is used to convert the recorded meter reading on these types of meters to total actual consumption.

**CCF:** The unit of gas volume (100 cubic feet) as measured by your meter.

**Therm:** A unit of heat content equal to 100,000 British Thermal Units (BTU). A BTU represents the amount of heat required to raise the temperature of one pound of water by one degree Fahrenheit. The number of CCFs is multiplied by a conversion factor to determine the therms used. The number of therms is used to determine the gas charges on your bill.

### Electric Service

**Delivery:** National Grid's charges for bringing electricity from your supplier to your premise, regardless of supplier.

**Legacy Transition Charge (LTC):** All delivery service customers are billed the cost or benefit of electricity supply contracts the Company entered prior to June 1, 2001. Residential customers also receive the benefit of low cost hydropower and a discount payment from the New York Power Authority.

**Capacity Tag:** Your adjusted electricity demand at the hour of the New York Control Area peak load in the most recent 12 month period ending May 1.

**SBC:** These charges reflect costs associated with mandated public policy programs, such as energy efficiency and the Clean Energy Standard.

**Clean Energy Delivery:** Charges associated with Clean Energy Standard program costs.

**Revenue Decoupling Mechanism ("RDM"):** Reconciles actual billed delivery service revenues to annual target revenues. Delivery service revenues above target are refunded to customers. Target revenues above actual delivery service revenues are collected from customers.

**Transmission Revenue Adjustment:** Reconciles wholesale transmission service revenue to the forecasted transmission service revenue embedded in electric delivery rates. Transmission service revenues above those forecasted are credited to customers. Forecast revenues above actual revenues are collected from customers.

**Electricity Supply:** The price of electricity supply used during the billing period. If you choose an alternate supplier, the price will be what you agree upon with that supplier.

**Electricity Supply Reconciliation Mechanism (ESRM):** Reconciles National Grid's electricity supply service revenues to the cost of Company purchased electricity, including Clean Energy Standard costs. Costs above revenues are recovered from customers. Revenues above costs are credited to customers.

## Gas Service

### National Grid Gas Delivery Service Charge:

National Grid's charges for transporting gas across its distribution system to your premise, regardless of supplier.

**Adjustment for changes from normal weather:** A mechanism that adjusts customers' gas bills due to variations from normal weather during the heating months, October through May.

**System Benefits Charge:** A charge to reflect costs associated with certain mandated public policy programs, such as energy efficiency programs.

**Gas Supply:** A charge to reflect the Company's actual cost to purchase gas from suppliers and transporting the gas to the Company's distribution system. If you choose an alternate supplier, the price will be what you agree upon with that supplier.

### Delivery Service Adjustment:

A collection of surcharges and credits consisting of a Pipeline Refund, Net Revenue Sharing Adjustment, Research & Development Surcharge, Revenue Decoupling Mechanism Adjustment and Deferral Credit.

## Estimating Your Usage

When we are unable to obtain a reading, we estimate your usage based on your past usage, taking current weather conditions into account. Because our meters keep a continuous record of usage, any difference between estimated and actual usage is reconciled with the next meter reading. To avoid estimated readings, you can take your own reading on or just before the scheduled date shown on your bill and call it in at 1-888-932-0301.

For more information, visit us at [www.nationalgrid.com](http://www.nationalgrid.com) or call 1-800-642-4272. Customers with problems paying their National Grid bill should call 1-800-443-1837.

**Understanding Demand Charges**

Applied to nonresidential customers' service bills, demand charges help National Grid provide and maintain its electric service equipment and meet peak consumption periods.

Demand usage levels are used to determine the appropriate service classification under which a nonresidential customer will be billed. A change in recorded demand may cause a customer to be moved to a different service classification with different rates and charges.

Whenever a nonresidential customer served under Service Classification No 2 has recorded energy consumption greater than 2,000 kilowatt-hours (kWh) per month for four consecutive months, or whenever the connected load of a customer indicates that the energy consumption will exceed 2,000 kWh per month, National Grid will start billing for demand.

Once demand billing begins under SC-2, it does not end until after a customer's monthly energy consumption has been less than 2,000 kWh per month for 12 consecutive months. This requirement cannot be avoided by terminating service.

If a customer's monthly measured demand has equaled or exceeded 100 kilowatts (kW) in each of the previous 12 months and the average monthly load characteristics (sum of 12 monthly metered energies divided by the sum of the 12 monthly measured demands) indicate greater than 150 hours use, or when in the Company's opinion the applicant's demand will equal or exceed 100 kW in 12 consecutive months, the customer will be moved to SC-3. The customer will remain on SC-3 until the monthly measured demand has been less than 100 kW for 12 consecutive months following the initial term of service.

Information relating to the applicability of service classifications and demand billing can be found in National Grid's Electric Tariff. The tariff is available for review at [www.nationalgridus.com/tariff](http://www.nationalgridus.com/tariff) or at the Public Service Commission headquarters in Albany.

For National Grid service classifications, prices for electric service and supply, or other energy-related information, see [www.nationalgrid.com](http://www.nationalgrid.com) or call our Commercial and Industrial Business Team at 1-800-664-6729, Monday-Friday, 8 a.m. - 5 p.m.

## For Your Information

We want you to easily understand your bill, the terms we use and the charges that appear. Following is a brief explanation of items that appear on your bill, as well as payment programs and billing services we offer. If you have questions or want more detailed explanations, please visit our website at [www.nationalgrid.com](http://www.nationalgrid.com) or call 1-800-642-4272.

### Paying Your Bill/ Payment Options

- **DirectPay:** If you choose, National Grid will automatically withdraw your monthly bill payment from your checking or savings account. You will avoid the inconvenience of check writing, stamps, mailing and due dates. Your service bill will indicate your energy usage and the date of your next automatic withdrawal.
- **By Mail:** Send us your payment in the envelope provided with your bill. For your protection, please do not send cash. Put your 10-digit account number on your check or money order and include your bill stub. Please do not staple or paper clip your check to the stub.
- **In Person:** Pay at an authorized payment location by cash or check. Please bring your bill with you. Most locations charge a fee for providing this service. For the payment locations nearest you, visit our website or contact us.
- **Online:** Enroll online to receive and pay your bill online. The online function will begin with the next billing cycle following your enrollment.
- **Late Payment Charge:** To avoid Late Payment Charges, your payment must be received by the date shown on the front of the bill.

### Billing Credits

**Paperless Billing Credit:** A credit provided to Customers who elect to receive their bills electronically through the Company's Online Bill-Pay Program.

**Outage Credit:** A credit issued by the company in case of a prolonged electric service outage.

## Charges

Charges for electric or gas service are based on rates or prices approved by the New York State Public Service Commission (PSC). When changes in prices are approved by the PSC, information will be included with your bill. Complete price schedules are available on our website or by contacting us. National Grid reserves the right to upwardly adjust a previously issued bill or back bill.

**Basic Service:** A charge to cover costs for meter reading, billing, equipment and maintenance. This charge is the same regardless of how much energy is used during the billing period.

**Tariff Surcharge:** New York State and many local municipalities impose taxes on National Grid's revenue. These operating costs are recovered through a tariff surcharge applied to all rates and charges and may vary among taxing municipalities within the National Grid system area.

**Sales Tax:** In some areas National Grid is required to collect state and local sales taxes. Some school districts also impose taxes.

### Incremental State Assessment

**Surcharge/Credit:** A surcharge collected on behalf of New York State in accordance with Public Service Law, Section 18-a which established the Temporary State Energy and Utility Service Conservation Assessment.

**Merchant Function Charge:** A charge for the Company's cost to procure gas or electricity supply. The Company will not bill you this charge if you choose an alternate supplier.

### Energy Measurement Terms

**kWh:** The unit of electricity usage measured by your meter. One kilowatt-hour (kWh) is 1000 watts-hours, and will light a 100-watt bulb for 10 hours. The number of kWhs is used to determine the electricity charges on your bill.

**Meter Multiplier:** Due to their design, some meters record a fraction of the total usage. The multiplier is used to convert the recorded meter reading on these types of meters to total actual consumption.

**CCF:** The unit of gas volume (100 cubic feet) as measured by your meter.

**Therm:** A unit of heat content equal to 100,000 British Thermal Units (BTU). A BTU represents the amount of heat required to raise the temperature of one pound of water by one degree Fahrenheit. The number of CCFs is multiplied by a conversion factor to determine the therms used. The number of therms is used to determine the gas charges on your bill.

### Electric Service

**Delivery:** National Grid's charges for bringing electricity from your supplier to your premise, regardless of supplier.

**Legacy Transition Charge (LTC):** All delivery service customers are billed the cost or benefit of electricity supply contracts the Company entered prior to June 1, 2001. Residential customers also receive the benefit of low cost hydropower and a discount payment from the New York Power Authority.

**Capacity Tag:** Your adjusted electricity demand at the hour of the New York Control Area peak load in the most recent 12 month period ending May 1.

**SBC:** These charges reflect costs associated with mandated public policy programs, such as energy efficiency and the Clean Energy Standard.

**Clean Energy Delivery:** Charges associated with Clean Energy Standard program costs.

### Revenue Decoupling Mechanism ("RDM")

Reconciles actual billed delivery service revenues to annual target revenues. Delivery service revenues above target are refunded to customers. Target revenues above actual delivery service revenues are collected from customers.

**Transmission Revenue Adjustment:** Reconciles wholesale transmission service revenue to the forecasted transmission service revenue embedded in electric delivery rates. Transmission service revenues above those forecasted are credited to customers. Forecast revenues above actual revenues are collected from customers.

**Electricity Supply:** The price of electricity supply used during the billing period. If you choose an alternate supplier, the price will be what you agree upon with that supplier.

**Electricity Supply Reconciliation Mechanism (ESRM):** Reconciles National Grid's electricity supply service revenues to the cost of Company purchased electricity, including Clean Energy Standard costs. Costs above revenues are recovered from customers. Revenues above costs are credited to customers.

## Gas Service

### National Grid Gas Delivery Service Charge:

National Grid's charges for transporting gas across its distribution system to your premise, regardless of supplier.

**Adjustment for changes from normal weather:** A mechanism that adjusts customers' gas bills due to variations from normal weather during the heating months, October through May.

**System Benefits Charge:** A charge to reflect costs associated with certain mandated public policy programs, such as energy efficiency programs.

**Gas Supply:** A charge to reflect the Company's actual cost to purchase gas from suppliers and transporting the gas to the Company's distribution system. If you choose an alternate supplier, the price will be what you agree upon with that supplier.

### Delivery Service Adjustment:

A collection of surcharges and credits consisting of a Pipeline Refund, Net Revenue Sharing Adjustment, Research & Development Surcharge, Revenue Decoupling Mechanism Adjustment and Deferral Credit.

## Estimating Your Usage

When we are unable to obtain a reading, we estimate your usage based on your past usage, taking current weather conditions into account. Because our meters keep a continuous record of usage, any difference between estimated and actual usage is reconciled with the next meter reading. To avoid estimated readings, you can take your own reading on or just before the scheduled date shown on your bill and call it in at 1-888-932-0301.

For more information, visit us at: [www.nationalgrid.com](http://www.nationalgrid.com) or call 1-800-642-4272. Customers with problems paying their National Grid bill should call 1-800-443-1837.

**Understanding Demand Charges**

Applied to nonresidential customers' service bills, demand charges help National Grid provide and maintain its electric service equipment and meet peak consumption periods.

Demand usage levels are used to determine the appropriate service classification under which a nonresidential customer will be billed. A change in recorded demand may cause a customer to be moved to a different service classification with different rates and charges.

Whenever a nonresidential customer served under Service Classification No 2 has recorded energy consumption greater than 2,000 kilowatt-hours (kWh) per month for four consecutive months, or whenever the connected load of a customer indicates that the energy consumption will exceed 2,000 kWh per month, National Grid will start billing for demand.

Once demand billing begins under SC-2, it does not end until after a customer's monthly energy consumption has been less than 2,000 kWh per month for 12 consecutive months. This requirement cannot be avoided by terminating service.

If a customer's monthly measured demand has equaled or exceeded 100 kilowatts (kW) in each of the previous 12 months and the average monthly load characteristics (sum of 12 monthly metered energies divided by the sum of the 12 monthly measured demands) indicate greater than 150 hours use, or when in the Company's opinion the applicant's demand will equal or exceed 100 kW in 12 consecutive months, the customer will be moved to SC-3. The customer will remain on SC-3 until the monthly measured demand has been less than 100 kW for 12 consecutive months following the initial term of service.

Information relating to the applicability of service classifications and demand billing can be found in National Grid's Electric Tariff. The tariff is available for review at [www.nationalgridus.com/tariff](http://www.nationalgridus.com/tariff) or at the Public Service Commission headquarters in Albany.

For National Grid service classifications, prices for electric service and supply, or other energy-related information, see [www.nationalgrid.com](http://www.nationalgrid.com) or call our Commercial and Industrial Business Team at 1-800-664-6729, Monday-Friday, 8 a.m.- 5 p.m.

## For Your Information

We want you to easily understand your bill, the terms we use and the charges that appear. Following is a brief explanation of items that appear on your bill, as well as payment programs and billing services we offer. If you have questions or want more detailed explanations, please visit our website at [www.nationalgrid.com](http://www.nationalgrid.com) or call 1-800-642-4272.

### Paying Your Bill/ Payment Options

- **DirectPay:** If you choose, National Grid will automatically withdraw your monthly bill payment from your checking or savings account. You will avoid the inconvenience of check writing, stamps, mailing and due dates. Your service bill will indicate your energy usage and the date of your next automatic withdrawal.
- **By Mail:** Send us your payment in the envelope provided with your bill. For your protection, please do not send cash. Put your 10-digit account number on your check or money order and include your bill stub. Please do not staple or paper clip your check to the stub.
- **In Person:** Pay at an authorized payment location by cash or check. Please bring your bill with you. Most locations charge a fee for providing this service. For the payment locations nearest you, visit our website or contact us.
- **Online:** Enroll online to receive and pay your bill online. The online function will begin with the next billing cycle following your enrollment.
- **Late Payment Charge:** To avoid Late Payment Charges, your payment must be received by the date shown on the front of the bill.

### Billing Credits

**Paperless Billing Credit:** A credit provided to Customers who elect to receive their bills electronically through the Company's Online Bill-Pay Program.

**Outage Credit:** A credit issued by the company in case of a prolonged electric service outage.

## Charges

Charges for electric or gas service are based on rates or prices approved by the New York State Public Service Commission (PSC). When changes in prices are approved by the PSC, information will be included with your bill. Complete price schedules are available on our website or by contacting us. National Grid reserves the right to upwardly adjust a previously issued bill or back bill.

**Basic Service:** A charge to cover costs for meter reading, billing, equipment and maintenance. This charge is the same regardless of how much energy is used during the billing period.

**Tariff Surcharge:** New York State and many local municipalities impose taxes on National Grid's revenue. These operating costs are recovered through a tariff surcharge applied to all rates and charges and may vary among taxing municipalities within the National Grid system area.

**Sales Tax:** In some areas National Grid is required to collect state and local sales taxes. Some school districts also impose taxes.

### Incremental State Assessment

**Surcharge/Credit:** A surcharge collected on behalf of New York State in accordance with Public Service Law, Section 18-a which established the Temporary State Energy and Utility Service Conservation Assessment.

**Merchant Function Charge:** A charge for the Company's cost to procure gas or electricity supply. The Company will not bill you this charge if you choose an alternate supplier.

### Energy Measurement Terms

**kWh:** The unit of electricity usage measured by your meter. One kilowatt-hour (kWh) is 1000 watts-hours, and will light a 100-watt bulb for 10 hours. The number of kWhs is used to determine the electricity charges on your bill.

**Meter Multiplier:** Due to their design, some meters record a fraction of the total usage. The multiplier is used to convert the recorded meter reading on these types of meters to total actual consumption.

**CCF:** The unit of gas volume (100 cubic feet) as measured by your meter.

**Therm:** A unit of heat content equal to 100,000 British Thermal Units (BTU). A BTU represents the amount of heat required to raise the temperature of one pound of water by one degree Fahrenheit. The number of CCFs is multiplied by a conversion factor to determine the therms used. The number of therms is used to determine the gas charges on your bill.

### Electric Service

**Delivery:** National Grid's charges for bringing electricity from your supplier to your premise, regardless of supplier.

**Legacy Transition Charge (LTC):** All delivery service customers are billed the cost or benefit of electricity supply contracts the Company entered prior to June 1, 2001. Residential customers also receive the benefit of low cost hydropower and a discount payment from the New York Power Authority.

**Capacity Tag:** Your adjusted electricity demand at the hour of the New York Control Area peak load in the most recent 12 month period ending May 1.

**SBC:** These charges reflect costs associated with mandated public policy programs, such as energy efficiency and the Clean Energy Standard.

**Clean Energy Delivery:** Charges associated with Clean Energy Standard program costs.

**Revenue Decoupling Mechanism ("RDM"):** Reconciles actual billed delivery service revenues to annual target revenues. Delivery service revenues above target are refunded to customers. Target revenues above actual delivery service revenues are collected from customers.

**Transmission Revenue Adjustment:** Reconciles wholesale transmission service revenue to the forecasted transmission service revenue embedded in electric delivery rates. Transmission service revenues above those forecasted are credited to customers. Forecast revenues above actual revenues are collected from customers.

**Electricity Supply:** The price of electricity supply used during the billing period. If you choose an alternate supplier, the price will be what you agree upon with that supplier.

**Electricity Supply Reconciliation Mechanism (ESRM):** Reconciles National Grid's electricity supply service revenues to the cost of Company purchased electricity, including Clean Energy Standard costs. Costs above revenues are recovered from customers. Revenues above costs are credited to customers.

## Gas Service

**National Grid Gas Delivery Service Charge:** National Grid's charges for transporting gas across its distribution system to your premise, regardless of supplier.

**Adjustment for changes from normal weather:** A mechanism that adjusts customers' gas bills due to variations from normal weather during the heating months, October through May.

**System Benefits Charge:** A charge to reflect costs associated with certain mandated public policy programs, such as energy efficiency programs.

**Gas Supply:** A charge to reflect the Company's actual cost to purchase gas from suppliers and transporting the gas to the Company's distribution system. If you choose an alternate supplier, the price will be what you agree upon with that supplier.

**Delivery Service Adjustment:** A collection of surcharges and credits consisting of a Pipeline Refund, Net Revenue Sharing Adjustment, Research & Development Surcharge, Revenue Decoupling Mechanism Adjustment and Deferral Credit.

## Estimating Your Usage

When we are unable to obtain a reading, we estimate your usage based on your past usage, taking current weather conditions into account. Because our meters keep a continuous record of usage, any difference between estimated and actual usage is reconciled with the next meter reading. To avoid estimated readings, you can take your own reading on or just before the scheduled date shown on your bill and call it in at 1-888-932-0301.

For more information, visit us at: [www.nationalgrid.com](http://www.nationalgrid.com) or call 1-800-642-4272. Customers with problems paying their National Grid bill should call 1-800-443-1837.

## Utility Scam Alert

National Grid continues to receive calls from customers who were contacted by scammers claiming to be from National Grid.

Suspect a scam if:

- You are threatened with immediate service termination (this is NOT our procedure).
- The caller seeks payment when your account is current.
- The caller demands immediate payment by wire transfer or prepaid card (we don't accept payment through these cards).
- The caller is someone you cannot identify.

If you think you have fallen for the scam, call customer service at **1-800-930-5003** and local law enforcement.

## For Your Information

We want you to easily understand your bill, the terms we use and the charges that appear. Following is a brief explanation of items that appear on your bill, as well as payment programs and billing services we offer. If you have questions or want more detailed explanations, please visit our website at [www.nationalgrid.com](http://www.nationalgrid.com) or call 1-800-642-4272.

### Paying Your Bill/ Payment Options

- **DirectPay:** If you choose, National Grid will automatically withdraw your monthly bill payment from your checking or savings account. You will avoid the inconvenience of check writing, stamps, mailing and due dates. Your service bill will indicate your energy usage and the date of your next automatic withdrawal.
- **By Mail:** Send us your payment in the envelope provided with your bill. For your protection, please do not send cash. Put your 10-digit account number on your check or money order and include your bill stub. Please do not staple or paper clip your check to the stub.
- **In Person:** Pay at an authorized payment location by cash or check. Please bring your bill with you. Most locations charge a fee for providing this service. For the payment locations nearest you, visit our website or contact us.
- **Online:** Enroll online to receive and pay your bill online. The online function will begin with the next billing cycle following your enrollment.
- **Late Payment Charge:** To avoid Late Payment Charges, your payment must be received by the date shown on the front of the bill.

### Billing Credits

**Paperless Billing Credit.** A credit provided to Customers who elect to receive their bills electronically through the Company's Online Bill-Pay Program.

**Outage Credit.** A credit issued by the company in case of a prolonged electric service outage.

## Charges

Charges for electric or gas service are based on rates or prices approved by the New York State Public Service Commission (PSC). When changes in prices are approved by the PSC, information will be included with your bill. Complete price schedules are available on our website or by contacting us. National Grid reserves the right to upwardly adjust a previously issued bill or back bill.

**Basic Service:** A charge to cover costs for meter reading, billing, equipment and maintenance. This charge is the same regardless of how much energy is used during the billing period.

**Tariff Surcharge:** New York State and many local municipalities impose taxes on National Grid's revenue. These operating costs are recovered through a tariff surcharge applied to all rates and charges and may vary among taxing municipalities within the National Grid system area.

**Sales Tax:** In some areas National Grid is required to collect state and local sales taxes. Some school districts also impose taxes.

### Incremental State Assessment

**Surcharge/Credit:** A surcharge collected on behalf of New York State in accordance with Public Service Law, Section 18-a which established the Temporary State Energy and Utility Service Conservation Assessment.

**Merchant Function Charge:** A charge for the Company's cost to procure gas or electricity supply. The Company will not bill you this charge if you choose an alternate supplier.

### Energy Measurement Terms

**kWh:** The unit of electricity usage measured by your meter. One kilowatt-hour (kWh) is 1000 watts-hours, and will light a 100-watt bulb for 10 hours. The number of kWhs is used to determine the electricity charges on your bill.

**Meter Multiplier:** Due to their design, some meters record a fraction of the total usage. The multiplier is used to convert the recorded meter reading on these types of meters to total actual consumption.

**CCF:** The unit of gas volume (100 cubic feet) as measured by your meter.

**Therm:** A unit of heat content equal to 100,000 British Thermal Units (BTU). A BTU represents the amount of heat required to raise the temperature of one pound of water by one degree Fahrenheit. The number of CCFs is multiplied by a conversion factor to determine the therms used. The number of therms is used to determine the gas charges on your bill.

### Electric Service

**Delivery:** National Grid's charges for bringing electricity from your supplier to your premise, regardless of supplier.

**Legacy Transition Charge (LTC):** All delivery service customers are billed the cost or benefit of electricity supply contracts the Company entered prior to June 1, 2001. Residential customers also receive the benefit of low cost hydropower and a discount payment from the New York Power Authority.

**Capacity Tag:** Your adjusted electricity demand at the hour of the New York Control Area peak load in the most recent 12 month period ending May 1.

**SBC:** These charges reflect costs associated with mandated public policy programs, such as energy efficiency and the Clean Energy Standard.

**Clean Energy Delivery:** Charges associated with Clean Energy Standard program costs.

**Revenue Decoupling Mechanism ("RDM"):** Reconciles actual billed delivery service revenues to annual target revenues. Delivery service revenues above target are refunded to customers. Target revenues above actual delivery service revenues are collected from customers.

**Transmission Revenue Adjustment:** Reconciles wholesale transmission service revenue to the forecasted transmission service revenue embedded in electric delivery rates. Transmission service revenues above those forecasted are credited to customers. Forecast revenues above actual revenues are collected from customers.

**Electricity Supply:** The price of electricity supply used during the billing period. If you choose an alternate supplier, the price will be what you agree upon with that supplier.

**Electricity Supply Reconciliation Mechanism (ESRM):** Reconciles National Grid's electricity supply service revenues to the cost of Company purchased electricity, including Clean Energy Standard costs. Costs above revenues are recovered from customers. Revenues above costs are credited to customers.

## Gas Service

### National Grid Gas Delivery Service Charge:

National Grid's charges for transporting gas across its distribution system to your premise, regardless of supplier.

**Adjustment for changes from normal weather:** A mechanism that adjusts customers' gas bills due to variations from normal weather during the heating months, October through May.

**System Benefits Charge:** A charge to reflect costs associated with certain mandated public policy programs, such as energy efficiency programs.

**Gas Supply:** A charge to reflect the Company's actual cost to purchase gas from suppliers and transporting the gas to the Company's distribution system. If you choose an alternate supplier, the price will be what you agree upon with that supplier.

### Delivery Service Adjustment:

A collection of surcharges and credits consisting of a Pipeline Refund, Net Revenue Sharing Adjustment, Research & Development Surcharge, Revenue Decoupling Mechanism Adjustment and Deferral Credit.

## Estimating Your Usage

When we are unable to obtain a reading, we estimate your usage based on your past usage, taking current weather conditions into account. Because our meters keep a continuous record of usage, any difference between estimated and actual usage is reconciled with the next meter reading. To avoid estimated readings, you can take your own reading on or just before the scheduled date shown on your bill and call it in at 1-888-932-0301.

For more information, visit us at: [www.nationalgrid.com](http://www.nationalgrid.com) or call 1-800-642-4272. Customers with problems paying their National Grid bill should call 1-800-443-1837.

To avoid late payment charges of 1.5%, \$ 2,348.79 must be received by Sep 2 2017.

**SUMMARY OF CURRENT CHARGES**

	DELIVERY SERVICES	SUPPLY SERVICES	TOTAL
Electric Service	1,388.78	935.74	2,324.52
Gas Service	24.27	.00	24.27
<b>Total Current Charges</b>	<b>\$ 1,413.05</b>	<b>\$ 935.74</b>	<b>\$ 2,348.79</b>

- Save time and money!** Sign up for paperless billing and receive a \$ 0.40 credit on your monthly bill. Visit our website to enroll today.
- Tougher Penalties Help Protect Utility Workers:** New York State has new laws in place to help better protect our field workers who face a number of challenges. Now, any action by a member of the public that prevents a utility worker from performing their job, or causes the worker physical injury, is considered a felony.
- Payment concerns?** We are here to help. To learn about solutions to help you take control of your energy use and bills, visit [www.ngrid.com/billhelp](http://www.ngrid.com/billhelp).
- WILL WE BE ABLE TO REACH YOU DURING A POWER OUTAGE?:** During a power outage, phones with a direct link to a local phone line are able to operate. Phones that are **not** directly linked (for example, wireless phones with answering machines) need electricity to make/receive calls. If you would like to register another phone number, such as a cell phone, as your account's primary phone number, please go to [www.nationalgrid.com/myaccount](http://www.nationalgrid.com/myaccount) to update your information so that we may be able to reach you with important information during power outages.

KEEP THIS PORTION FOR YOUR RECORDS.

RETURN THIS PORTION WITH YOUR PAYMENT.

## High energy user? Consider Time-of-Use.

Depending on your electricity usage patterns, your electricity bills may be lower on Time-of-Use (TOU) Service Classification 1C (SC-1C) rate than on standard residential service (SC-1).

SC-1C customers pay a higher basic service charge—currently \$30 per billing period—and a lower delivery charge than on standard residential service. However, these customers will pay more per kilowatt-hour for electricity supply used during on-peak periods. In return, they pay lower rates for electricity supply during off-peak periods, when the demand for electricity is lower.

If your usage is greater than 980 kWh and you have the ability to shift at least 12 percent of your usage to shoulder-peak hours and 80 percent of your usage to the off-season/off-peak hours, you may benefit from this rate. Once enrolling on the rate, there is a one-year commitment.

For more information, visit  
[www.nationalgridus.com/sc1c](http://www.nationalgridus.com/sc1c)

On-peak hours are:

- ▶ December, January, February  
5 p.m. to 8 p.m. on weekdays
- ▶ June, July, August: 11 a.m. to 5 p.m. on weekdays

Shoulder-peak hours are:

- ▶ December, January, February  
9 a.m. to 5 p.m. on weekdays
- ▶ June, July, August: 8 a.m. to 11 a.m. and 5 p.m. to 8 p.m. on weekdays

Off-season/off-peak hours are:

- ▶ December, January, February:  
8 p.m. to 9 a.m. weekdays, all hours weekends
- ▶ June, July, August: 8 p.m. to 8 a.m. weekdays; all hours weekends
- ▶ All hours in the fall months (September, October and November) and spring months (March, April and May)
- ▶ All hours on Dec. 25, Jan. 1, and July 4

## For Your Information

We want you to easily understand your bill, the terms we use and the charges that appear. Following is a brief explanation of items that appear on your bill, as well as payment programs and billing services we offer. If you have questions or want more detailed explanations, please visit our website at [www.nationalgrid.com](http://www.nationalgrid.com) or call 1-800-642-4272.

### Paying Your Bill/ Payment Options

- **DirectPay:** If you choose, National Grid will automatically withdraw your monthly bill payment from your checking or savings account. You will avoid the inconvenience of check writing, stamps, mailing and due dates. Your service bill will indicate your energy usage and the date of your next automatic withdrawal.
- **By Mail:** Send us your payment in the envelope provided with your bill. For your protection, please do not send cash. Put your 10-digit account number on your check or money order and include your bill stub. Please do not staple or paper clip your check to the stub.
- **In Person:** Pay at an authorized payment location by cash or check. Please bring your bill with you. Most locations charge a fee for providing this service. For the payment locations nearest you, visit our website or contact us.
- **Online:** Enroll online to receive and pay your bill online. The online function will begin with the next billing cycle following your enrollment.
- **Late Payment Charge:** To avoid Late Payment Charges, your payment must be received by the date shown on the front of the bill.

### Billing Credits

**Paperless Billing Credit:** A credit provided to Customers who elect to receive their bills electronically through the Company's Online Bill-Pay Program.

**Outage Credit:** A credit issued by the company in case of a prolonged electric service outage.

## Charges

Charges for electric or gas service are based on rates or prices approved by the New York State Public Service Commission (PSC). When changes in prices are approved by the PSC, information will be included with your bill. Complete price schedules are available on our website or by contacting us. National Grid reserves the right to upwardly adjust a previously issued bill or back bill.

**Basic Service:** A charge to cover costs for meter reading, billing, equipment and maintenance. This charge is the same regardless of how much energy is used during the billing period.

**Tariff Surcharge:** New York State and many local municipalities impose taxes on National Grid's revenue. These operating costs are recovered through a tariff surcharge applied to all rates and charges and may vary among taxing municipalities within the National Grid system area.

**Sales Tax:** In some areas National Grid is required to collect state and local sales taxes. Some school districts also impose taxes.

### Incremental State Assessment

**Surcharge/Credit:** A surcharge collected on behalf of New York State in accordance with Public Service Law, Section 18-a which established the Temporary State Energy and Utility Service Conservation Assessment.

**Merchant Function Charge:** A charge for the Company's cost to procure gas or electricity supply. The Company will not bill you this charge if you choose an alternate supplier.

### Energy Measurement Terms

**kWh:** The unit of electricity usage measured by your meter. One kilowatt-hour (kWh) is 1000 watts-hours, and will light a 100-watt bulb for 10 hours. The number of kWhs is used to determine the electricity charges on your bill.

**Meter Multiplier:** Due to their design, some meters record a fraction of the total usage. The multiplier is used to convert the recorded meter reading on these types of meters to total actual consumption.

**CCF:** The unit of gas volume (100 cubic feet) as measured by your meter.

**Therm:** A unit of heat content equal to 100,000 British Thermal Units (BTU). A BTU represents the amount of heat required to raise the temperature of one pound of water by one degree Fahrenheit. The number of CCFs is multiplied by a conversion factor to determine the therms used. The number of therms is used to determine the gas charges on your bill.

### Electric Service

**Delivery:** National Grid's charges for bringing electricity from your supplier to your premise, regardless of supplier.

**Legacy Transition Charge (LTC):** All delivery service customers are billed the cost or benefit of electricity supply contracts the Company entered prior to June 1, 2001. Residential customers also receive the benefit of low cost hydropower and a discount payment from the New York Power Authority.

**Capacity Tag:** Your adjusted electricity demand at the hour of the New York Control Area peak load in the most recent 12 month period ending May 1.

**SBC:** These charges reflect costs associated with mandated public policy programs, such as energy efficiency and the Clean Energy Standard.

**Clean Energy Delivery:** Charges associated with Clean Energy Standard program costs.

**Revenue Decoupling Mechanism ("RDM"):** Reconciles actual billed delivery service revenues to annual target revenues. Delivery service revenues above target are refunded to customers. Target revenues above actual delivery service revenues are collected from customers.

**Transmission Revenue Adjustment:** Reconciles wholesale transmission service revenue to the forecasted transmission service revenue embedded in electric delivery rates. Transmission service revenues above those forecasted are credited to customers. Forecast revenues above actual revenues are collected from customers.

**Electricity Supply:** The price of electricity supply used during the billing period. If you choose an alternate supplier, the price will be what you agree upon with that supplier.

**Electricity Supply Reconciliation Mechanism (ESRM):** Reconciles National Grid's electricity supply service revenues to the cost of Company purchased electricity, including Clean Energy Standard costs. Costs above revenues are recovered from customers. Revenues above costs are credited to customers.

## Gas Service

### National Grid Gas Delivery Service Charge:

National Grid's charges for transporting gas across its distribution system to your premise, regardless of supplier.

**Adjustment for changes from normal weather:** A mechanism that adjusts customers' gas bills due to variations from normal weather during the heating months, October through May.

**System Benefits Charge:** A charge to reflect costs associated with certain mandated public policy programs, such as energy efficiency programs.

**Gas Supply:** A charge to reflect the Company's actual cost to purchase gas from suppliers and transporting the gas to the Company's distribution system. If you choose an alternate supplier, the price will be what you agree upon with that supplier.

### Delivery Service Adjustment:

A collection of surcharges and credits consisting of a Pipeline Refund, Net Revenue Sharing Adjustment, Research & Development Surcharge, Revenue Decoupling Mechanism Adjustment and Deferral Credit.

## Estimating Your Usage

When we are unable to obtain a reading, we estimate your usage based on your past usage, taking current weather conditions into account. Because our meters keep a continuous record of usage, any difference between estimated and actual usage is reconciled with the next meter reading. To avoid estimated readings, you can take your own reading on or just before the scheduled date shown on your bill and call it in at 1-888-932-0301.

For more information, visit us at: [www.nationalgrid.com](http://www.nationalgrid.com) or call 1-800-642-4272. Customers with problems paying their National Grid bill should call 1-800-443-1837.

## High energy user? Consider Time-of-Use.

Depending on your electricity usage patterns, your electricity bills may be lower on Time-of-Use (TOU) Service Classification 1C (SC-1C) rate than on standard residential service (SC-1).

SC-1C customers pay a higher basic service charge—currently \$30 per billing period—and a lower delivery charge than on standard residential service. However, these customers will pay more per kilowatt-hour for electricity supply used during on-peak periods. In return, they pay lower rates for electricity supply during off-peak periods, when the demand for electricity is lower.

If your usage is greater than 980 kWh and you have the ability to shift at least 12 percent of your usage to shoulder-peak hours and 80 percent of your usage to the off-season/off-peak hours, you may benefit from this rate. Once enrolling on the rate, there is a one-year commitment.

For more information, visit [www.nationalgridus.com/sc1c](http://www.nationalgridus.com/sc1c)

On-peak hours are:

- ▶ December, January, February: 5 p.m. to 8 p.m. on weekdays
- ▶ June, July, August: 11 a.m. to 5 p.m. on weekdays

Shoulder-peak hours are:

- ▶ December, January, February: 9 a.m. to 5 p.m. on weekdays
- ▶ June, July, August: 8 a.m. to 11 a.m. and 5 p.m. to 8 p.m. on weekdays

Off-season/off-peak hours are:

- ▶ December, January, February: 8 p.m. to 9 a.m. weekdays, all hours weekends
- ▶ June, July, August: 8 p.m. to 8 a.m. weekdays; all hours weekends
- ▶ All hours in the fall months (September, October and November) and spring months (March, April and May)
- ▶ All hours on Dec. 25, Jan. 1, and July 4

## For Your Information

We want you to easily understand your bill, the terms we use and the charges that appear. Following is a brief explanation of items that appear on your bill, as well as payment programs and billing services we offer. If you have questions or want more detailed explanations, please visit our website at [www.nationalgrid.com](http://www.nationalgrid.com) or call 1-800-642-4272.

### Paying Your Bill/ Payment Options

• **DirectPay:** If you choose, National Grid will automatically withdraw your monthly bill payment from your checking or savings account. You will avoid the inconvenience of check writing, stamps, mailing and due dates. Your service bill will indicate your energy usage and the date of your next automatic withdrawal.

• **By Mail:** Send us your payment in the envelope provided with your bill. For your protection, please do not send cash. Put your 10-digit account number on your check or money order and include your bill stub. Please do not staple or paper clip your check to the stub.

• **In Person:** Pay at an authorized payment location by cash or check. Please bring your bill with you. Most locations charge a fee for providing this service. For the payment locations nearest you, visit our website or contact us.

• **Online:** Enroll online to receive and pay your bill online. The online function will begin with the next billing cycle following your enrollment.

• **Late Payment Charge:** To avoid Late Payment Charges, your payment must be received by the date shown on the front of the bill.

### Billing Credits

**Paperless Billing Credit:** A credit provided to Customers who elect to receive their bills electronically through the Company's Online Bill-Pay Program.

**Outage Credit:** A credit issued by the company in case of a prolonged electric service outage.

## Charges

Charges for electric or gas service are based on rates or prices approved by the New York State Public Service Commission (PSC). When changes in prices are approved by the PSC, information will be included with your bill. Complete price schedules are available on our website or by contacting us. National Grid reserves the right to upwardly adjust a previously issued bill or back bill.

**Basic Service:** A charge to cover costs for meter reading, billing, equipment and maintenance. This charge is the same regardless of how much energy is used during the billing period.

**Tariff Surcharge:** New York State and many local municipalities impose taxes on National Grid's revenue. These operating costs are recovered through a tariff surcharge applied to all rates and charges and may vary among taxing municipalities within the National Grid system area.

**Sales Tax:** In some areas National Grid is required to collect state and local sales taxes. Some school districts also impose taxes.

### Incremental State Assessment

**Surcharge/Credit:** A surcharge collected on behalf of New York State in accordance with Public Service Law, Section 18-a which established the Temporary State Energy and Utility Service Conservation Assessment.

**Merchant Function Charge:** A charge for the Company's cost to procure gas or electricity supply. The Company will not bill you this charge if you choose an alternate supplier.

### Energy Measurement Terms

**kWh:** The unit of electricity usage measured by your meter. One kilowatt-hour (kWh) is 1000 watts-hours, and will light a 100-watt bulb for 10 hours. The number of kWhs is used to determine the electricity charges on your bill.

**Meter Multiplier:** Due to their design, some meters record a fraction of the total usage. The multiplier is used to convert the recorded meter reading on these types of meters to total actual consumption.

**CCF:** The unit of gas volume (100 cubic feet) as measured by your meter.

**Therm:** A unit of heat content equal to 100,000 British Thermal Units (BTU). A BTU represents the amount of heat required to raise the temperature of one pound of water by one degree Fahrenheit. The number of CCFs is multiplied by a conversion factor to determine the therms used. The number of therms is used to determine the gas charges on your bill.

### Electric Service

**Delivery:** National Grid's charges for bringing electricity from your supplier to your premise, regardless of supplier.

**Legacy Transition Charge (LTC):** All delivery service customers are billed the cost or benefit of electricity supply contracts the Company entered prior to June 1, 2001. Residential customers also receive the benefit of low cost hydropower and a discount payment from the New York Power Authority.

**Capacity Tag:** Your adjusted electricity demand at the hour of the New York Control Area peak load in the most recent 12 month period ending May 1.

**SBC:** These charges reflect costs associated with mandated public policy programs, such as energy efficiency and the Clean Energy Standard.

**Clean Energy Delivery:** Charges associated with Clean Energy Standard program costs.

### Revenue Decoupling Mechanism ("RDM")

Reconciles actual billed delivery service revenues to annual target revenues. Delivery service revenues above target are refunded to customers. Target revenues above actual delivery service revenues are collected from customers.

**Transmission Revenue Adjustment:** Reconciles wholesale transmission service revenue to the forecasted transmission service revenue embedded in electric delivery rates. Transmission service revenues above those forecasted are credited to customers. Forecast revenues above actual revenues are collected from customers.

**Electricity Supply:** The price of electricity supply used during the billing period. If you choose an alternate supplier, the price will be what you agree upon with that supplier.

**Electricity Supply Reconciliation Mechanism (ESRM):** Reconciles National Grid's electricity supply service revenues to the cost of Company purchased electricity, including Clean Energy Standard costs. Costs above revenues are recovered from customers. Revenues above costs are credited to customers.

## Gas Service

### National Grid Gas Delivery Service Charge:

National Grid's charges for transporting gas across its distribution system to your premise, regardless of supplier.

**Adjustment for changes from normal weather:** A mechanism that adjusts customers' gas bills due to variations from normal weather during the heating months, October through May.

**System Benefits Charge:** A charge to reflect costs associated with certain mandated public policy programs, such as energy efficiency programs.

**Gas Supply:** A charge to reflect the Company's actual cost to purchase gas from suppliers and transporting the gas to the Company's distribution system. If you choose an alternate supplier, the price will be what you agree upon with that supplier.

### Delivery Service Adjustment:

A collection of surcharges and credits consisting of a Pipeline Refund, Net Revenue Sharing Adjustment, Research & Development Surcharge, Revenue Decoupling Mechanism Adjustment and Deferral Credit.

## Estimating Your Usage

When we are unable to obtain a reading, we estimate your usage based on your past usage, taking current weather conditions into account. Because our meters keep a continuous record of usage, any difference between estimated and actual usage is reconciled with the next meter reading. To avoid estimated readings, you can take your own reading on or just before the scheduled date shown on your bill and call it in at 1-888-932-0301.

For more information, visit us at: [www.nationalgrid.com](http://www.nationalgrid.com) or call 1-800-642-4272. Customers with problems paying their National Grid bill should call 1-800-443-1837.

## High energy user? Consider Time-of-Use.

Depending on your electricity usage patterns, your electricity bills may be lower on Time-of-Use (TOU) Service Classification 1C (SC-1C) rate than on standard residential service (SC-1)

SC-1C customers pay a higher basic service charge—currently \$30 per billing period—and a lower delivery charge than on standard residential service. However, these customers will pay more per kilowatt-hour for electricity supply used during on-peak periods. In return, they pay lower rates for electricity supply during off-peak periods, when the demand for electricity is lower.

If your usage is greater than 980 kWh and you have the ability to shift at least 12 percent of your usage to shoulder-peak hours and 80 percent of your usage to the off-season/off-peak hours, you may benefit from this rate. Once enrolling on the rate, there is a one-year commitment.

For more information, visit  
[www.nationalgridus.com/sc1c](http://www.nationalgridus.com/sc1c)

On-peak hours are:

- ▶ December, January, February:  
5 p.m. to 8 p.m. on weekdays
- ▶ June, July, August: 11 a.m. to  
5 p.m. on weekdays

Shoulder-peak hours are:

- ▶ December, January, February:  
9 a.m. to 5 p.m. on weekdays
- ▶ June, July, August: 8 a.m. to  
11 a.m. and 5 p.m. to 8 p.m.  
on weekdays

Off-season/off-peak hours are:

- ▶ December, January, February:  
8 p.m. to 9 a.m. weekdays, all  
hours weekends
- ▶ June, July, August: 8 p.m. to  
8 a.m. weekdays; all hours  
weekends
- ▶ All hours in the fall months  
(September, October and November)  
and spring months (March, April  
and May)
- ▶ All hours on Dec. 25, Jan. 1,  
and July 4

## For Your Information

We want you to easily understand your bill, the terms we use and the charges that appear. Following is a brief explanation of items that appear on your bill, as well as payment programs and billing services we offer. If you have questions or want more detailed explanations, please visit our website at [www.nationalgrid.com](http://www.nationalgrid.com) or call 1-800-642-4272.

### Paying Your Bill/ Payment Options

- **DirectPay:** If you choose, National Grid will automatically withdraw your monthly bill payment from your checking or savings account. You will avoid the inconvenience of check writing, stamps, mailing and due dates. Your service bill will indicate your energy usage and the date of your next automatic withdrawal.
- **By Mail:** Send us your payment in the envelope provided with your bill. For your protection, please do not send cash. Put your 10-digit account number on your check or money order and include your bill stub. Please do not staple or paper clip your check to the stub.
- **In Person:** Pay at an authorized payment location by cash or check. Please bring your bill with you. Most locations charge a fee for providing this service. For the payment locations nearest you, visit our website or contact us.
- **Online:** Enroll online to receive and pay your bill online. The online function will begin with the next billing cycle following your enrollment.
- **Late Payment Charge:** To avoid Late Payment Charges, your payment must be received by the date shown on the front of the bill.

### Billing Credits

**Paperless Billing Credit.** A credit provided to Customers who elect to receive their bills electronically through the Company's Online Bill-Pay Program.

**Outage Credit.** A credit issued by the company in case of a prolonged electric service outage.

## Charges

Charges for electric or gas service are based on rates or prices approved by the New York State Public Service Commission (PSC). When changes in prices are approved by the PSC, information will be included with your bill. Complete price schedules are available on our website or by contacting us. National Grid reserves the right to upwardly adjust a previously issued bill or back bill.

**Basic Service:** A charge to cover costs for meter reading, billing, equipment and maintenance. This charge is the same regardless of how much energy is used during the billing period.

**Tariff Surcharge:** New York State and many local municipalities impose taxes on National Grid's revenue. These operating costs are recovered through a tariff surcharge applied to all rates and charges and may vary among taxing municipalities within the National Grid system area.

**Sales Tax:** In some areas National Grid is required to collect state and local sales taxes. Some school districts also impose taxes.

### Incremental State Assessment

**Surcharge/Credit:** A surcharge collected on behalf of New York State in accordance with Public Service Law, Section 18-a which established the Temporary State Energy and Utility Service Conservation Assessment.

**Merchant Function Charge:** A charge for the Company's cost to procure gas or electricity supply. The Company will not bill you this charge if you choose an alternate supplier.

### Energy Measurement Terms

**kWh:** The unit of electricity usage measured by your meter. One kilowatt-hour (kWh) is 1000 watts-hours, and will light a 100-watt bulb for 10 hours. The number of kWhs is used to determine the electricity charges on your bill.

**Meter Multiplier:** Due to their design, some meters record a fraction of the total usage. The multiplier is used to convert the recorded meter reading on these types of meters to total actual consumption.

**CCF:** The unit of gas volume (100 cubic feet) as measured by your meter.

**Therm:** A unit of heat content equal to 100,000 British Thermal Units (BTU). A BTU represents the amount of heat required to raise the temperature of one pound of water by one degree Fahrenheit. The number of CCFs is multiplied by a conversion factor to determine the therms used. The number of therms is used to determine the gas charges on your bill.

### Electric Service

**Delivery:** National Grid's charges for bringing electricity from your supplier to your premise, regardless of supplier.

**Legacy Transition Charge (LTC):** All delivery service customers are billed the cost or benefit of electricity supply contracts the Company entered prior to June 1, 2001. Residential customers also receive the benefit of low cost hydropower and a discount payment from the New York Power Authority.

**Capacity Tag:** Your adjusted electricity demand at the hour of the New York Control Area peak load in the most recent 12 month period ending May 1.

**SBC:** These charges reflect costs associated with mandated public policy programs, such as energy efficiency and the Clean Energy Standard.

**Clean Energy Delivery:** Charges associated with Clean Energy Standard program costs.

**Revenue Decoupling Mechanism ("RDM"):** Reconciles actual billed delivery service revenues to annual target revenues. Delivery service revenues above target are refunded to customers. Target revenues above actual delivery service revenues are collected from customers.

**Transmission Revenue Adjustment:** Reconciles wholesale transmission service revenue to the forecasted transmission service revenue embedded in electric delivery rates. Transmission service revenues above those forecasted are credited to customers. Forecast revenues above actual revenues are collected from customers.

**Electricity Supply:** The price of electricity supply used during the billing period. If you choose an alternate supplier, the price will be what you agree upon with that supplier.

**Electricity Supply Reconciliation Mechanism (ESRM):** Reconciles National Grid's electricity supply service revenues to the cost of Company purchased electricity, including Clean Energy Standard costs. Costs above revenues are recovered from customers. Revenues above costs are credited to customers.

## Gas Service

**National Grid Gas Delivery Service Charge:** National Grid's charges for transporting gas across its distribution system to your premise, regardless of supplier.

**Adjustment for changes from normal weather:** A mechanism that adjusts customers' gas bills due to variations from normal weather during the heating months, October through May.

**System Benefits Charge:** A charge to reflect costs associated with certain mandated public policy programs, such as energy efficiency programs.

**Gas Supply:** A charge to reflect the Company's actual cost to purchase gas from suppliers and transporting the gas to the Company's distribution system. If you choose an alternate supplier, the price will be what you agree upon with that supplier.

**Delivery Service Adjustment:** A collection of surcharges and credits consisting of a Pipeline Refund, Net Revenue Sharing Adjustment, Research & Development Surcharge, Revenue Decoupling Mechanism Adjustment and Deferral Credit.

## Estimating Your Usage

When we are unable to obtain a reading, we estimate your usage based on your past usage, taking current weather conditions into account. Because our meters keep a continuous record of usage, any difference between estimated and actual usage is reconciled with the next meter reading. To avoid estimated readings, you can take your own reading on or just before the scheduled date shown on your bill and call it in at 1-888-932-0301.

For more information, visit us at: [www.nationalgrid.com](http://www.nationalgrid.com) or call 1-800-642-4272. Customers with problems paying their National Grid bill should call 1-800-443-1837.

## Understanding Demand Charges

Applied to nonresidential customers' service bills, demand charges help National Grid provide and maintain its electric service equipment and meet peak consumption periods.

Demand usage levels are used to determine the appropriate service classification under which a nonresidential customer will be billed. A change in recorded demand may cause a customer to be moved to a different service classification with different rates and charges.

Whenever a nonresidential customer served under Service Classification No 2 has recorded energy consumption greater than 2,000 kilowatt-hours (kWh) per month for four consecutive months, or whenever the connected load of a customer indicates that the energy consumption will exceed 2,000 kWh per month, National Grid will start billing for demand.

Once demand billing begins under SC-2, it does not end until after a customer's monthly energy consumption has been less than 2,000 kWh per month for 12 consecutive months. This requirement cannot be avoided by terminating service.

If a customer's monthly measured demand has equaled or exceeded 100 kilowatts (kW) in each of the previous 12 months and the average monthly load characteristics (sum of 12 monthly metered energies divided by the sum of the 12 monthly measured demands) indicate greater than 150 hours use, or when in the Company's opinion the applicant's demand will equal or exceed 100 kW in 12 consecutive months, the customer will be moved to SC-3. The customer will remain on SC-3 until the monthly measured demand has been less than 100 kW for 12 consecutive months following the initial term of service.

Information relating to the applicability of service classifications and demand billing can be found in National Grid's Electric Tariff. The tariff is available for review at [www.nationalgridus.com/tariff](http://www.nationalgridus.com/tariff) or at the Public Service Commission headquarters in Albany.

For National Grid service classifications, prices for electric service and supply, or other energy-related information, see [www.nationalgrid.com](http://www.nationalgrid.com) or call our Commercial and Industrial Business Team at 1-800-664-6729, Monday-Friday, 8 a.m. - 5 p.m.

## For Your Information

We want you to easily understand your bill, the terms we use and the charges that appear. Following is a brief explanation of items that appear on your bill, as well as payment programs and billing services we offer. If you have questions or want more detailed explanations, please visit our website at [www.nationalgrid.com](http://www.nationalgrid.com) or call 1-800-642-4272.

## Paying Your Bill/ Payment Options

- **DirectPay:** If you choose, National Grid will automatically withdraw your monthly bill payment from your checking or savings account. You will avoid the inconvenience of check writing, stamps, mailing and due dates. Your service bill will indicate your energy usage and the date of your next automatic withdrawal.
- **By Mail:** Send us your payment in the envelope provided with your bill. For your protection, please do not send cash. Put your 10-digit account number on your check or money order and include your bill stub. Please do not staple or paper clip your check to the stub.
- **In Person:** Pay at an authorized payment location by cash or check. Please bring your bill with you. Most locations charge a fee for providing this service. For the payment locations nearest you, visit our website or contact us.
- **Online:** Enroll online to receive and pay your bill online. The online function will begin with the next billing cycle following your enrollment.
- **Late Payment Charge:** To avoid Late Payment Charges, your payment must be received by the date shown on the front of the bill.

## Billing Credits

**Paperless Billing Credit:** A credit provided to Customers who elect to receive their bills electronically through the Company's Online Bill-Pay Program.

**Outage Credit:** A credit issued by the company in case of a prolonged electric service outage.

## Charges

Charges for electric or gas service are based on rates or prices approved by the New York State Public Service Commission (PSC). When changes in prices are approved by the PSC, information will be included with your bill. Complete price schedules are available on our website or by contacting us. National Grid reserves the right to upwardly adjust a previously issued bill or back bill.

**Basic Service:** A charge to cover costs for meter reading, billing, equipment and maintenance. This charge is the same regardless of how much energy is used during the billing period.

**Tariff Surcharge:** New York State and many local municipalities impose taxes on National Grid's revenue. These operating costs are recovered through a tariff surcharge applied to all rates and charges and may vary among taxing municipalities within the National Grid system area.

**Sales Tax:** In some areas National Grid is required to collect state and local sales taxes. Some school districts also impose taxes.

## Incremental State Assessment

**Surcharge/Credit:** A surcharge collected on behalf of New York State in accordance with Public Service Law, Section 18-a which established the Temporary State Energy and Utility Service Conservation Assessment.

**Merchant Function Charge:** A charge for the Company's cost to procure gas or electricity supply. The Company will not bill you this charge if you choose an alternate supplier.

## Energy Measurement Terms

**kWh:** The unit of electricity usage measured by your meter. One kilowatt-hour (kWh) is 1000 watts-hours, and will light a 100-watt bulb for 10 hours. The number of kWhs is used to determine the electricity charges on your bill.

**Meter Multiplier:** Due to their design, some meters record a fraction of the total usage. The multiplier is used to convert the recorded meter reading on these types of meters to total actual consumption.

**CCF:** The unit of gas volume (100 cubic feet) as measured by your meter.

**Therm:** A unit of heat content equal to 100,000 British Thermal Units (BTU). A BTU represents the amount of heat required to raise the temperature of one pound of water by one degree Fahrenheit. The number of CCFs is multiplied by a conversion factor to determine the therms used. The number of therms is used to determine the gas charges on your bill.

## Electric Service

**Delivery:** National Grid's charges for bringing electricity from your supplier to your premise, regardless of supplier.

**Legacy Transition Charge (LTC):** All delivery service customers are billed the cost or benefit of electricity supply contracts the Company entered prior to June 1, 2001. Residential customers also receive the benefit of low cost hydropower and a discount payment from the New York Power Authority.

**Capacity Tag:** Your adjusted electricity demand at the hour of the New York Control Area peak load in the most recent 12 month period ending May 1.

**SBC:** These charges reflect costs associated with mandated public policy programs, such as energy efficiency.

## Revenue Decoupling Mechanism ("RDM") :

Reconciles actual billed delivery service revenues to annual target revenues. Delivery service revenues above target are refunded to customers. Target revenues above actual delivery service revenues are collected from customers.

**Transmission Revenue Adjustment:** Reconciles wholesale transmission service revenue to the forecasted transmission service revenue embedded in electric delivery rates. Transmission service revenues above those forecasted are credited to customers. Forecast revenues above actual revenues are collected from customers.

**Electricity Supply:** The price of electricity supply used during the billing period. If you choose an alternate supplier, the price will be what you agree upon with that supplier.

**Electricity Supply Reconciliation Mechanism (ESRM):** Reconciles National Grid's electricity supply service revenues to the cost of Company-purchased electricity. Costs above revenues are recovered from customers. Revenues above costs are credited to customers.

## Gas Service

### National Grid Gas Delivery Service Charge:

National Grid's charges for transporting gas across its distribution system to your premise, regardless of supplier.

**Adjustment for changes from normal weather:** A mechanism that adjusts customers' gas bills due to variations from normal weather during the heating months, October through May.

**System Benefits Charge:** A charge to reflect costs associated with certain mandated public policy programs, such as energy efficiency programs.

**Gas Supply:** A charge to reflect the Company's actual cost to purchase gas from suppliers and transporting the gas to the Company's distribution system. If you choose an alternate supplier, the price will be what you agree upon with that supplier.

### Delivery Service Adjustment:

A collection of surcharges and credits consisting of a Pipeline Refund, Net Revenue Sharing Adjustment, Research & Development Surcharge, Revenue Decoupling Mechanism Adjustment and Deferral Credit.

## Estimating Your Usage

When we are unable to obtain a reading, we estimate your usage based on your past usage, taking current weather conditions into account. Because our meters keep a continuous record of usage, any difference between estimated and actual usage is reconciled with the next meter reading. To avoid estimated readings, you can take your own reading on or just before the scheduled date shown on your bill and call it in at 1-888-932-0301.

For more information, visit us at: [www.nationalgrid.com](http://www.nationalgrid.com) or call 1-800-642-4272. Customers with problems paying their National Grid bill should call 1-800-443-1837.

**Tougher Penalties Help Protect Utility Workers:** New York State has new laws in place to help better protect our field workers who face a number of challenges. Now, any action by a member of the public that prevents a utility worker from performing their job, or causes the worker physical injury, is considered a felony.

**Payment concerns?** We are here to help. To learn about solutions to help you take control of your energy use and bills, visit [www.ngrid.com/billhelp](http://www.ngrid.com/billhelp).

★ **WILL WE BE ABLE TO REACH YOU DURING A POWER OUTAGE?:** During a power outage, phones with a direct link to a local phone line are able to operate. Phones that are **not** directly linked (for example, wireless phones with answering machines) need electricity to make/receive calls. If you would like to register another phone number, such as a cell phone, as your account's primary phone number, please go to [www.nationalgrid.com/myaccount](http://www.nationalgrid.com/myaccount) to update your information so that we may be able to reach you with important information during power outages.

KEEP THIS PORTION FOR YOUR RECORDS.

RETURN THIS PORTION WITH YOUR PAYMENT.

## For Your Information

We want you to easily understand your bill, the terms we use and the charges that appear. Following is a brief explanation of items that appear on your bill, as well as payment programs and billing services we offer. If you have questions or want more detailed explanations, please visit our website at [www.nationalgrid.com](http://www.nationalgrid.com) or call 1-800-642-4272.

### Paying Your Bill/ Payment Options

• **DirectPay:** If you choose, National Grid will automatically withdraw your monthly bill payment from your checking or savings account. You will avoid the inconvenience of check writing, stamps, mailing and due dates. Your service bill will indicate your energy usage and the date of your next automatic withdrawal.

• **By Mail:** Send us your payment in the envelope provided with your bill. For your protection, please do not send cash. Put your 10-digit account number on your check or money order and include your bill stub. Please do not staple or paper clip your check to the stub.

• **In Person:** Pay at an authorized payment location by cash or check. Please bring your bill with you. Most locations charge a fee for providing this service. For the payment locations nearest you, visit our website or contact us.

• **Online:** Enroll online to receive and pay your bill online. The online function will begin with the next billing cycle following your enrollment.

• **Late Payment Charge:** To avoid Late Payment Charges, your payment must be received by the date shown on the front of the bill.

### Billing Credits

**Paperless Billing Credit:** A credit provided to Customers who elect to receive their bills electronically through the Company's Online Bill-Pay Program.

**Outage Credit:** A credit issued by the company in case of a prolonged electric service outage.

## Charges

Charges for electric or gas service are based on rates or prices approved by the New York State Public Service Commission (PSC). When changes in prices are approved by the PSC, information will be included with your bill. Complete price schedules are available on our website or by contacting us. National Grid reserves the right to upwardly adjust a previously issued bill or back bill.

**Basic Service:** A charge to cover costs for meter reading, billing, equipment and maintenance. This charge is the same regardless of how much energy is used during the billing period.

**Tariff Surcharge:** New York State and many local municipalities impose taxes on National Grid's revenue. These operating costs are recovered through a tariff surcharge applied to all rates and charges and may vary among taxing municipalities within the National Grid system area.

**Sales Tax:** In some areas National Grid is required to collect state and local sales taxes. Some school districts also impose taxes.

### Incremental State Assessment

**Surcharge/Credit:** A surcharge collected on behalf of New York State in accordance with Public Service Law, Section 18-a which established the Temporary State Energy and Utility Service Conservation Assessment.

**Merchant Function Charge:** A charge for the Company's cost to procure gas or electricity supply. The Company will not bill you this charge if you choose an alternate supplier.

### Energy Measurement Terms

**kWh:** The unit of electricity usage measured by your meter. One kilowatt-hour (kWh) is 1000 watts-hours, and will light a 100-watt bulb for 10 hours. The number of kWhs is used to determine the electricity charges on your bill.

**Meter Multiplier:** Due to their design, some meters record a fraction of the total usage. The multiplier is used to convert the recorded meter reading on these types of meters to total actual consumption.

**CCF:** The unit of gas volume (100 cubic feet) as measured by your meter.

**Therm:** A unit of heat content equal to 100,000 British Thermal Units (BTU). A BTU represents the amount of heat required to raise the temperature of one pound of water by one degree Fahrenheit. The number of CCFs is multiplied by a conversion factor to determine the therms used. The number of therms is used to determine the gas charges on your bill.

### Electric Service

**Delivery:** National Grid's charges for bringing electricity from your supplier to your premise, regardless of supplier.

**Legacy Transition Charge (LTC):** All delivery service customers are billed the cost or benefit of electricity supply contracts the Company entered prior to June 1, 2001. Residential customers also receive the benefit of low cost hydropower and a discount payment from the New York Power Authority.

**Capacity Tag:** Your adjusted electricity demand at the hour of the New York Control Area peak load in the most recent 12 month period ending May 1.

**SBC:** These charges reflect costs associated with mandated public policy programs, such as energy efficiency and the Clean Energy Standard.

**Clean Energy Delivery:** Charges associated with Clean Energy Standard program costs.

### Revenue Decoupling Mechanism ("RDM")

Reconciles actual billed delivery service revenues to annual target revenues. Delivery service revenues above target are refunded to customers. Target revenues above actual delivery service revenues are collected from customers.

**Transmission Revenue Adjustment:** Reconciles wholesale transmission service revenue to the forecasted transmission service revenue embedded in electric delivery rates. Transmission service revenues above those forecasted are credited to customers. Forecast revenues above actual revenues are collected from customers.

**Electricity Supply:** The price of electricity supply used during the billing period. If you choose an alternate supplier, the price will be what you agree upon with that supplier.

### Electricity Supply Reconciliation Mechanism

(ESRM): Reconciles National Grid's electricity supply service revenues to the cost of Company purchased electricity, including Clean Energy Standard costs. Costs above revenues are recovered from customers. Revenues above costs are credited to customers.

## Gas Service

### National Grid Gas Delivery Service Charge:

National Grid's charges for transporting gas across its distribution system to your premise, regardless of supplier.

**Adjustment for changes from normal weather:** A mechanism that adjusts customers' gas bills due to variations from normal weather during the heating months, October through May.

**System Benefits Charge:** A charge to reflect costs associated with certain mandated public policy programs, such as energy efficiency programs.

**Gas Supply:** A charge to reflect the Company's actual cost to purchase gas from suppliers and transporting the gas to the Company's distribution system. If you choose an alternate supplier, the price will be what you agree upon with that supplier.

### Delivery Service Adjustment:

A collection of surcharges and credits consisting of a Pipeline Refund, Net Revenue Sharing Adjustment, Research & Development Surcharge, Revenue Decoupling Mechanism Adjustment and Deferral Credit.

## Estimating Your Usage

When we are unable to obtain a reading, we estimate your usage based on your past usage, taking current weather conditions into account. Because our meters keep a continuous record of usage, any difference between estimated and actual usage is reconciled with the next meter reading. To avoid estimated readings, you can take your own reading on or just before the scheduled date shown on your bill and call it in at 1-888-932-0301.

For more information, visit us at [www.nationalgrid.com](http://www.nationalgrid.com) or call 1-800-642-4272. Customers with problems paying their National Grid bill should call 1-800-443-1837.
